

"DONE RIGHT" IS MORE THAN JUST A SLOGAN. IT'S A WAY OF LIFE.

Here's to the early risers. The heavy lifters. The people who believe there's only one way a job should be done—and that's DONE RIGHT. We've been outfitting these hard workers since 1923 in everything from shirts, pants and overalls to lab coats and butcher wraps. Today, we outfit more than 16 million workers, and we're just getting started.

So, here's to the people who do the tough jobs. The challenging jobs. The messy jobs. The bending, twisting jobs. The jobs that make you think on your feet. And yes, they can be the fun jobs — at least for those of us who take great pride in our work and pride in the people we work alongside. We make Red Kap for all of you. And we'll continue, for as long as there are people who never quit, who go to work before the sun comes up and head home for dinner long after the sun's gone down.

ICON GUIDE

Use the below legend as a guide to help quickly identify unique features and benefits for our products. Certain icons will appear in each product description that are specific to that garment.

WOMEN'S COMPANION PIECE AVAILABLE

Garments on pages 38-73 featuring this icon have a female companion piece located in the Women's Workwear section on pages 94-103. You can also quickly identify women's versions that are available by referencing the shirts and pants product grids on pages 8-17.

TOUCHTEX™ TECHNOLOGY

Superior color retention, soil release and wickability.

YARN DYED STRIPES

Yarns are dyed then woven into a striped configuration.

DURABLE PRESS

Minimum pressing or ironing required. Fabric contains a wrinkle-resistant finish.

NO BUTTONS

This garment has no buttons that will fall off or catch.

UV BUTTONS

Non-yellowing buttons for long-lasting whiteness through industrial laundry processing.

HYDROPHYLLIC MOISTURE MANAGEMENT SYSTEM

Technical term meaning moisture wicking. Wicks perspiration away from your skin and spreads it over the fabric face where it quickly evaporates, allowing the wearer to stay cool, dry and comfortable.

OFFICIAL WORK SHIRT OF THE POWERBLOCK®

Product endorsed and worn by the Powerblock® hosts of the popular shows *Muscle Car, XTreme 4x4, HorsePower, Trucks!* and *Search & Restore* on SpikeTV.

ROKAP

A Red Kap® term for our no-roll waistband. This garment has enhanced engineering to withstand industrial laundry stress and abrasion. The waistband has a mesh inner lining inside to reduce breakdown in fabric fibers, giving the pant a permanent crease through the laundry.

WORK NMOTION® FABRIC

Created exclusively for Red Kap® and provides permanent comfort during wear with memory stretch yarns for added flexibility.

CLASSIC FIT

This fit features a traditional rise that sits at the natural waist. Slim through the seat and thigh with a slimmer leg opening that will fit over work boots.

RELAXED FIT

Our relaxed fit jeans feature a traditional rise that sits at the natural waist. Relaxed seat and thigh offer more room for mobility and the slightly tapered leg fits over work boots.

LOOSE FIT

This fit features an updated rise that sits slightly below the waist and is cut through the seat and thigh to offer maximum comfort and ease of movement. The straight leg fits over work boots.

DUNGAREE FIT

Our dungarees feature a loose fit with an updated rise that sits slightly below the natural waist. Full cut through seat and thigh for maximum comfort and ease of movement. Straight leg fits over work boots.

HI-VISIBILITY CLASS 2 LEVEL 2

Intended for use in activities where greater visibility is necessary during inclement weather conditions or in work environments with risks that exceed those for Class 1. These garments also cover workers who perform tasks that divert their attention from approaching traffic or that put them in close proximity to passing vehicles traveling at 25 mph or higher.

HI-VISIBILITY CLASS 3 LEVEL 2

Provides the highest level of visibility and are intended for workers who face serious hazards, such as nighttime work, and often have high task loads that divert attention away from approaching vehicle traffic. Garments for these workers should provide enhanced visibility to more of the body, such as arms and legs.

HI-VISIBILITY CLASS E LEVEL 2

Waistband trousers, bib overalls and shorts that meet all minimum requirements for retro-reflective and background materials, except for minimum area and placement required for Performance Class 3, 2 or 1. Class E apparel is not intended to be worn without Performance Class 2 or 3 apparel. When Class E trousers are worn with Performance Class 2 or Class 3 apparel, the overall classification for the ensemble is Performance Class 3.

UPF 40 RATING

Ultraviolet Protection Factor - A rating designed for clothing that specifically measures the level of sun protection. UPF measures both UVA and UVB rays.

PRODUCT FEATURES

It's more than just hard-working workwear. Our Red Kap workwear collection is designed for the work you do everyday. Stronger seams. More durable fabrics. Pockets in just the right places. With so many features that help you get the job done, our workwear definitely has what it takes.

Hex Pocket

Corner-free pockets resist dirt and lint buildup. Added bartacks provide extra strength to prevent rips.

SmartPlacket

Buttons stay neatly hidden for a smooth look. Plackets also allow for custom embroidery application.

Versa Hem

A straight bottom hem offers a versatile fit with maximum comfort and style. Whether it's a tucked in or tucked out kind of day.

SewStrong

Bartacks with angled stitching take the strain to prevent rips.

DuraSeams

Double-stitched seams provide maximum strength and durability.

Roll Stop

No roll waistband is designed to lie flat and hold its shape. You stay comfortable while maintaining a clean, professional look.

Triple Grip System

Brass ratcheting zipper securely locks in place while strategically placed bartacks provide extra strength.

FABRIC

Touchtex[™] Technology with soil release keeps garments clean, moisture wicking keeps you dry and cool, wrinkle resistant option and superior color retention gives you one less thing to worry about.

TESTED RIGHT. DONE RIGHT.

Every Red Kap garment must pass rigorous testing for proof of excellence in design, engineering and construction. That's the done right guarantee.

FABRIC THAT WORKS (FOR YOU)

We offer a wide variety of high-quality, durable fabrics made to withstand the wear and tear endured on any jobsite. Whether you are looking for added comfort, durability or a little bit of both, we've got the fabric that suits your needs. And it's Red Kap, you know it's Done Right.

65% POLYESTER / 35% COTTON 80% POLYESTER / 20% COTTON

- Poly rich fibers deter dust and debris
- o Breathability and comfort of cotton
- o Strength and durability of polyester
- o Lightweight for comfort
- Provides excellent color retention

100% COTTON

- o All natural fibers offer breathability
- Twill weave adds strength
- o Easy care, wrinkle-resistant finish
- Lightweight for comfort
- o Soft hand and easy drape on the body

100% SPUN POLYESTER

- o Strong fibers that stand up to wear and tear
- Fibers have more "give" than natural fibers allowing comfort and movement
- Provides excellent color retention
- o Processes faster through all wash cycles
- o Fibers deter dust and debris

ANTI-STAT

- Low lint fabric
- Lightweight fabric with roomier fit for added comfort on the job
- Grippers at sleeves and at neck for extra coverage when needed
- External chest and hip pockets for additional storage

WORK NMOTION®

- o Memory Stretch yarns for added flexibility
- o Inherent stretch adds additional comfort
- Excellent stretch recovery at stress points (elbows and knees)
- Bartacks at all stretch points for added durability

SHOPPING FOR WORKWEAR SHOULDN'T BE WORK.

We're big believers in using the right tool for the job, no matter what that job might be. That's why we've created this handy product grid. With such a wide range of Red Kap® workwear available, these grids will help you quickly and easily find the garment you'll need to get the job done right.

Looking for a cotton work shirt? According to the grid, you'll find your match on pages 41, 42 and 46. Use the grid to browse multiple fabric options, men's and women's styles, plus apparel tailored for specific industries. It's all here. And it's all Red Kap.

INTRODUCTION TO THE ANSI HI-VISIBLITY STANDARD

The American National Standard for High-Visibility Safety Apparel and Headwear (ANSI/ISEA 107-2010) is a standard established by AMERICAN NATIONAL STANDARDS INSTITUTE for protection of construction, maintenance, utility, emergency responders, airport ramp personnel and other workers who are routinely exposed to the hazards of low visibility while on the job. Private industry, various federal, state, and local authorities have embraced ANSI/ISEA 107 compliant garments and headwear as useful PPE for workers exposed to struck-by-hazards.

This standard provides guidelines for the selection and use of high-visibility safety apparel such as shirts, rainwear, outerwear, safety vests and headwear to improve worker visibility during the day, in low-light conditions and at night.

The **ANSI/ISEA 107-1999** standard was the first U.S. standard for the design and performance of materials for high-visibility safety apparel.

ANSI/ISEA 107-1999 SPECIFIES THE FOLLOWING CRITERIA MUST BE MET:

- Design
- Requirements for Background and Combined-Performance Retroreflective materials
- Photometric and Physical Performance Requirements for Retro-reflective materials
- Care labeling

FINAL RULE

The Final Rule, 23 CFR Part 634 Worker Visibility, was passed on November 18, 2006 and took effect on November 24, 2008.

The Rule states that all workers within the right-of-way of a Federal-aid highway who are exposed to traffic or to construction equipment within the work area shall wear High-Visibility apparel that must meet Performance Class 2 or Class 3 requirements of ANSI/ISEA 107-2004.

The Federal Register Final Rule and revised document of the 2009 Manual on Uniform Traffic Control Devices (MUTCD) was released on December 16, 2009.

The Rule states that mandatory use areas are expanded beyond Federal-aid highways and will require all workers on or near the roadway right-of-way to wear High-Visibility safety apparel that meets performance Class 2 or Class 3 of ANSI 107-2004 or equivalent revisions (ANSI 107-2010).

The amount of background and reflective material remains unchanged for all 107 Classes. However, a Class 1 or a Class 2 garment must now have reflective material in the shoulder area. The objective of this change was to provide greater visibility when a worker is bending over, or at angles that could be potentially missed on a garment without "vertical" reflective material over the shoulders.

Phase-in for compliance on all public roads which are not Federal-aid highways is two years, ending on December 31, 2011.

ULTRAVIOLET PROTECTION FACTOR (UPF) RATING

A relatively new rating designation for sun protective textiles and clothing is UPF (Ultraviolet Protection Factor). Unlike SPF (Sun Protection Factor) that measures only UVB, UPF measures both UVA and UVB.

Sun protective clothing is clothing specifically designed for sun protection and is produced from a fabric rated for its level of ultraviolet (UV) protection. Sun protective clothing may be pre-treated with UV inhibiting ingredients during manufacture to enhance UV blocking capacity.

BE SURE TO LOOK FOR THE UPF 40 ICON TO SEE WHICH RED KAP PRODUCTS CAN HELP PROTECT YOU FROM HARMFUL UV RAYS.

CLASSIFICATIONS

ANSI/ISEA 107-2010 COMPLIANT SAFETY GARMENTS ARE CLASSIFIED AS FOLLOWS:

CLASS 2 GARMENTS – intended for use in activities where greater visibility is necessary during inclement weather conditions or in work environments with risks that exceed those for Class 1. Garments in this class also cover workers who perform tasks that divert their attention from approaching traffic, or that put them in close proximity to passing vehicles traveling at 25 mph or higher.

- Forestry operations
- · Ship cargo loading operations
- Roadway construction
- Utility and railway workers
- School crossing guards

- · Delivery vehicle drivers
- · High-volume parking and toll gate personnel
- · Airport baggage and handlers / ground crew
- · Emergency response and law enforcement
- Trash collection and recycling operations

CLASS 3 GARMENTS – provide the highest level of visibility, and are intended for workers who face serious hazards, such as nighttime work, and often have high task loads that require attention away from approaching vehicle traffic. Garments for these workers should provide enhanced visibility to more of the body, such as arms and legs.

- · Roadway construction personnel and flaggers
- · Survey crews

Utility workers

· Emergency response personnel

CLASS E GARMENTS – waistband trousers, bib overalls and shorts that meet all minimum requirements for retro-reflective and background materials, except for minimum area and placement required for Performance Class 3, 2 or 1 shall be designated Class E. Class E apparel is not intended to be worn without Performance Class 2 or 3 apparel. When Class E trousers are worn with Performance Class 2 or Class 3 apparel, the overall classification for the ensemble shall be Performance Class 3.

—— Jransform an ordinary —— UNIFORM PROGRAM INTO AN EXTRAORDINARY UNIFORM PROGRAM.

Through our Imagine It ® program we have taken the capability of creating customized uniform items and apparel to a new level. Visualize it... create it... and view it all online. We'll produce it. The possibilities are (almost) endless.

Decorate it. Modify it. Customize it.

This unique program allows you to select stock apparel from our many brands and modify or customize them to create uniforms that cater directly to your customer's needs. A red collar overlay, a decorative trim on the cuffs or the addition of reflective striping to a coverall are a few examples of the possibilities that can make your purchases unique.

Contact your sales representative for more information or join us online at vfimagewear.com and get started with your custom application.

Customization

KS60WH (PG. 154)

IMAGINE IT® ONLINE INTERFACE

Getting the look you want is easy. Just follow these four steps:

GO

Click on **www.vfimagewear.com** and login with your customer number in the upper right hand corner of the page.

Shop by catalog

CUSTOMIZE

After selecting a style, click "Customize" next to the Imagine It logo.

SHOP

Have fun browsing our catalogs and selecting garments (use the menu on the left side of the web page).

CUSTOMIZE

Select an option from the list to customize that portion of the garment and then select your locations and components from the next set of dropdown boxes. After reviewing, select "I'm finished."

ORDER

Prices subject to change without notice.

Place your customized order.

We hope you have had a chance to dive in and experience the ease with which Imagine It allows you to design and decorate garments. These additional features will assist you in tailoring the experience to meet your specific needs.

- Design garments for presentations.
- Easily save or email images you want to use in presentations now or in the future.
- Upload logos to add to your presentation.
- Browse the online inspiration library of our most popular customization ideas.

NEW ONLINE FEATURES

In response to customer suggestions and needs, we have added several new features to the online experience. Access these options by clicking on the "My Account" button in the top right corner just after logging in.

- VIEW/HIDE PRICING This feature gives you the option to view pricing while
 working in the configurator. This allows you to work with a customer without
 showing your customization costs.
- IL/HW WARNING Many of our distributors sell uniforms that are customized AND require industrial laundering. When selected, this option automatically filters out decorating options that will render a garment non-IL friendly. By calling out these items, you then have the option to change them to a comparable IL decoration or delete the activity altogether.
- SAVED CUSTOMIZATIONS This is the place where all of your saved customized garment images are stored. They are saved during the "Review" section in the product configurator under the heading, "Save Customization."

MEASURING GUIDELINES

(1) HEIGHT

Stand straight against a wall without your shoes. Make a mark level with the top of your head. Measure from this point down to the floor.

2 NECK

Measure around the base of the neck where a collared shirt would fit, or measure a collar band on a shirt that fits you well.

(3) CHEST/BUST

Measure the fullest part of your chest/bust. Hold the tape firmly, but not tightly. Be sure the tape is level and straight across your back. Stand naturally.

(4a) WAIST / MID-SECTION

First, remove your belt. Then, measure over shirt (not over pants) at the position you normally wear your pants. Hold the tape firmly but not tightly. For shirts and covering garments such as coveralls - measure midsection over clothing around the fullest part of the abdomen. Note: Include both "A" and "B" measurements if ordering multiple garments.

(5) HIPS

Stand with your heels together. Measure around the fullest part of the hips. Hold the tape measure straight and level.

(6) INSEAM

Standing straight, measure the distance from the crotch to just below the ankle bone. OR using similar style pants that fit you well: lay garment flat with front and back creases and smooth. Measure along the inside seam of one leg from the bottom of the hem to the crotch.

(7) SLEEVE

Bend the elbow slightly. Start at the center back of the neck and measure across the shoulder to the elbow and down to the wrist bone.

(8) TRUNK

Measure from base of neck (front) down around crotch and back up to the bottom of the collar. (For coveralls only)

(9) CAP/HAT SIZE

Measure the circumference of the head at it's widest diameter, approximately 1/8" above the ears.

(10) FRONT & BACK RISES

FRONT - This is the distance from the center front at the top of the waistband to the intersection of the crotch seams. BACK - This is the distance from the center back at the top of the waistband to the intersection of the crotch seams.

(11) ACROSS SHOULDERS

While standing with arms down, measure across the back from one shoulder joint to the other.

(12) UPPER ARM / BICEP

Measure the maximum circumference of the upper arm just below the under arm.

13) FOREARM

Measure the maximum circumference of the forearm at approximately 6" above the wrist.

(14) WRIST

Measure the wrist circumference over the wrist bone.

(15) THIGH

Measure around thigh (parallel to floor), below crotch.

(16) KNEE

With the leg straight, measure the knee circumference over the knee cap and parallel to the floor.

(17) CALF

Measure the circumference of the largest part of the lower leg approximately half way between the knee and ankle and parallel to the floor.

(18) OUTSEAM

Measure along the outside of the leg from the top of the waistband to the bottom of the hem of just below the ankle bone. OR - lay garment flat, measure along outseam from top of band to bottom of hem.

(19) OVER ARM

With arms at the sides, measure around the broadest part of the shoulders and upper arms, keeping the tape level at all times. If over-arm measurement is 7" larger than chest measurement, go up one size.
