Water-proof Fixture

Silicon seal gasket adopts tight PC or stainless steel lock for lamp body and diffuser for good water-proof function and IP65 protection. PC clips for easy wiring, prismatic diffuser to give even light, efficient usage of light and good dazzle-proof effect .

Direct plug and rotation installation for tubes to guarantee safe and convenience.

Easy and quick to install fixtures under ceiling or on surface.

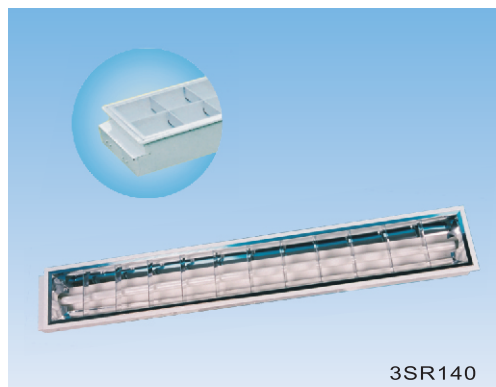

Curve, round and smoothness of corners and edges for elegant and functional appearance.

Integral and smooth body easy for cleaning.

■ Louver

High quality louver available with a wide range of attachments including aluminum louvers and framed diffusers, to suit the requirements of most concealed fix ceilings. This luminaire is fitted as standard with high frequency ballast for improved energy efficiency, flicker-free operation and instant start.

■ Specification

High Frequency Control Gear.
Rigid modular shape metalwork.
Fitted with fused terminal block.
IP 40/54 version provide seal to ceiling surface only. This attractive pearl white colour provides a high quality appearance and a scratch resistant textured finish which ensures maximum protection during handling and installation.

■ Flush Mounting Louver

Exquisite appearance, novel design, uniform light radiation, suitable for magnificent decorations in various large buildings.

Material of the diffuser:

Imported Al/domestic mirror Al/(sub-luminous), stainless, film-plated.

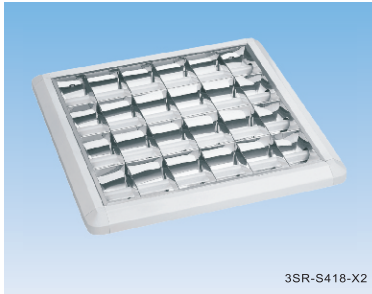

Material of main part: steel plate.
