RIDGE CARBIDE TOOL COMPANY.

REAL TOOLS. REAL SOLUTIONS. EXTRAORDINARY SERVICE.

When it comes to Carbide Cutting Tools, our reputation precedes us. That's why so many other tool companies recommend us for our vast experience in carbide cutting tools.

We'd like to thank you for requesting our latest catalog. This catalog not only offers the most complete line of the finest carbide tipped and high-speed steel wood-cutting products in America, it also contains some tools that have been nationally recognized as being among the best in the industry.

The Award Winning, 100% American Made TS2000 Table Saw Blade.

Rated "Excellent" by Fine Woodworking Magazine and recipient of the "Editor's Choice" award from American Woodworker Magazine. We're proud to have been recognized by these two fine industry publications.

Take a close look at our North Woods 4-tooth chipper Dado-Master. Priced at \$100.00 less than the best known Dado, we'll confidently go cut for cut against any competition. Our Dado-Master offers both the hobbieist and the professional outstanding quality and tremendous savings. The Dado-Master is geared to all your production needs and is available in either a 6", 8" or 10" diameter.

Liberty Line Router Bits, 100% American Made.

Talk to us about all of your carbide tipped, jointer planer knives, solid carbide and HSS knife needs. We can also custom manufacture HSS profile knives for the new jointer planer machines and Williams and Hussy's on the market.

The Ridge Carbide Difference.

We are a real tool company. We are not just tools from a catalog. We're also here to help you. If you don't see the tool you're looking for in our catalog, we can make it for you. We carry a wider range of unique bits and cutters than other catalogs and we'll even help you find tools you're looking for. We can sharpen and repair any tool in our catalog or any other tools you may need sharpened.

There aren't many other mail-order catalogs that can make these claims. Think of Ridge Carbide as your *Comfort Zone* where top quality products and service are built into the way we do business.

AWARD WINNING SAW BLADES

Wood Magazine, February 2000 "Ridge Carbide's TS2000 come close to the edge quality of a Forrest blade but has more side clearance so it is less likely to burn your material than the Forrest."

THE SAW BLADE TESTS ARE IN!

Here's Your Chance To Own A Ridge Carbide Award Winning Blade!

TS2000 Rated Excellent by Fine Woodworking
In all 5 tests and had the least plate runout.
October 1996 Issue, Page 42 & 43

FWW-TEST	FWW-RATING
PLATE RUNOUT	.003/LEAST
PLYWOOD CROSSCUT	EXCELLENT
MELAMINE	EXCELLENT
MDF	EXCELLENT
OAK (RIP)	EXCELLENT

ONCE AGAIN, THE RIDGE CARBIDE COMBO BLADE IS RECOGNIZED.

Fine Woodworking magazine reviewed and tested thirty saw-blades. We're proud to say that our TS-2000 combo blade was rated excellent in all areas. We even ran truer than the most popular blade on the market. Today we feel honored once again. Our TS-2000 combo blade isn't only the choice of many seasoned woodworkers, it's the Editor's Choice, given to us by American Woodworker magazine. And after being put to the test again, against eighteen competitors, we wear this honor proudly. (See AW issue #65, page 66, April 1998).

LIBERTY LINE ROUTER BITS

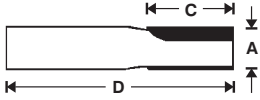

TOP RATED BY FINE WOODWORKING MAGAZINE

SPIRAL SHEAR FACE

Two flute flat bottom cutters. Top quality micrograin solid carbide. Will cut faster, smoother, and stays sharper longer. Produces a very clean, fast and accurate cut with minimal chatter. Upcut spiral helps remove material. Ideal for making mortise and tenon joints. Downcut spirals help hold the material in place while using handheld routers. Will plunge cut and plane edges. Eliminates chipping at the top of the cut. Ideal for soft & hardwoods, plywoods & composite, laminates, plastics and some non-ferrous metals.

Custom Bits Made To Order

WE SHARPEN SPIRAL BITS

COMPRESSION UP/DOWN SPIRAL BIT

One and two flute solid carbide bit is needed to get clean, chip-free and splinter-free cuts in composite sheet goods such as Melamine or 2-sided Formica/Laminates and veneered plywood. The Up-shear/Down-shear design of the bit cuts toward the center of the sheet from both sides at once, saving time and eliminating waste.

GLUE WELL TRIM BITS

TIRED OF BEARING BURNOUT?
New Glue Well™ Trim Bits

FLUSH TRIM BITS

Standard flush trim router bits clog with adhesive. The glue adheres to the bearing quickly during trimming. To prevent bearing burn, you have to clean the bit regularly and cleaning it reduces your productivity and profits.

Standard flush trim router bit bearing clogged with contact adhesive.

The patented American made Glue Well™ prevents seizure. The specially designed and engineered glue reservoir traps the contact adhesive before it can reach the bearing surface. Adhesive free bearings guarantee you smoother and longer trimming.

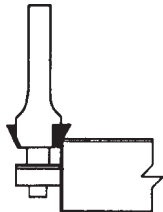

Patented Glue Well™ Flush Trim router bit bearing is free of contact adhesive after extensive use.

LAMINATE TRIM BIT

GLUE WELL™ LAMINATE TRIM BIT

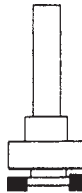

New Laminate Trim Bit has eliminated the tedious, time consuming task of hand filling of laminates. The Glue Well Laminate Trim Bits with its specially designed and engineered glue reservoir traps the contact adhesive before it can reach the bearing surface. Adhesive free bearings, plus its unique double bevel design assures a smoother and more accurate finished product.

CNC

"CNC" Bearing System

The bearing and post are removable so cuts can be produced on a CNC.

All stock router bits are only available with a 1/2" shank. Routers with a 3/4" I.D. have larger bearings that strengthen the tools for industrial applications.

For 3/4" to 15/16"
Material

H-747M
\$101.00

When properly positioned, these router bits will cut "A" and "B" matching joints without changing the vertical adjustment of the fence.

Both "A" and "B" are run flat on the router table. Part "B" is run again on the table saw to cut the groove.

BAND SAW BLADES

CARBON WOOD PRODUCTION & GENERAL PURPOSE

Ideal for wood production cutting as well as short production/maintenance applications using low alloy steel & non-ferrous metals. These carbon steel blades are manufactured from a single piece of high carbon steel with individually hardened tooth tips. The flexible back makes them more fatigue resistant. These blades are a perfect, all around band saw blade for all woodworking shops. Carbide tipped blades are readily available.

AT-A-GLANCE

- Flexible backs are fatigue-resistant
- Individually hardened teeth
- Can be run at speeds up to 15,000 SFM (Surface Feet Per Minute)
- Low cost-per-blade/low cost-per-cut in wood. Higher cost-per-cut in metal

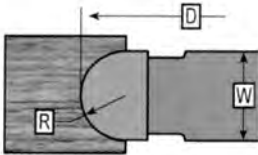

APPLICATIONS

- Wood
- Plastic
- Cork
- Composition Board
- Plywood
- Aluminum
- Non-ferrous metals
- Low alloy steel

CABINET & GLASS DOOR CUTTERS

NOT TO SCALE

“COMPONENT” COPE & STICK SETS

ADVANTAGE

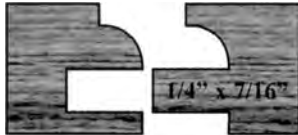

- 1) Sets are available face-up or face-down.
- 2) All are available with Opt. "A" Eased Edge. Opt. "A" Set will only produce a cabinet door cut.
- 3) Available with 5.5mm or 1/4" by 7/16" deep tongue.
- 4) Constant minor diameter and tool width requires no fence or height adjustment when changing heads.
- 5) Sets will produce cabinet door, glass door, and shaker door styles.
- 6) All bores are honed for accuracy.
- 7) All tools are balanced for vibration-free smooth cuts.

LOCK-MITER SETS

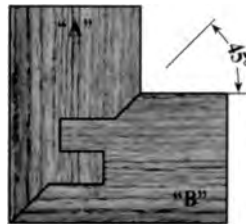

Advantage:

Our Multi-Piece Lock-Miter sets are designed with a shim for adjustability. The benefit allows the cutter to maintain a good joint throughout the life of the tool.

K-757
\$359.00

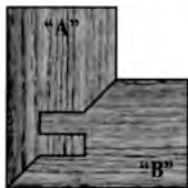

K-747
\$386.00

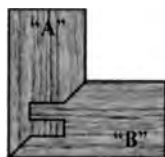

Both "A" and "B" are run flat on the shaper table. Part "B" is run again on a table saw to cut the groove.

K-748
\$348.00

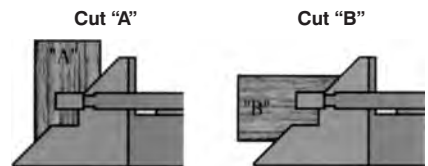

K-749
\$353.00

Order No.	Availability	Outside Diameters	
		3/4" Arbor	1 & 1/4" Arbor

2-KNIFE MOULDER HEADS FOR WILLIAMS & HUSSEY KNIVES

We now offer a line of cutter heads that allow you to use your existing Williams & Hussey knives on your shaper or larger high speed moulder - no need to order two sets of knives for each. Use all your existing W&H knives in these heads to match the exact profiles without having to order more corrugated back knives. Heads accept knives up to 1/4" thickness, 6000 rpm max. Heads include 3/8" bolts - placed on 1.0" centers.

FORSTNER BIT SETS

CARBIDE TIPPED FORSTNER SET

ITEM # 660-500 \$289.00

Carbide tipped forstner bits were designed so the rim remains extremely sharp, especially at the leading edge. It is here that the rim stays engaged in the cut so the bit won't drift laterally. This prevents tearout at the beginning of the cut to give a smooth clean cut. The finished hole will show a small center hole at the bottom of the hole.

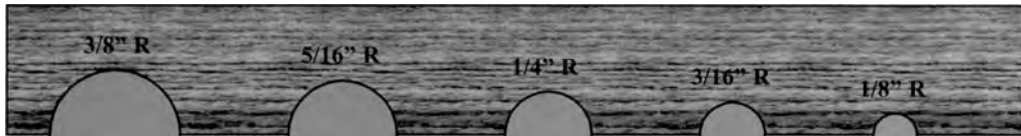

Item #660-500
14 pc. Carbide Tipped Set
Wood Case Included

SET INCLUDES THE FOLLOWING BITS

Order No.	Diameter	Shank	Overall Length	Price
660-100	1/2	3/8	3-1/2	\$15.00
660-110	5/8	3/8	3-1/2	16.00

TABLE SAW FLUTE CUTTING GROOVERS

FLUTING CUTTERS FOR TABLE SAWS

35C	36C	37C	37C-3/8	38C
\$210.00	\$205.00	\$176.00	\$160.00	\$125.00

- Fluting Cutters for table saws are four-wing cutters with 5/8" bores and 6-1/2" diameters.
- For continuous wood pull, the table saw's arbor must be tilted.

AWARD WINNING - SAW BLADES, ROUTER BITS & SHARPENING SERVICE

ARE YOU FRUSTRATED WITH YOUR LOCAL SHARPENING SERVICE?

If you are looking for a high quality saw & tool sharpening service company send your dull blades; bits, cutters and knives to the experts at Ridge Carbide Tool.

The RCT Tool Doctors will quality sharpen your tired tools back to good health and make them feel and cut better.

Ridge Carbide is a full service saw blade repair & sharpening center. We will return your dull, damaged, warped or wobbly saw blades back to you like new. And sometimes better than new!

Free Return Shipping. See Page 76 For Details.

LISTEN TO WHAT OUR CUSTOMERS THINK.

"The last one you did for us looks beautiful. The finish is magnificent. I hope to send you a lot of business through our customer referral of your company."
James L. Box
CMT Tools, Tampa, FL

"After using your blade, I can't go back to an ordinary blade while waiting for my Ridge Carbide blade to be sharpened."
Robin Scherter,
Statington, PA

"You did a fine job on the first blade I sent you. It now cuts better than it ever did - including new."
Len Feldberg
Chestnut Ridge, NY

"Your grinding is very good and I'm telling students (et. al.) that not only is your grinding the best I know of but it is also the best value."
Patrick Warner
Designer/Furniture Maker
Escondido, CA

"I was very pleasantly surprised. The blades had never been so sharp. They were not even as sharp when I purchased them new.

From now on, if and when I need saw blades, router bits and/or planer blades sharpened, they will be sent to your company. Your work is top rate and your prices very reasonable."
Kent Pauley
Kent's Hardwood Furniture
Archer, FL
