PAVEMENT MAINTENANCE PRODUCTS & EQUIPMENT CATALOG

sealmaster.net

TABLE OF CONTENTS:

• PAVEMENT SEALERS:

MasterSeal, PMM, Liquid Road, AsPen, SealMaster LV, SealMaster Acrylic Pavement Sealer,
SealMaster E-Z Stir, SealMaster Coal Tar Sealer, PMB, PMCTS, ColorPave, ColorPave HD..... 1-9

• SEALER ADDITIVES:

Sealer VM, Top Tuff, Zetac, FASS-DRI, FSA, FSA AE 10-11

• CRACK FILLERS:

Pourable Crack Sealant, FlexMaster, Acrylic Crack Filler, Trowel Grade 12

CrackMaster Hot Pour 13

• PREPARATION/REPAIR:

Pothole Patch, Oil Spot Primers, GatorPave, Asphalt Binder, Asphalt Binder Plus,
TarBuster Cleaner, Tarpedo, MasterFlo..... 14-17

• TRAFFIC PAINTS:

Liquid Thermoplastic, SealMaster Traffic Paint, Handicap Blue, Firelane Red, Line Block-Out,
TTP-1952b, Fast Dry 18-19

• CONCRETE PRODUCTS:

Concrete Sealer, Concrete Patch Binder, Concrete Repair Materials..... 20-21

• DUST SUPPRESSANT:

SealMaster Dust Suppressant..... 22

• EQUIPMENT/PARTS:

Self-Propelled 300 Squeegee Machine, Self-Propelled 300 Dual Machine..... 24-25

Self-Propelled 575 Squeegee Machine, Self-Propelled 575 Dual 26-27

SprayMaster Tank Trailers, SprayMaster Skid Tanks, SprayMaster Tanks - Truck Mounts..... 28-32

SandPup Trailers, SandPup Portable Pumps, CrackPro Cold-Pour Crack Filler Application Units..... 33-35

SealMaster Texture Spray Unit, Porta-Pump, Sealer Wheeler..... 36

Econoline Mixing Tanks, Hand-Agitated Mixing Tanks..... 37

Heated Asphalt Storage Tanks, Bulk Storage Tanks 38-39

Chip Spreader 40

Heated Asphalt Distributors, Thermoplastic Melters..... 41-44

MA-10, SM-10 Melters, Heat Lance, SM-30, SM-100 Melter..... 45-46

CrackPro Melters..... 48-51

Parts 52-61

Scarifiers, Blowers, Crack Cleaners, Striping Machines, Traffic & Athletic Field Marking Systems..... 62-66

• TOOLS/ACCESSORIES:

Brushes, Squeegees 67

Spray Tips, Patching Straightedges, Line Taping Machine, Crackfilling Tools..... 68-69

Lutes, Rakes, Shovels, Hand-Tamper 70

Brooms, Scraper, Pail Openers, Chapin Sprayer, Asphalt Shoes..... 71

Fast Measure, Measuring Wheels, Traffic Cones, Safety Signs, Caution Tape 72-73

Parking Blocks, Speed Bumps..... 74

Striping Layout Tools, Personal Protection and Care Products 75

Stencils 76-78

• SPORT SURFACING:

ColorPlus Color Coating System..... 80

Cushion Coatings..... 81

Tennis Court Color Coatings..... 82

Resurfacers..... 83

Patching and Crack Filling Materials..... 84

Striping Paints, SportWax Clear Coat, Primers, Pre-Dispersed Pigment 85

Running Track Sealing and Repair Materials 86

SkateMaster In-Line Skate Surface 87

Tennis Court Accessories - Nets, Windscreens, Posts, etc..... 88-89

Tools 90

Color Coating Mixing Tanks 91

SportMaster Bulk Tank System..... 92

Squeegee Machines
available on pages 24-27

MasterSeal™

The Industry's #1 Choice
For Quality & Performance

MasterSeal™ is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1010P	5-gallon pail	52 lbs.	\$ 24.99
S1010D	55-gallon drum	580 lbs.	\$232.99
S1010B	Bulk	-	- quoted -

Mixing Procedures: (Based on 100 gallons of Concentrate)

MasterSeal™ Concentrate	100 gallons
Water	15-25 gallons
TopTuff Polymer Additive	2 gallons
Sand (40-70 mesh AFS)	300-500 lbs.

Note: Mix thoroughly in agitated tank and apply by squeegee, brush, or spray.

Material Requirements (coverage):

One gallon of MasterSeal™ Concentrate will cover approximately 100-120 square feet (11.1 to 13.3 square yards) per coat when properly mixed and applied.

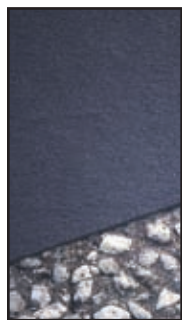

Note: Coverage rate may vary due to pavement age, porosity, and method of application.

Product Description...

MasterSeal™ is a mineral filled asphalt emulsion designed to protect and beautify all asphalt pavements including parking lots, driveways, airports, shopping malls, roadways, and more.

MasterSeal™ Advantages...

- User Friendly - No Irritating Fumes
- Deep, Rich Black Color
- More Flexible - Won't Check Crack
- Ideal For All Asphalt Pavement Surfaces

SEALED vs. UNSEALED

Problem: Left untreated, asphalt pavement will deteriorate rapidly. The asphalt binder that holds the pavement together begins to oxidize and weather soon after installation. Moisture penetrates the asphalt causing further damage and deterioration to the pavement.

Solution: MasterSeal™ Pavement Sealer replenishes the binder that is lost through weathering and aging, and provides superior protection against environmental distress.

(PMM) Polymer Modified MasterSeal™

High Solids Formula For Added Durability

PMM™ is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1097P	5-gallon pail	51 lbs.	\$ 25.99
S1097D	55-gallon drum	565 lbs.	\$251.99
S1097B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons)

PMM™ Concentrate	100 gallons
Sand (40-60 mesh AFS)	400 lbs.

Note: If required, a small amount of water may be added to facilitate application of mixed material.

Application:

For optimum performance and durability apply two coats of PMM with sand. A third coat of PMM with sand may be applied to high traffic areas such as entrances, exits, and drive lanes.

Material Requirements (coverage):

One gallon of PMM™ Concentrate will cover approximately 85-95 square feet (9.4 to 10.5 square yards) per coat when properly mixed as a sand-filled coat and applied.

Note: Coverage rate may vary due to pavement age, porosity, and method of application.

Product Description...

A high performance mineral reinforced asphalt emulsion blended with polymers and special surfactants for superior adhesion, flexibility, and durability.

PMM Advantages...

- Highly Durable - Applied at 58-62% solids (unlike conventional sealers that are applied at 40-43% solids)
- Rubberized For Added Flexibility & Adhesion
- Dries Fast

Unlike conventional sealers that require dilution of up to 50% with water, PMM's unique formulation allows for application at full strength without dilution. PMM is job mixed with specially graded aggregate to produce a coating that is applied at 58-62% solids, compared to conventional sealers which are applied at approximately 40-43% solids.

PMM DRIES FAST! ...PMM's unique high solids formulation provides much faster drying time in comparison to conventional pavement sealers that are diluted with water prior to application.

PMM - A Safer Pavement Sealer For Pedestrian & Vehicle Traffic

PMM's high level of aggregate loading produces a surface coating with exceptional skid resistance in both wet and dry conditions. PMM provides property owners with a safer pavement for both motorists and pedestrians.

Polymer Modification Makes The Difference

PMM incorporates the use of proven polymer technology. Elastomeric polymers are hot blended into PMM during the manufacturing process to produce a coating with added toughness, flexibility, adhesion, and weather resistance.

Specialty Surfactants Provide Water Resistance...

One of the leading causes of pavement sealer wear is absorption of water into the dried sealer film. Specialty surfactants are blended into PMM during the manufacturing process to produce a coating with exceptional water resistance and greatly enhances wear characteristics.

The Ultimate Coating System For Roads, Streets, & Other Pavement Surfaces.

Polymer Modified Asphalt Emulsion Surface Treatment Fortified With Fibers And Select Mineral Filler.

Liquid Road™ Advantages...

- Extends the service life of pavement.
- Replaces the pavement binder that is lost through oxidation.
- Provides a rich black color that helps to melt snow and ice.
- Protects pavement from oxidation, UV Rays, and moisture intrusion.

The Liquid Road™ System...

Liquid Road™ is a polymer modified, fiber reinforced asphalt emulsion coating that is job-mixed with specially graded aggregate and applied to the road surface. The result is a highly durable, slip-resistant surface treatment that greatly extends pavement service life.

Polymer Modification Makes The Difference...

Elastomeric polymers are hot blended into the Liquid Road coating during the manufacturing process to ensure maximum flexibility, weather resistance, and adhesion to the pavement surface.

Fiber Reinforcement...

Special fibers are added to provide flexural strength and bridging characteristics to the Liquid Road coating. Fiber reinforcement provides a more durable surface coating.

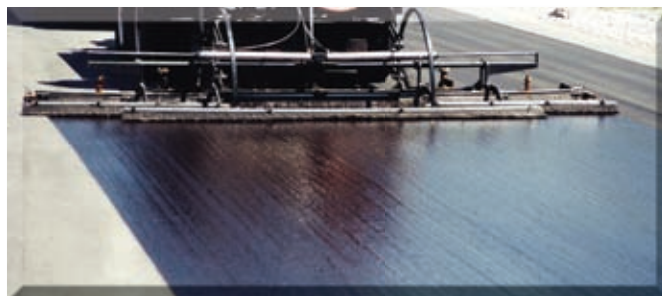

Uses For Liquid Road™...

Liquid Road™ is ideal for secondary roads, county roads, and residential streets. Liquid Road™ may also be used on off-street parking areas as a premium surface coating. Liquid Road™ produces an even textured surface with no loose stones or particles, making it ideal for vehicle, bicycle, and pedestrian traffic.

Liquid Road™

Protects And Renews Pavement

Liquid Road™ is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1045P	5-gallon pail	53 lbs.	\$ 29.99
S1045D	55-gallon drum	590 lbs.	\$292.99
S1045B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons of Liquid Road)

Liquid Road™ 100 gallons
 Sand (20-30 mesh AFS) 400 lbs.
 - a finer sand may be used for parking lot application.

Note: A small amount of water may be added to facilitate application.

Material Requirements (coverage):

One gallon of Liquid Road™ will cover approximately 55-66 square feet (6 to 7.5 square yards) per coat when properly mixed and applied.

AsPen® Pavement Rejuvenator

The Environmentally Friendly Rejuvenator.

*Ideal for roads, streets, malls,
airports, and highway shoulders.*

AsPen® is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1040P	5-gallon pail	51 lbs.	\$ 25.99
S1040D	55-gallon drum	565 lbs.	\$244.99
S1040B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons of AsPen)

AsPen® Concentrate	100 gallons
Water	80 gallons

Material Requirements (coverage):

One gallon of AsPen® Concentrate will cover approximately 210-270 square feet (23 to 30 square yards) per coat when properly mixed and applied.

Product Description...

AsPen® is an asphalt emulsion based pavement surface treatment that replenishes the binder that is lost through oxidation, weathering, and aging.

AsPen® Advantages...

- Deep black color provides like-new appearance.
- Environmentally friendly water based formula.
- Helps melt snow and ice faster.
- One coat application.

SealMaster® Acrylic Pavement Sealer

100% Acrylic Premium Grade Pavement Sealer

SUPERIOR FUEL RESISTANCE!

Product Description...

SealMaster® Acrylic Pavement Sealer is a premium quality 100% acrylic emulsion designed for coating asphalt pavement surfaces. The acrylic sealer is job-mixed with select aggregate and applied to the pavement surface producing a durable, slip resistant coating. SealMaster® Acrylic Pavement Sealer resists scuffing and tracking into buildings and onto floors. It is also resistant to fuel and chemical attack. **IMPORTANT: Do not apply to pavement surfaces that have previously been sealed with coal tar or asphalt based sealers.**

Product Uses:

- Driveways
- Parking Lots
- Cart/Jogging/Bike Paths
- Other Asphalt Pavement Surfaces

SealMaster® Acrylic Pavement Sealer...

A safer pavement sealer for pedestrian and vehicle traffic. High levels of aggregate produces a surface coating with exceptional skid resistance in both wet and dry conditions. Provides property owners with a safer pavement for both motorists and pedestrians.

SealMaster® Acrylic Pavement Sealer is available in:

Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1035P	5-gallon pail	53 lbs.	\$ 46.99
S1035D	55-gallon drum	590 lbs.	\$473.99
S1035B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons of SealMaster Acrylic Pavement Sealer)

SealMaster Acrylic Pavement Sealer 100 gallons
Sand (50-70 mesh AFS rating) 700 lbs.

Note: - If required, a small amount of water may be added to facilitate application of the mixed material.

Material Requirements (coverage):

One gallon of SealMaster® Acrylic Pavement Sealer will cover approximately 70-80 square feet (7.8 to 8.9 square yards) per coat when properly mixed and applied.

SealMaster® E-Z Stir Pavement Sealer

The Sealer That's Ready-To-Use!

Simply stir, pour, and apply by squeegee, brush, or spray!

Advantages:

- Ideal for maintenance crews and Do-It-Yourselfers
- Fortified with sand for slip resistance and durability.

SealMaster® EZ-Stir Pavement Sealer is available in: *Drum, Pail*

PRODUCT #	DESCRIPTION	WT.	PRICE
S1070P	5-gallon pail	56 lbs.	\$ 24.99
S1070D	55-gallon drum	620 lbs.	\$231.99

Mixing Procedures:

Simply stir, pour, and apply by squeegee, brush, or spray.

Material Requirements (coverage):

One gallon of SealMaster® EZ-Stir Pavement Sealer will cover approximately 70-82 square feet (7.8 to 9.1 square yards) per coat when properly mixed and applied.

Note: Coverage rate may vary due to pavement age, porosity, and method of application.

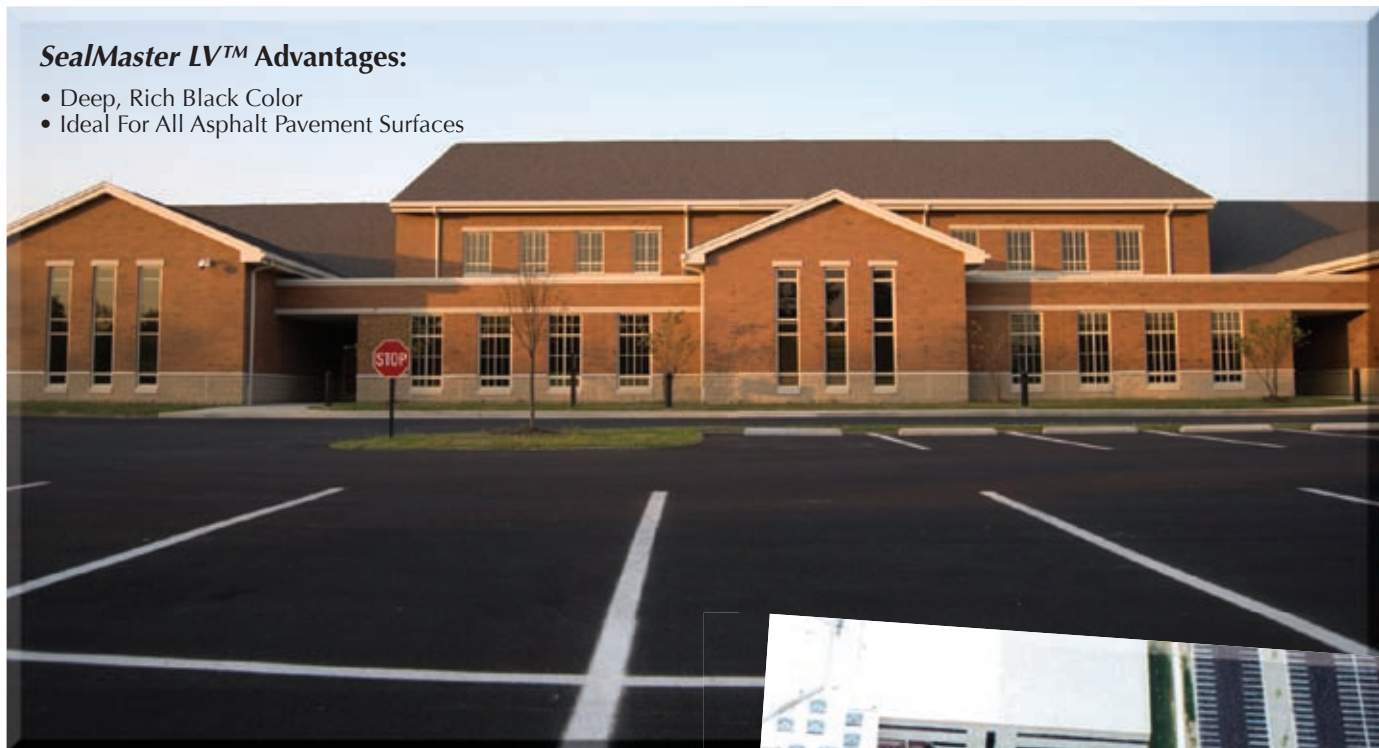

DISCLAIMER: THERE ARE LEGAL LIMITS TO THE USE OF THIS PRODUCT IN CERTAIN STATES.

SealMaster LV™

*An Asphalt Based Pavement Sealer Fortified With Coal Tar
For Added Fuel Resistance & Durability.*

SealMaster LV™ Advantages:

- Deep, Rich Black Color
- Ideal For All Asphalt Pavement Surfaces

SealMaster LV™ is an asphalt based pavement sealer fortified with coal tar for added fuel resistance and durability. SealMaster LV™ is ideal for beautifying and protecting all asphalt pavement surfaces including parking lots, driveways, airports, shopping malls, roadways, and more. SealMaster LV™ provides the advantages of both asphalt and coal tar in one product.

SealMaster LV™ is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1002P	5-gallon pail	54 lbs.	\$ 23.99
S1002D	55-gallon drum	595 lbs.	\$222.99
S1002B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons of Concentrate)

SealMaster LV™ Concentrate	100 gallons
Water	20-25 gallons
TopTuff™ Polymer Additive	2 gallons
Sand (40-70 mesh AFS)	300-500 lbs.

Mix thoroughly in agitated tank and apply by squeegee, brush, or spray.

Material Requirements (coverage):

One gallon of SealMaster LV™ Concentrate will cover approximately 100-120 square feet (11.1 to 13.3 square yards) per coat when properly mixed and applied.

DISCLAIMER: PRODUCTS ON THIS PAGE ARE NOT AVAILABLE AT ALL LOCATIONS AND HAVE BEEN BANNED IN CERTAIN STATES.

Coal Tar Pavement Sealer

Coal Tar Pavement Sealer Exhibits Outstanding Fuel Resistance

Squeegee or Spray Application

Advantages...

- Deep, Rich Black Color
- Oil and Fuel Resistant
- Reduced Fume Formulation For User Friendly Application

Coal Tar Pavement Sealer™ is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1000P	5-gallon pail	54 lbs.	\$ 26.99
S1000D	55-gallon drum	595 lbs.	\$258.99
S1000B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons of Concentrate)

Coal Tar	100 gallons
Water	30-40 gallons
Sealer VM™ Polymer Additive	1-2 gallons
Sand (40-70 mesh AFS)	300-500 lbs.

Mix thoroughly in agitated tank and apply by squeegee, brush, or spray.

Material Requirements (coverage):

One gallon of Coal Tar Concentrate will cover approximately 100-120 square feet (11.1 to 13.3 square yards) per coat when properly mixed and applied.

Note: Coverage rate may vary due to pavement age, porosity, and method of application.

Polymer-Modified Coal Tar Sealer (PMCTS)

Premium quality coal tar emulsion pavement sealer fortified with cross-linking rubber polymers.

Advantages:

- Highly durable - applied at 55-57% solids (unlike conventional sealers that are applied at 40-43% solids)
- Dries Fast
- Rubberized for added flexibility and adhesion
- Fuel Resistant

Application: For optimum performance and durability apply two coats of PMCTS with sand. A third coat of PMCTS with sand may be applied to high traffic areas such as entrances, exits, and drive lanes.

PMCTS™ is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1096P	5-gallon pail	51 lbs.	\$ 28.99
S1096D	55-gallon drum	565 lbs.	\$283.99
S1096B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons of Concentrate)

PMCTS Concentrate	100 gallons
Sand (40-60 mesh AFS)	400 lbs.

Note: If required, a small amount of water may be added to facilitate application of mixed material.

Material Requirements (coverage):

One gallon of PMCTS Concentrate will cover approximately 85-95 square feet (9.4 to 10.5 square yards) per coat when properly mixed as a primer coat and applied.

PMB™

Higher Solids Means Longer Wear

PMB™ is a unique coal tar based emulsion pavement sealer fortified with hot blended polymers and specialty surfactants producing a coating with outstanding wear properties.

Application: For optimum performance and durability apply one primer coat of PMB™ and two coats of PMB™ with sand. A third coat of PMB™ with sand may be applied to high traffic areas such as entrances, exits, and drive lanes.

PMB™ is available in: Bulk, Drum, Pail

PRODUCT #	DESCRIPTION	WT.	PRICE
S1095P	5-gallon pail	51 lbs.	\$ 34.99
S1095D	55-gallon drum	565 lbs.	\$352.99
S1095B	Bulk pricing available on request.		

Mixing Procedures: (Based on 100 gallons of Concentrate)

• Sand-Filled Coat:

PMB™ Concentrate	100 gallons
Sand (40-60 mesh AFS)	400-500 lbs.

Note: If required, a small amount of water may be added to facilitate application of mixed material.

• Primer Coat: For use as a primer (without sand)

PMB™ Concentrate	100 gallons
Water	20-25 gallons

Material Requirements (coverage):

• **Sand-Filled Coat:** One gallon of PMB™ Concentrate will cover approximately 85-95 square feet (9.4 to 10.5 square yards) per coat when properly mixed as a sand-filled coat and applied.

• **Primer Coat:** One gallon of PMB™ Concentrate will cover approximately 180 square feet (20 square yards) when properly mixed as a primer coat and applied.

ColorPave™ Neutral Concentrate

ColorPave™ Neutral Concentrate is formulated for job-mixing with ColorPlus or ColorPave HD pigment dispersion, water, and sand. (See ColorPlus Pigment Dispersion - page 80 or ColorPave HD Tint - page 9).

ColorPave Neutral Concentrate is available in: *Keg, Drum, Tote, Bulk*

PRODUCT #	DESCRIPTION	WT.	PRICE
S2105K	30-gallon Keg	280 lbs	\$ 367.99
S2105D	55-gallon Drum	525 lbs.	\$ 584.99
S2105T	275-gallon Tote	2,650 lbs.	\$2,925.99
S2105B	Bulk pricing available on request		

Mixing Procedures:

ColorPave™ Neutral Concentrate	55-gallons
Water	33 gallons
ColorPlus or HD Tint	4 gallons
Sand (50-60 mesh)	800 lbs.

Material Requirements (coverage):

.07 to .09 gallons of ColorPave™ Neutral Concentrate per square yard per coat. Two coats are recommended for optimum performance. NOTE: Actual coverage rates will vary due to differences in pavement porosity.

ColorPave™ Neutral Ready-Mix

ColorPave™ Neutral Ready-Mix is designed to be mixed with ColorPave HD Tint or ColorPlus.

Available in 13 standard HD earth tone colors as well as ColorPlus colors. (See page 9 and 80 for colors and pricing).

ColorPave Neutral Ready-Mix is available in: *Pail*

PRODUCT #	DESCRIPTION	WT.	PRICE
S2092P	5-gallon pail (4-gallon net)	56 lbs.	\$ 64.99

Mixing Procedures:

ColorPave™ Neutral Ready-Mix	1-pail
ColorPave HD Tint or ColorPlus	1-pint

Note: If needed, a small amount of water may be added to facilitate application.

Material Requirements (coverage):

One gallon will cover approximately 60 to 70 square feet (6.7 to 7.8 square yards) per coat. Two coats are recommended for optimum performance. NOTE: Actual coverage rates will vary due to differences in pavement porosity.

Bring Color To Your Pavement!

For asphalt pavement surfaces including: Driveways, Parking Lots, Paths, Walkways, and more!

Formerly known as ColorPave™ Neutral Base

ColorPave™ beautifies and protects asphalt pavement surfaces including driveways, parking lots, walkways, golf cart paths, jogging/bike paths, amusement parks, tennis courts, and more.

IMPORTANT: Do not apply to pavement surfaces that have previously been sealed with coal tar or asphalt based sealers.

ColorPave™ HD Tint

A highly concentrated water based pigment dispersion designed as a colorant that is added to ColorPave™ HD 500, ColorPave™ Neutral Concentrate, ColorPave™ Neutral Ready-Mix.

ColorPave™ HD Tint is available in: *Pint Bottle*
Available in 13 standard earth tone colors.

ColorPave™ Clear Coat

ColorPave™ HD Clear Coat is a 100% acrylic, clear drying emulsion specifically formulated as a protective top coat for ColorPave™ HD color coatings. It provides additional protection against ultra-violet rays, moisture, oil, gas, and chemical attack.

ColorPave™ HD Clear Coat helps extend the service life of ColorPave™ HD color coatings. Clear Coat HD can be applied by spray, brush, or roller.

ColorPave™ Clear Coat is available in: *Pail*

PRODUCT #	DESCRIPTION	WT.	PRICE
S2300P	5-gallon pail	46 lbs.	\$151.99

Mixing Procedures:

ColorPave™ HD Clear Coat: Use as is. Do not dilute.

Material Requirements (coverage):

One gallon will cover approximately 200 square feet (22 square yards) per coat.

ColorPave™ HD 500

Ideal For Coating Imprinted Asphalt Surfaces.

ColorPave™ HD 500 is supplied as a Neutral Base designed to be mixed with ColorPave™ HD Tint or ColorPlus to achieve desired color. Pails contain 4 gallons of material to allow room for adding and mixing ColorPave™ HD Tint. Add 1 pint bottle of ColorPave™ HD Tint to one pail of ColorPave™ HD 500.

IMPORTANT: *Do not apply to pavement surfaces that have previously been sealed with coal tar or asphalt based sealers.*

ColorPave™ HD 500 Product Features:

- Unique cross-linking technology provides high durability
- Fortified with sand for slip-resistance and durability
- Fast-Drying Formula
- Designed for spray application (Due to ColorPave™ HD's unique fast drying technology, squeegee application is not recommended)

NOTE: ColorPave™ HD 500 is designed to be sprayed with the SealMaster® Texture Spray Unit (see page 36) or other suitable texture coating spray unit.

ColorPave™ HD 500 is available in: *Pail*

PRODUCT #	DESCRIPTION	WT.	PRICE
S2200P	5-gallon pail (4-gallon net)	56 lbs.	\$116.99

Mixing Procedures:

ColorPave™ HD 500 1-pail
ColorPave™ HD Tint or ColorPlus 1-pint

NOTE: If needed, a small amount of water may be added to facilitate application.

Material Requirements (coverage):

One gallon will cover approximately 60 to 70 square feet (6.7 to 7.8 square yards) per coat. Two coats are recommended for optimum performance. NOTE: Actual coverage rates will vary due to differences in pavement porosity.

Pavement Sealer Additives

Improve the performance of pavement sealers with polymer additives from SealMaster®

TopTuff™

Film Toughener For Pavement Sealers

- Improves surface toughness
- Anchors in sand for extended wear
- Helps suspend sand
- Reduces power steering marks
- Provides a blacker dried sealer film
- Enhances resistance to oils, fuels, and grease

PRODUCT #	DESCRIPTION	WT.	PRICE
M1100P	5-gallon pail	48 lbs.	\$ 82.99
M1100D	55-gallon drum	535 lbs.	\$858.99

Sealer VM™

Polymer Viscosity Modifier For Pavement Sealers

- Meets FAA P625, P627, P630, and P631 specifications
- Improves sealer flexibility
- Enhances resistance to oils, fuels, and grease
- Provides a blacker dried sealer film
- Provides sand suspension and uniform application of sand slurry mixes

PRODUCT #	DESCRIPTION	WT.	PRICE
M1110P	5-gallon pail	47 lbs.	\$ 86.99
M1110D	55-gallon drum	520 lbs.	\$912.99

Zetac™

Improves Resistance To Water.

- Improves sealer durability by increasing water resistance
- Promotes greater adhesion to pavement surfaces
- Provides sand suspension and uniform application of sand slurry mixes

PRODUCT #	DESCRIPTION	WT.	PRICE
M1180P	5-gallon pail	47 lbs.	\$ 65.99
M1180D	55-gallon drum	520 lbs.	\$669.99

FASS-DRI™

Featuring Advanced NANO-CURE Technology

- FASS-DRI™ Pavement Sealer Additive is the result of an exciting breakthrough in NANO-CURE chemistry. FASS-DRI™ additive enables you to open a parking lot to traffic in as little as 30 minutes.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1178G	2-gallon pail	29 lbs.	\$ 48.99
M1178P	5-gallon pail	72 lbs.	\$122.99

FSA®

Speeds Up The Drying Time Of Sealer.

- Designed for situations requiring rapid drying
i.e. drive-thrus, spring and fall applications

PRODUCT #	DESCRIPTION	WT.	PRICE
M1170P	5-gallon pail	47 lbs.	\$ 72.99
M1170D	55-gallon drum	520 lbs.	\$791.99

FSA® AE

Fast Drying Additive For Asphalt Based Sealer

- Designed for situations requiring rapid drying
i.e. drive-thrus, spring and fall applications

PRODUCT #	DESCRIPTION	WT.	PRICE
M1172P	5-gallon pail	47 lbs.	\$ 71.99
M1172D	55-gallon drum	520 lbs.	\$769.99

Prices are F.O.B. Sandusky, Ohio. Prices are subject to change.

SealMaster® COLD POUR Crack Sealants

Pourable Crack Sealant

The Industry Standard

An economical cold pour crack filler rubberized for added flexibility. Recommended for cracks up to 1/2" wide.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1010G	1-gallon jug	11 lbs.	\$ 15.99
M1010P	5-gallon pail	53 lbs.	\$ 41.99
M1010D	55-gallon drum	590 lbs.	\$424.99

GatorPave™

The Ready To Use Patching Material For Cracked & Alligatored Pavement Areas.

- No Heat Required - Cold Applied
- Easy To Use, Apply by Squeegee or Trowel
- Polymer Modified for Maximum Performance
- Environmentally Friendly Emulsion Based Formula

PRODUCT #	DESCRIPTION	WT.	PRICE
M1160P	5-gallon pail	62 lbs.	\$ 57.99
M1160D	55-gallon drum	680 lbs.	\$606.99

Mixing Procedures:

Use cold applied crack filler as is. Do not dilute. Stir material and apply by pouring or trowelling. Smooth out with squeegee or trowel.

FlexMaster®

Seals cracks up to 1/2" wide in asphalt or concrete. Remains flexible at low temperatures.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1001G	1-gallon jug	10 lbs.	\$ 17.99
M1001P	5-gallon pail	50 lbs.	\$ 70.99
M1001D	55-gallon drum	550 lbs.	\$738.99

Trowel Grade Crack Filler

High Performance

Fortified with mineral fillers for filling larger cracks up to 1" wide.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1020P	5-gallon pail	65 lbs.	\$ 39.99

Acrylic Crack Filler

The Ultimate Crack Repair!

High Performance Elastomeric Acrylic Crack Filler designed for filling cracks and alligatored areas in pavement.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1002G	1-gallon jug	11 lbs.	\$ 25.99

Material Requirements (coverage):

Coverage is dependent upon depth and width of cracks. Typically, one gallon of crack filling material will fill approximately 75-150 linear feet of cracks depending on depth and width of cracks.

*CrackPro Heated Hose Machine
available on page 49*

SealMaster® HOT POUR Crack Sealants

CrackMaster™ P.L.

An economical, high softening point material designed for use on parking lots. Recommended for oil-jacketed kettles.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1070L	50 lb. box with two 25 lb. cubes per box	50 lbs.	.62 per lb.

CrackMaster™ Parking Lot Grade

A premium quality crack and joint sealing material that resists tracking at elevated temperatures and remains flexible down to -10°F. Designed for use in oil-jacketed kettles.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1075L	50 lb. box with two 25 lb. cubes per box	50 lbs.	.79 per lb.

CrackMaster™ 3405

Meets ASTM 3405 Specifications. Designed for use in oil-jacketed kettles.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1060L	50 lb. box with two 25 lb. cubes per box	50 lbs.	.74 per lb.

CrackMaster™ Supreme

Our finest hot applied crackfilling material. Designed for use in both direct fire and oil-jacketed kettles. Ideal for all crack filling applications.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1050L	50 lb. box with two 25 lb. cubes per box	50 lbs.	.83 per lb.

Other Grades of CrackMaster™ Hot Pour Crack Sealants Available. Ask your SealMaster® Rep for details.

COVERAGE RATES: CrackMaster™ Supreme

CRACK WIDTH	CRACK DEPTH	LBS./100 FT.
3/8"	3/8"	6.2 lbs.
1/2"	1/2"	11.1 lbs.
3/4"	3/4"	25.0 lbs.

COVERAGE RATES: CrackMaster™ Parking Lot Grade, 3405 & P.L.

CRACK WIDTH	CRACK DEPTH	LBS./100 FT.
3/8"	3/8"	6.9 lbs.
1/2"	1/2"	12.3 lbs.
3/4"	3/4"	27.8 lbs.

PatchMaster™

High Performance Pothole Patch.

The Cold Patch With Hot Mix Performance!

Advantages:

- Easy to Use - Simply pour from bag and tamp or drive over with car wheels. No heating required.
- PatchMaster can be applied in any weather.
- Fills potholes in both asphalt and concrete. Ideal for full depth repair.
- Packaged in 50 lb. weatherproof bags and 55-gallon drums.
- Ideal for roads, streets, parking lots, driveways, and other pavement surfaces.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1150	Bag	50 lbs.	\$ 14.99
M1150D	55-gallon drum	700 lbs.	\$154.99

Mixing Procedures:

No mixing required. Simply pour from bag, spread, and tamp in place.

Material Requirements (coverage):

One 50 lb. bag of PatchMaster will cover approximately 5 square feet at 1" depth or 2.5 square feet at 2" depth.

Hand Tampers and Asphalt Lutes available on page 70.

SealMaster® Oil Spot Primers

Seals oil, gas, and grease spots on pavement prior to sealcoating. Helps prevent oil spots from bleeding up through freshly applied pavement sealer.

Apply by spray or brush.

Chapin Sprayer see page 71.
Brushes see page 67.

Petro Seal™

Concentrated Oil Spot Primer

- Can be diluted up to one part Petro Seal and two parts water.
- Apply by spray or brush.
- Available in 5-gallon pails and 55-gallon drums.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1120P	5-gallon pail	47 lbs.	\$ 78.99
M1120D	55-gallon drum	520 lbs.	\$815.99

Mixing Procedures:

Can be diluted up to one part Petro Seal and two parts water. However, a 1 to 1 dilution rate is typically recommended. Mix thoroughly before applying.

Material Requirements (coverage):

One gallon of Petro Seal when mixed 1 to 1 with water will cover approximately 300-400 square feet.

Prep Seal™

Ready To Use Oil Spot Primer

- No dilution required.
- Apply by spray or brush.
- Available in 1-gallon and 5-gallon containers.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1130G	1-gallon jug	9 lbs.	\$ 12.99
M1130P	5-gallon pail	46 lbs.	\$ 31.99

Mixing Procedures:

Prep Seal is a ready-to-use product. Do not dilute. Use as is. Stir thoroughly before applying.

Material Requirements (coverage):

One gallon of Prep Seal will cover approximately 150-200 square feet.

Asphalt Binder Plus™

Polymer-Modified Asphalt Emulsion

- Asphalt Recycling Agent
- Pavement Rejuvenator/Fog Seal
- Crack Sealant For Road Application
- Tack Coat

PRODUCT #	DESCRIPTION	WT.	PRICE
M1145P	5-gallon pail	46 lbs.	\$ 45.99
M1145D	55-gallon drum	515 lbs.	\$468.99

Mixing Procedures:

Recycling Agent for Infrared Patching:
Use as is. Dilution is not required.

For use as a tack coat for patching or paving:
Dilute 1 to 1 with water. Apply by spray or brush. Apply at a rate of .06 to .10 gallons of mixed material per square yard (.03 to .05 concentrate).

Material Requirements (coverage):

Reference the Material Specification Sheet.

Asphalt Binder™

An Asphalt Emulsion Tack Coat Designed For Priming Oxidized Surfaces And Patchwork.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1140P	5-gallon pail	46 lbs.	\$ 37.99
M1140D	55-gallon drum	515 lbs.	\$354.99
M1140B	Bulk		- quoted -

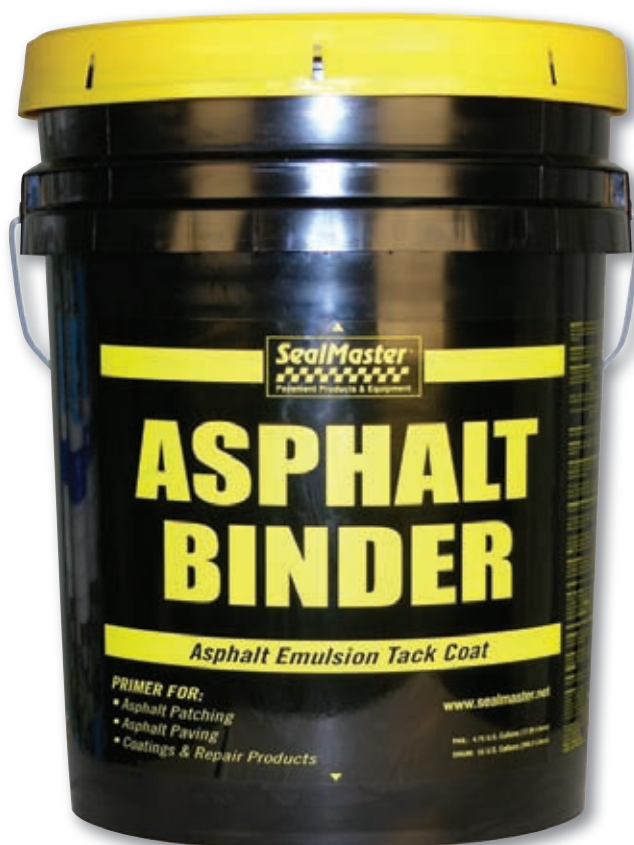

Mixing Procedures:

Primer for coatings:
Asphalt Binder 10 gallons
Water 80 gallons

For use as a tack coat for patching or paving:
Asphalt Binder 10 gallons
Water 10 gallons

Material Requirements (coverage):

Dependant upon water dilution.

TarBuster™

The environmentally friendly full strength tar & asphalt remover. Non-offensive citrus aroma.

TarBuster's Industrial formulation safely penetrates, dissolves, and removes the toughest: **Oil, Asphalt, Grease, Sludge, and Asphalt Pavement Sealer** (not recommended for removal of coal tar).

- Biodegradable
- Non-Corrosive
- Non-Toxic
- Citrus Aroma

TarBuster is FAST ACTING:

In as little as 30 seconds you'll see how TarBuster cuts cleanup time in the toughest cleaning applications.

PRODUCT #	DESCRIPTION	WT.	PRICE
T2087	TarBuster wipes	2 lbs.	\$ 18.99
T2078	1-gallon jug	9 lbs.	\$ 41.99
T2080	1-gallon jugs (case of 4)	34 lbs.	\$ 166.99
T2082	5-gallon pail	41 lbs.	\$ 171.99
T2084	55-gallon drum	440 lbs.	\$1,265.99

Tarpedo™

Tarpedo Destroys & Quickly Dissolves Coal Tar Sealer!

- Use on tools, equipment and vehicles.
- Rinses easily with water.
- High flash point (145°F) formula.
- Also removes asphalt and other tough substances.

PRODUCT #	DESCRIPTION	WT.	PRICE
T2090	1-gallon jug	9 lbs.	\$ 42.99
T2092	(case of 4) 1-gallon jugs	34 lbs.	\$ 173.99
T2094	5-gallon pail	41 lbs.	\$ 184.99
T2096	55-gallon drum	440 lbs.	\$1,462.99

MasterFlo™

Pavement Sealer Remover

- Removes coal tar, asphalt, and much more from a variety of surfaces.
- Water soluble ready-to-use formula.
- Can be used as a degreaser.

PRODUCT #	DESCRIPTION	WT.	PRICE
T2060	1-pint	2 lbs.	\$ 17.99
T2050	1-gallon jug	10 lbs.	\$ 48.99
T2065	5-gallon pail	35 lbs.	\$ 174.99
T2055	55-gallon drum		\$1,515.99

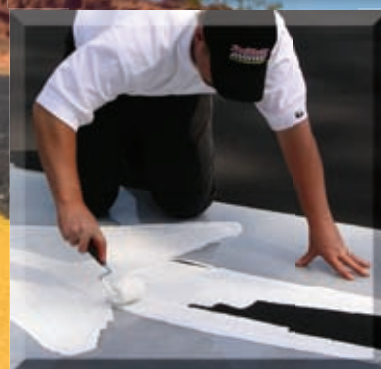

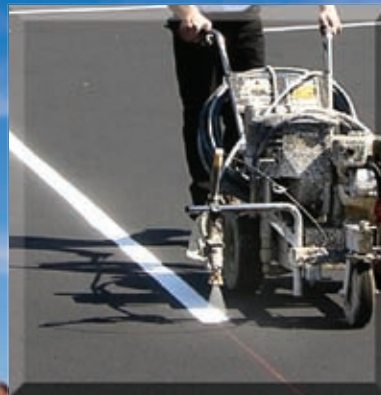

Application Instructions:

Apply to surface and allow to penetrate for 30 seconds to 2 minutes. Scrub with brush or cloth. Rinse thoroughly with water.

SealMaster® Traffic Paints

- 100% Acrylic Lead Free Water Base Formulas
- Outstanding Performance & Durability
- Bright Vibrant Colors

- Cold Spray-Applied Liquid Thermoplastic Featuring Hot-Applied Thermoplastic Performance.
- Liquid Thermoplastic Traffic Marking Paint can be applied with standard airless spray equipment.

LIQUID Thermoplastic

High Performance Traffic Marking Paint

PRODUCT #	DESCRIPTION	WT.	PRICE

M1210P	Yellow 5-gal. pail	65 lbs.	\$ 68.99
M1210D	Yellow 55-gal. drum	715 lbs.	\$596.99

TTP-1952b Traffic Paint

100% acrylic premium grade traffic paint. Meets federal specifications. Provides bright, durable traffic markings. Available in white and yellow.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1240P	White 5-gal. pail	66 lbs.	\$ 79.99
M1240D	White 55-gal. drum	725 lbs.	\$797.99
M1250P	Yellow 5-gal. pail	67 lbs.	\$ 79.99
M1250D	Yellow 55-gal. drum	735 lbs.	\$797.99

Handicap Blue

Designed for ADA compliance. 100% acrylic emulsion paint. Formulated for lasting durability.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1230G	Blue 1-gallon pail	12 lbs.	\$ 22.99
M1230P	Blue 5-gallon pail	60 lbs.	\$ 98.99

Fast Dry Traffic Paint

High solids 100% acrylic traffic paint. Dries in less than 5 minutes. Available in white and yellow. Meets TTP-1952D and TTP-1952E.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1270P	White 5-gal. pail	72 lbs.	\$ 98.99
M1270D	White 55-gal. drum	800 lbs.	\$1,037.99
M1280P	Yellow 5-gal. pail	72 lbs.	\$ 98.99
M1280D	Yellow 55-gal. drum	800 lbs.	\$1,037.99

Firelane Red

Designed for marking firelane areas on parking lots. 100% acrylic emulsion paint. Bright, vibrant color.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1220G	Red 1-gallon pail	12 lbs.	\$ 22.99
M1220P	Red 5-gallon pail	60 lbs.	\$ 98.99

Line Block-Out Paint

Black 100% acrylic marking paint designed to block out unwanted lines. Ideal for changing traffic patterns on parking lots.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1260P	5-gallon pail	55 lbs.	\$ 67.99
M1260D	55-gallon drum	615 lbs.	\$686.99

Mixing Procedures:

Use as is. Do not dilute. Apply by spray, roller, or brush.

Material Requirements (coverage):

1 gallon will provide 325' of 4" line at 15 mils wet thickness.

SealMaster® **Concrete Products**

**Environmentally
Friendly 100% Acrylic
Emulsion Formulations**

*Ideal for interior and exterior
concrete surfaces.*

Concrete Sealer

A 100% acrylic water based clear drying emulsion designed to seal and protect concrete against water, salt, and oil damage. Resists blushing when exposed to moisture or rainfall. For interior or exterior use. Apply by spray, lambswool applicator, or roller.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1300P	5-gallon pail	46 lbs.	\$ 67.99
M1300D	55-gallon drum	510 lbs.	\$678.99

Mixing Procedures:

Concrete Sealer is ready-to-use. Do not dilute. Stir thoroughly before applying.

Material Requirements (coverage):

One gallon of Concrete Sealer will cover 200 square feet.

Concrete Patch

A 100% acrylic heavy-bodied trowel grade patch material designed for filling larger cracks up to 1" wide in concrete surfaces. Concrete Patch can also be used to fill and repair damaged and spalled areas in concrete up to 1/4" deep.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1350G	1-gallon pail	17 lbs.	\$ 17.99

Mixing Procedures:

Use as is. Do not dilute. Stir thoroughly before applying.

Material Requirements (coverage):

One gallon will fill approximately 75-150 feet of cracks depending on depth and width of crack. When used to patch low spots, coverage will vary with depth of patch.

Concrete Patch Binder

A 100% acrylic emulsion designed for mixing with sand and cement. Ideal for repairing damaged, spalled, and cracked concrete surfaces. Exhibits outstanding strength for lasting repairs up to 1/2" deep.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1340P	5-gallon pail	47 lbs.	\$ 104.99
M1340D	55-gallon drum	525 lbs.	\$1,085.99

Mixing Procedures:

Concrete Patch Binder	3.5 gallons
Sand	100 lbs.
Portland Cement	15-20 lbs.
Water	.5 gallon

(Additional water may be required to achieve workability).

Material Requirements (coverage):

One gallon will produce enough patch mix (when mixed with sand and cement) to fill .86 square yard (approximately 7.75 sq. ft.) at 1/4" depth.

Concrete Crack Sealant

A 100% acrylic elastomeric crack sealant designed for sealing cracks and joints in concrete. Packaged in one gallon jugs.

PRODUCT #	DESCRIPTION	WT.	PRICE
M1355G	1-gallon jug	15 lbs.	\$ 22.99

Mixing Procedures:

Use as is. Do not dilute.

Material Requirements (coverage):

Typically, One gallon of Concrete Crack Sealant will fill approximately 75-150 feet of cracks.

SealMaster® Dust Suppressant & Soil Stabilizer

**The Environmentally
Friendly, Non-Toxic
Synthetic Polymer Emulsion**

SealMaster® Dust Suppressant and Soil Stabilizer is a synthetic polymer emulsion concentrate consisting of a combination of carefully selected polymers designed specifically for dust palliative and soil stabilization applications. Provides superior bonding and stabilizing for lasting performance.

Product Uses:

- Hydroseed and Mulch Tackifier
- Stock Pile Sealant and Dust Cap
- ADA Trails and Cart Paths
- Walking Path & Trail Stabilizer
- Quarries and Gravel Roads
- Gravel Parking Lot Stabilizer
- Helicopter & Aircraft Runway Stabilizer
- Sub-base stabilizer - mixed up to 6-inches deep
- Dust control and palliative for both traffic non-traffic applications
- Slope Erosion Control
- Unpaved Road Stabilizer
- Agricultural Roads
- Military Operations
- Construction Sites
- Heavy Haul Roads

SealMaster® Dust Suppressant & Soil Stabilizer is available in:
Drum, Tote, Bulk

PRODUCT #	DESCRIPTION	WT.	PRICE
S4000D	55-gallon Drum	535 lbs.	\$ 630.99
S4000T	275-gallon Tote	2,700 lbs.	\$3,153.99
S4000B	Bulk pricing available on request.		

*Dust Suppressant can also be pigmented
for colored applications.*

SealMaster®

The "Workhorse" of squeegee machines with a 320 gallon capacity.

The SP 300 is a 320 gallon squeegee machine designed to mix and apply pavement sealers with or without sand.

SP 300 Features:

- Round tank design with true full sweep agitation and rubber wiper blades.
- Floating squeegee assembly with rear angling squeegee (windrow features) and front box squeegee.
- Rear wheel drive for added traction and easier trailer loading.
- Water fog system with electric water pump for fogging pavement.
- Power steering for ease of maneuvering.
- Easy open butterfly sealer discharge valves.
- Diesel engine optional (21.6 H.P. Kubota).

TR 575 Heated Asphalt Distributor

*Heat and spray
asphalt emulsions,
cutbacks,
rejuvenators,
primers, & more.*

Optional
Spray Bar

(LP gas
cylinder not
included)

Heated Asphalt Distributor Units:

PRODUCT #	DESCRIPTION	WT.	PRICE
E2260	TR 575 - Trailer	3,000 lbs.	\$12,095.00
E2240	SK 575 - Skid Tank	2,500 lbs.	\$ 9,430.00
Option:			
P50246M	Manual spray bar (includes seat and mounting components) - 10 ft spray width		Add: \$ 752.00
P50247L	Lever - Manual spray bar		Add: \$ 210.00
P458A034	Yanmar Diesel		Add: \$1,575.00
E9000	Blocking/Bracing Charge (if required)	400 lbs.	Add: \$ 300.00

Specifications:

- Height73"
- Width.....75"
- Length.....17'
- Weight.....3,000 lbs.
- Tongue Weight Empty.....300 lbs.
- Axles.....2-6,000 lbs.
- Engine.....5.5 H.P. Honda
- Optional Engine.....Yanmar Diesel
- Burner System.....300,000 BTU vapor heat system with push button ignition and safety shut off
- Material Pump.....Positive displacement with pressure relief valve 15 GPM

Standard Features:

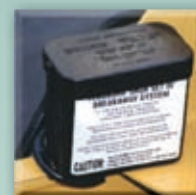

Easy Access Basket Strainer
Reduces Tip Clogging

Optional:
Yanmar Diesel Engine

300,000 BTU Vapor Heat
System with Push Button
Ignition and Safety Shut-Off

Electric Brakes with Safety
Break-Away System

Positive Displacement
Material Pump

7.5 Gallon Diesel
Wash Down System

Lock down lid with
breather vent

SK 1500 Heated Asphalt Distributor

*Heat and spray
asphalt emulsions,
cutbacks,
rejuvenators,
primers, & more.*

Standard Features:

Hydraulically Driven
Agitation

8 H.P. Honda Engine

Positive Displacement
Material Pump

Easy Access Basket Strainer
Reduces Tip Clogging

7.5 Gallon Diesel
Wash Down System

300,000 BTU Vapor Heat
System with Push Button
Ignition and Safety Shut-Off

Lock down lid with
breather vent

Features:

- 1500 gallon capacity. Other sizes available.
- Hydraulically driven agitation
- Material pump hose and wand.

SK 1500 Heated Asphalt Distributor:

PRODUCT #	DESCRIPTION	WT.	PRICE
E2250	SK 1500	2,980 lbs.	\$15,125.00
P458A034	Yanmar Diesel		\$ 1,575.00

Specifications:

- Height78"
- Width.....78"
- Length.....12'
- Weight.....3,700 lbs.
- Engine.....8 H.P. Honda
- Optional Engine.....Yanmar Diesel
- Burner System.....300,000 BTU vapor heat system with push button ignition and safety shut off
- Material Pump.....Positive displacement with pressure relief valve 15 GPM

Prices are F.O.B. Sandusky, Ohio. Prices are subject to change. For incentive specials and rebates contact your local SealMaster.

Thermoplastic Melters

Designed for melting thermoplastic traffic marking materials.

Features:

- Dual oil-jacketed tank design
- Available in 1500 lb., 2500 lb., 3500 lb. dual tank capacities
- Liquid cooled diesel engines
- Auto ignition diesel burner system
- Anti-splash lid design

Thermoplastic Melters:

PRODUCT #	DESCRIPTION	WT.	PRICE
E3000	TP 1500 - Twin tanks	1,500 lbs.	\$42,825.00
E3010	TP 2500 - Twin tanks	2,500 lbs.	\$43,560.00
E3020	TP 3500 - Twin tanks	5,500 lbs.	\$44,420.00

Specifications:

P646A003	C.) Pintle Eye Coupler	20 lbs.	\$ 60.50
P553A008	D.) 2 5/16" Ball Hitch Coupler	20 lbs.	\$168.25

Seats

PRODUCT #	DESCRIPTION	WT.	PRICE
P602A003	Seat	30 lbs.*	\$ 92.25

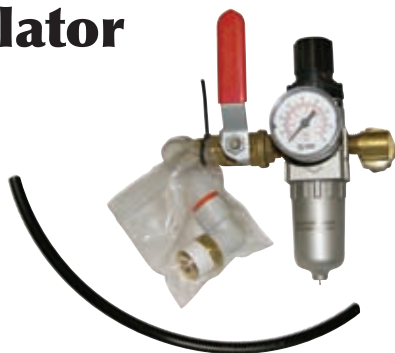

*Oversized parts must ship at 30 lb. rate.

Hose Reels

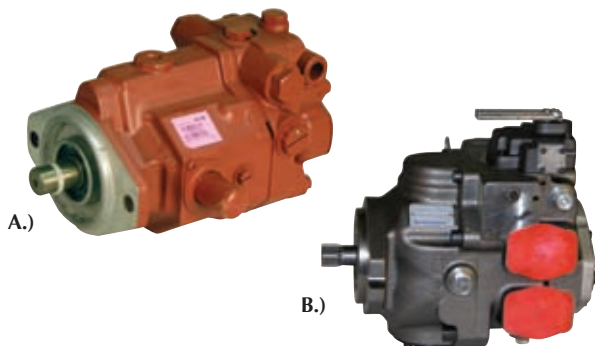

PRODUCT #	DESCRIPTION	WT.	PRICE
P901A001	Hose Reel - Manual	41 lbs.	\$399.99
P901A002	Hose Reel - Electric	80 lbs.	\$799.99

Air Regulator Kits

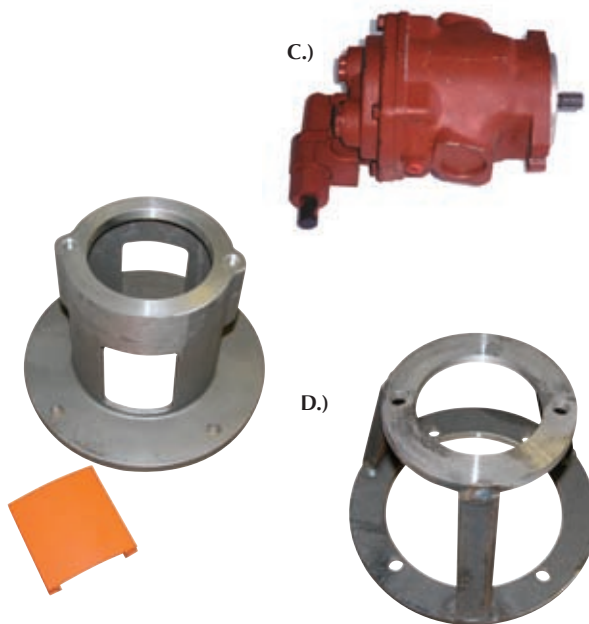

PRODUCT #	DESCRIPTION	WT.	PRICE
P735A046	Filter/Regulator - Short Kit (used with 1" pump)	2 lbs.	\$112.00
P735A047	Filter/Regulator - Long Kit (used with 1 1/2" pump)	3 lbs.	\$118.00
P709C000	Air Line		\$ 2.50/ft.

Transmission

PRODUCT #	DESCRIPTION	WT.	PRICE
TRANSMISSION			
P707A002	A.) Fits Model 72, 72 Dual, SP 300, SP 300 Dual before 1998	36 lbs.	\$4,081.25
P707A012	B.) SP 300, SP 300 Dual - 2008 to present	40 lbs.	\$2,747.00
P707A011	B.) SP 575 Dual & Econoline	69 lbs.	\$3,036.50

Hydraulic Pumps & Mounts

C.) Hydraulic Pumps:

PRODUCT #	DESCRIPTION	WT.	PRICE
P474A026	Fits pro-air system 300-500 gallon (before 2003)	8 lbs.	\$ 260.00
P601A041	Fits pro-air 575 and under (2003-present)	5 lbs.	\$ 236.25
P601A004	Fits bulk tanks w/electric motor	9 lbs.	\$ 399.00
P601A006	Fits bulk storage tanks with gas engines, pro-air and maxi-air 1,000 gallon and up	9 lbs.	\$ 301.25
P601A007	Fits SandPumper 1 1/2" (all sizes)	17 lbs.	\$ 611.25
P601A035	Fits HD Bulk Tanks w/gas	14 lbs.	\$ 720.25
P601A038	Fits HD Bulk Tanks w/3" Bowie	8 lbs.	\$1,069.00
P601A040	Fits HD Bulk Tanks w/electric motor	8 lbs.	\$ 325.50

PRESSURE COMPENSATED HYDRAULIC PUMP

P601A008	Fits SP 200 Dual, SP 300 Dual, SP 575 Dual SandPumper II tanks, 72 Dual	19 lbs.	\$1,380.75
P601A010	Fits 12 A Dual, SandPumper II tanks	30 lbs.	\$3,600.00

TANDEM GEAR HYDRAULIC PUMP

P601A018	Fits SP 200	15 lbs.	\$ 808.50
----------	-------------	---------	-----------

GEAR STYLE HYDRAULIC PUMP

P601A020	Fits SP 300, SP 575 Econoline, Model 72	8 lbs.	\$ 347.00
P601A021	Fits SP 200 Dual	16 lbs.	\$ 436.75

HYDRAULIC PUMP WITH TANK

P601A025	Fits CrackPro 60 & 100 gravity flow units	36 lbs.	\$ 747.75
P601A037	Fits 1,000 gallon and up - econoline tanks	72 lbs.	\$1,293.25

HYDRAULIC PUMP

P601A023	Fits CrackPro 200 & 400	9 lbs.	\$ 434.75
P601A024	Fits CrackPro 200 & 400 with air compressor	16 lbs.	\$ 730.25

D.) HYDRAULIC PUMP MOUNTS

P604A001	Pump Mount (13 HP Honda to SP Pump)	7 lbs.	\$ 75.75
P604A002	Access Cover (for P604A001)	1 lb.	\$ 5.00
P604A003	Pump Mount (8 HP Honda to Hyd. Pump)	5 lbs.	\$ 59.25
P604A004	Access Cover (for P604A003)	1 lb.	\$ 5.00
P29908B	Hyd. Pump Mount (Specify engine to Hyd. Pump)	8 lbs.	\$ 275.00

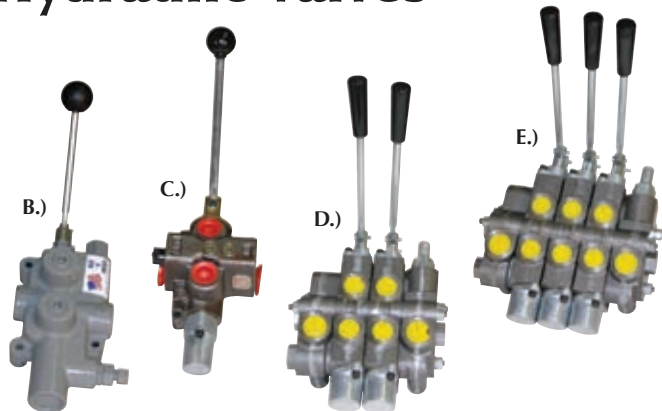

*Oversized parts must ship at 30 lb. rate.

Hydraulic Agitator Motors

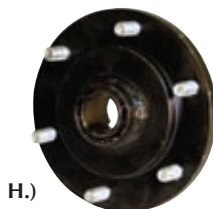

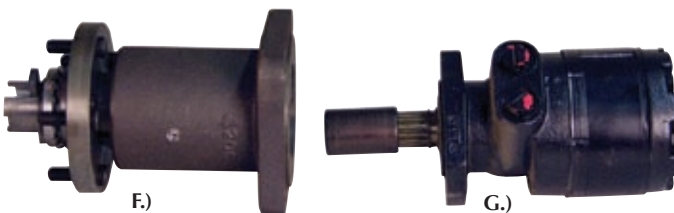

PRODUCT #	DESCRIPTION	WT.	PRICE
AGITATOR DRIVE MOTOR			
P474A003	Fits 12A, 72, bulk storage, 12-A Dual, 72 Dual	19 lbs.	\$379.75
P474A004	Fits pro-air & SandPumper II w/300-550 gallon tanks	23 lbs.	\$450.00
P474A017	Fits pro-air, maxx-air, econoline, Master Mix, 1,000 gallon and up	35 lbs.	\$791.25
P474A056	Fits HD Bulk Tanks	29 lbs.	\$721.75
P474A042	Fits CrackPro 60 & 100 gravity flow units	21 lbs.	\$442.50
P474A037	Fits CrackPro 200	28 lbs.	\$687.00
P474A036	Fits CrackPro 400	34 lbs.	\$673.00
P474A049	Fits CrackPro 400 (2000 & up)	35 lbs.	\$790.00
P474A061	A.) Fits SP 300 Agitator	23 lbs.	\$659.00
P474A063	Fits SP 575 Agitator	30 lbs.	\$860.00
HOT OIL PUMP HYDRAULIC MOTOR			
P474A038	Fits CrackPro 200 & 400	21 lbs.	\$396.50

Hydraulic Valves

PRODUCT #	DESCRIPTION	WT.	PRICE
P472A002	B.) Squeegee Assembly lift valve - fits 12A, 72, SP 200, SP 300 econoline	7 lbs.	\$167.00
P472A004	C.) Agitator Control Valve - Fits 12A, 72, SP 200, SP 300, 12 A Dual, 72 Dual, CrackPro, bulk tanks, all air system tanks, SandPumper 1 1/2" tanks	9 lbs.	\$264.50
P472A005	C.) FWD/REV Valve - fits 12A, SP 200, SP 200 Dual	9 lbs.	\$343.75
P472A011	C.) Agitator Control Valve - fits SP 200 Dual, SP 300 Dual, SandPumper II tanks	7 lbs.	\$138.00
P472A012	C.) Squeegee Assembly lift valve - fits SP 200 Dual, SP 300 Dual	12 lbs.	\$175.00
P472A021	D.) 2-Bank Valve SP 300 Econoline	21 lbs.	\$465.00
P472A022	D.) 2-Bank Valve SP 300 Dual	21 lbs.	\$465.00
P472A019	E.) 3-Bank Valve SP 575 Econoline	26 lbs.	\$590.00
P472A023	E.) 3-Bank Valve SP 575 Dual	26 lbs.	\$590.00

Rear Wheel Drive Motors

Kut-Rite Scarifiers

Kut-Rite Scarifiers are designed for heavy duty surface preparation, heavy removal of concrete, asphalt, thermo-plastic lines, paints, coatings, trowel marks, curled joints, sidewalk trip hazards, etc.

Features:

- Zero-depth height adjustment
- Side access drum assembly for quick and easy cutter changes
- Swiveling vacuum hook-up for virtually dust-free operation
- Laser cut front-mounted lifting handles make loading and unloading easy
- Tethered emergency pull cord for immediate motor shut off

ITEM #	DESCRIPTION	WT.	PRICE
T7300	Scarifier 8"	187 lbs.	\$2,795.00
T7301	Scarifier 10"	306 lbs.	\$4,295.00
T7302	Scarifier 13"	434 lbs.	\$7,195.00

All scarifiers come complete with drum and carbide cutters.

Carbide (TCT) Cutters

The standard carbide tip cutters are for grinding, leveling, grooving, cleaning and general surface preparation. The standard carbide tip cutter is a very aggressive cutter designed for removing material fast.

Full Face™ Cutters

The Full Face™ carbide tip cutter is ideal for removing pavement markings, epoxy, paint, adhesives, mastics, etc. Use the Full Face™ cutter for removal applications that require a flat even finish. The full face of the carbide tip provides 100% removal of surface material with minimal damage to the substrate.

Plyothol

Soothes and refreshes skin. Ease the discomfort of dry skin. 5 oz. tube.

PRODUCT #	DESCRIPTION	WT.	PRICE
T4910	Plyothol Cream	1 lb.	\$8.99

Stencils

Word Stencils

Any wording available - i.e. NO PARKING - RESERVED - FIRE LANE - STOP - etc., -- including mix of two sizes or letters/numbers.

For PRICING count number of letters in the desired wording and multiply times the price shown for the size letters you need. (EXAMPLE: a 12" NO PARKING stencil = 9 letters x \$9.99 per letter = \$89.91 for that stencil).

NOTE: For pricing DO NOT COUNT space between words, comma, period, hyphen, or slash.

PRODUCT #	DESCRIPTION	PRICE
T2700	3"	\$ 4.99

SPECIAL:

D.O.T. double land "SCHOOL" - letter size 120"h x 32"w (6 individual letters) \$123.99 per letter. \$743.99 for entire word. For individual letters, NOT ORDERED AS A WORD STENCIL, use prices under alphabet sets.

Word stencils in size 48" thru 96" will be in two or more pieces (as required) with INTERLOCKING TABS to join them together and can be moved as one piece. Stencils 15" thru 96" are ELONGATED lettering, designed to be read at a DRIVING ANGLE, as per DOT where applicable.

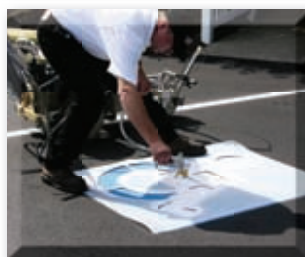

Pavement Marking Stencils

Small Parking Lot

Large Parking Lot

3-Piece Intersection Combination Straight/Curved

2-Piece Intersection Curved Arrow Kit

1-Piece Intersection Straight Arrow Kit

These stencils are made of heavy duty plastic, thick enough to withstand the daily use required by professionals in the pavement marking industry, yet light enough to "flow" with the pavement to obtain sharp lines every time. Easy maintenance, virtually no build-up due to the smooth non-stick surface. When paint dries, just flex and peel paint away.

SportMaster®

SPORT SURFACES

The SportMaster® ColorPlus™ System

The SportMaster® ColorPlus™ System is Revolutionizing the Tennis Court Surfacing Industry.

HOW THE SYSTEM WORKS: The ColorPlus™ System consists of a 100% acrylic Neutral Concentrate™ (available with or without sand) and the ColorPlus™ Pigment Dispersion. What is truly remarkable about the ColorPlus™ System is the fact that only 2 gallons of ColorPlus™ Pigment are needed to colorize an entire 30 gallon keg of Neutral Concentrate™.

EASE OF MIXING: ColorPlus™ is a highly concentrated pigment dispersion that disperses readily in Neutral Concentrate™. Our proprietary technology enables ColorPlus™ to disperse completely with minimal mixing.

EXCEPTIONAL QUALITY: The ultra-fine particle size of the ColorPlus™ Pigment Dispersion produces vibrant, consistent color quality on the court surface.

GREATER INVENTORY CONTROL: By stocking a single base product, contractors are able to optimize warehouse space and reduce shipping costs. The ColorPlus™ System takes much of the guesswork out of ordering color coatings. Contractors simply maintain a minimal level of ColorPlus™ Pigment in one gallon pails.

The SportMaster® Cushioned System

The Components:

CUSHIONMASTER™ NEUTRAL BASE: A unique acrylic color formulation engineered to match the flexibility in the cushion layers of the CushionMaster™ Systems. These color coatings maintain their flexibility over time. CushionMaster™ Neutral Base is designed to be mixed with ColorPlus™ Pigment Dispersion (see page 80) to achieve desired color.

CUSHIONMASTER I & II: These acrylic emulsions provide the resilience and establish the base texture to impart the pace of the surface. CushionMaster™ II contains coarse rubber particles and provides the initial thickness build. CushionMaster™ I has fine rubber particles and fills the voids and levels the final cushion components.

RESURFACERS: Used to fill minor depressions, fill voids in new asphalt, and improve bonding of the playing surface to the new or old base.

The ProCushion System, depicted in the graphic, is the ultimate professional and residential cushioned surface. Each of the CushionMaster™ Systems can be installed to the specified ITF Surface Pace Ratings of slow, medium-slow, medium, medium-fast or fast. These 100% acrylic emulsion systems are designed to provide optimum resilience and more spin responsive play.

System Components

The standard ProCushion System consists of 1 coat of Acrylic Resurfacer, 3 coats of CushionMaster™ II, 2 coats of CushionMaster™ I, and 2 coats of CushionMaster™ Neutral Base with ColorPlus™ Pigment Dispersion. SportMaster Color Concentrate or the SportMaster ColorPlus™ System may be substituted for the CushionMaster™ Neutral Base with ColorPlus™ Pigment Dispersion.

SportMaster® Patching & Crack Filling Materials

Acrylic Patch Binder

A 100% acrylic liquid binder designed for on-site mixing with sand and cement. Ideal for leveling and repairing low spots and depressions up to 1/2" deep on tennis court and other sport surface pavements. **NOTE: Patching Straightedges available on page 90.**

PRODUCT #	DESCRIPTION	WT.	PRICE
C1480P	5-gallon pail	47 lbs.	\$ 107.99
C1480K	30-gallon keg	280 lbs.	\$ 662.99
C1480D	55-gallon drum	500 lbs.	\$1,125.99

Mixing Procedures:

Acrylic Patch Binder	3.5 gallons
Sand	100 lbs.
Cement	15-20 lbs.
Water	up to .5 gallon if needed

NOTE: Thoroughly mix dry sand and cement together first before adding to Acrylic Patch Binder.

Material Requirements (coverage):

One gallon will produce enough patch mix (when mixed with sand and cement) to fill .86 square yard (approximately 7.75 square feet) at 1/4" depth.

CrackMagic™

Premium grade heavy-bodied 100% acrylic elastomeric crack filler. Remains flexible at temperatures below zero. Available in neutral, green and red. Packaged four pails to a box or sold individually.

PRODUCT #	DESCRIPTION	WT.	PRICE
See Below**	1-gallon pail	10 lbs.	\$ 35.99

****Product numbers and colors:**

• Neutral - C1590G • Green - C1570G • Red - C1580G

Mixing Procedures:

Use as is. Do not dilute.

Material Requirements (coverage):

Typically, one gallon will fill approximately 75-150 feet of cracks depending on depth and width of crack.

Acrylic Crack Patch

A 100% acrylic trowel grade crack filler. Fortified with sand for filling cracks up to 1" wide on tennis courts and other sport surface pavements. Available in red, green, or neutral. Packaged in four 1-gallon pails to a box or sold individually.

PRODUCT #	DESCRIPTION	WT.	PRICE
See Below**	1-gallon pail	17 lbs.	\$ 17.99

****Product numbers and colors:**

• Neutral - C1520G • Green - C1500G • Red - C1510G

Mixing Procedures:

Use as is. Do not dilute.

Material Requirements (coverage):

Typically, one gallon will fill approximately 75-150 feet of cracks depending on depth and width of crack.

CourtFlex™ Crack Sealant

A 100% acrylic elastomeric crack sealant designed for filling cracks up to 1/2" wide. Flexible down to -10°F. Available in red, green, or neutral. Packaged six jugs to a box or sold individually.

PRODUCT #	DESCRIPTION	WT.	PRICE
See Below**	1-gallon jug	10 lbs.	\$23.99

****Product numbers and colors:**

• Neutral - C1560G • Green - C1540G • Red - C1550G

Mixing Procedures:

Use as is. Do not dilute.

Material Requirements (coverage):

Typically, one gallon will fill approximately 75-150 feet of cracks depending on depth and width of crack.

T/C White Line Paint

A 100% acrylic water base line paint highly pigmented for one coat coverage. Packaged in easy-to-use 1-gallon jugs with pour spouts, and 5-gallon pails. Available without or with sand (textured). **NOTE: See Line Taping Machine on page 89.**

PRODUCT #	DESCRIPTION	WT.	PRICE
C1600G	1-gallon jug	12 lbs.	\$ 27.99

Material Requirements (coverage - 250 sf/gal):

200-300 square feet per gallon.

SportMaster® Running Track Products from SealMaster®

TrackMaster Plus™ 100% Acrylic

- Premium quality 100% acrylic emulsion fortified with rubber particles designed for coating asphalt and latex/rubber running track surfaces. TrackMaster Plus™ is available in attractive colors using the SportMaster® ColorPlus™ System. Red TrackMaster Plus™ contains red EPDM rubber granules. Squeegee, brush or spray application.

PRODUCT #	DESCRIPTION	Sq. Ft. COVERAGE	WT.	PRICE
C1740K	Neutral 30-gal. keg	1500	290 lbs.	\$339.99
C1740D	Neutral 55-gal. drum	2750	550 lbs.	\$536.99
C1709K	Red 30-gal. keg	1500	290 lbs.	\$434.99
C1709D	Red 55-gal. drum	2750	550 lbs.	\$705.99

Mixing Procedures:

Neutral TrackMaster Plus™	55 gallons
Water	13-14 gallons
ColorPlus™ Pigment Dispersion (see page 80)	4 gallons

Mix and apply with soft rubber squeegee.

Material Requirements (coverage - 50 sf/gal):

Approximately .10 to .29 gallon per square yard per coat depending on method of application and surface porosity (contact your SportMaster Rep. for details on coverage rates).

TrackMaster™

A polymer modified asphalt emulsion fortified with rubber particles designed for coating asphalt running tracks. Beautifies tracks and provides superior protection against oxidation, ravelling, and moisture penetration. Available in black only.

PRODUCT #	DESCRIPTION	Sq. Ft. COVERAGE	WT.	PRICE
C1700K	30-gal. keg	1500	300 lbs.	\$218.99
C1700D	55-gal. drum	2750	575 lbs.	\$307.99
C1700B	Bulk pricing available on request			

Mixing Procedures:

TrackMaster™	55 gallons
Water	15-17 gallons

Mix and apply with soft rubber squeegee or spray.

Material Requirements (coverage - 50 sf/gal):

Approximately .15 to .20 gallon per square yard per coat depending on surface porosity.

Lane One™

A 100% acrylic trowel grade patching material fortified with sand and rubber. Ideal for repairing running lanes and field event runways and pads. Also used for filling cracks up to 1" wide.

PRODUCT #	DESCRIPTION	WT.	PRICE
C1750P	5-gal. pail	51 lbs.	\$ 56.99
C1750K	30-gal. keg	305 lbs.	\$355.99
C1750D	55-gal. drum	545 lbs.	\$567.99

Mixing Procedures:

Use as is. Do not dilute. Apply with soft rubber squeegee.

Material Requirements (coverage):

Approximately 1 gallon per square yard at 1/8" depth. Ultimate coverage will be dependent upon depth of repair.

TrackFlex™ Crack Sealant

Acrylic elastomeric pourable crack sealant designed for sealing cracks up to 1/2" wide in asphalt or latex/rubber track surfaces.

PRODUCT #	DESCRIPTION	WT.	PRICE
C1760G	1-gal. jug	10 lbs.	\$ 27.99
C1760P	5-gal. pail	47 lbs.	\$111.99

Mixing Procedures:

Apply as is. Do not dilute. Smooth flush with rubber squeegee.

Material Requirements (coverage):

Typically, one gallon will fill approximately 75-150 feet of cracks depending on depth and width of crack.

High Performance Surface Coating

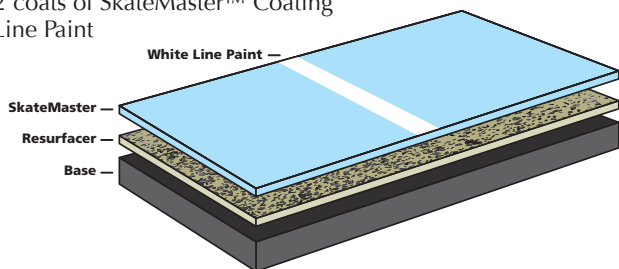

SkateMaster™ In-Line Skate Surface

DESIGNED FOR IN-LINE SKATING.

SkateMaster™ is a 100% acrylic coating designed to provide a durable surface for in-line skating. From casual skating to the rigors of competitive in-line hockey, SkateMaster™ provides the optimum surface. Standard colors are Ice Blue and Dove Gray. Neutral SkateMaster™ is also available when additional colors are desired. Simply mix ColorPlus™ Pigment Dispersion (see page 80) with Neutral SkateMaster™ to achieve desired color. Mix 4 gallons of ColorPlus™ Pigment Dispersion with one 55-gallon drum of Neutral SkateMaster™. Or, mix two gallons of ColorPlus™ Pigment Dispersion with one 30 gallon keg of Neutral SkateMaster™. Red, Blue, and White acrylic line paints are available (see page 18-19).

The SkateMaster™ System:

- 1.) 1 or 2 coats of SportMaster® Neutral Acrylic Resurfacer - ColorPlus Pigment Dispersion may be added to Neutral Acrylic Resurfacer for full-depth color.
- 2.) 2 coats of SkateMaster™ Coating
- 3.) Line Paint

Neutral SkateMaster™

PRODUCT #	DESCRIPTION	Sq. Ft. COVERAGE	WT.	PRICE
C1800K	30-gallon keg	4500	305 lbs.	\$471.99
C1800D	55-gallon drum	8250	520 lbs.	\$778.99

Mixing Procedures:

Neutral SkateMaster™	55 gallons
ColorPlus™ Pigment Dispersion (see page 80)	4 gallons

Material Requirements (coverage - 150 sf/gal):

.06 to .08 gallons per square yard per coat (.12 to .16 gallons per square yard for two coats) NOTE: See page 83 for mixing and coverage rates for Acrylic Resurfacer.

Note:

Up to 8 lbs. per gallon of sand (80-100 mesh) can be added to SkateMaster™ for a customized multipurpose surface.
