

**KEEP IT. SAFE.**

For over 80 years, SentrySafe has been the world leader in fire-resistant security storage, committed to innovation and dedicated to delivering exceptional customer service. A family-owned business based out of Rochester, NY, we're proud to provide customers around the world with solutions as unique as their individual needs for affordable security and priceless, peace-of-mind protection for the important and irreplaceable.

"A USEFUL PRODUCT,  
HONESTLY MADE AND  
HONESTLY SOLD...  
THAT IS GOOD BUSINESS."

- John D. Brush, Founder

# Proven Products. Proven Protection.

LOOK FOR THESE ICONS  
TO DETERMINE WHICH  
SAFE IS RIGHT FOR YOU:

### Water Protection

We offer different levels of waterproof and water-resistant technology to protect important documents and vital information.

### Fire Protection

Our products undergo rigorous fire testing from independent Underwriters Laboratory (UL) and depending on the model, have been rated for up to 2 full hours of fire protection.

### Security

We provide numerous proven options for keeping your business and personal information away from prying eyes.

UNDERWRITERS  
LABORATORIES  
FIRE TESTING

In independent Underwriters Laboratory tests, SentrySafe Fire-Safe products are subjected to fire for ½, 1 or 2 hours. For a product to earn a UL Classification, the documents stored inside must remain completely undamaged.

**UL ½-Hour Fire Endurance Test**  
SentrySafe Fire-Safe products are subjected to temperatures of 1550°F (843°C) for ½ hour. The interior remains below 350°F (177°C) to protect documents.

**UL 1-Hour Fire Endurance Test**  
Product is subjected to temperatures of 1700°F (927°C) for 1 hour. The interior remains below 350°F (177°C) to protect documents.

**UL 2-Hour Fire Endurance Test**  
Product is subjected to temperatures of 1850°F (1010°C) for 2 hours. The interior remains below 350°F (177°C) to protect documents.

## ABOUT ETL TESTING

### Water Submersion and Resistance Testing

SentrySafe Fire-Safe® Waterproof products have been tested by the independent testing firm ETL Semko to ensure protection from flood and other water damage. Our chests and files are completely submerged during testing; while our Fire-Safe safes are tested in up to 8 inches of water—so you can rest assured your documents and valuables are safe in the event of a flood.

### Verified for Digital Protection

SentrySafe Fire-Safe products are verified to protect CDs, DVDs, Memory Sticks and USB drives—So your important documents are protected from fire damage however you store them.

SentrySafe has been a global leader in the safe industry for the last 80 years, developing new technologies to protect the important and irreplaceable. Listening to growing concerns from consumers about security protection, we have once again answered with the innovation people have come to expect from our products.

Coming in 2011, SentrySafe will be upgrading our Fire-Safe® safes with our new Pry Guard™ technology. Just another example of our commitment to developing products that deliver real peace of mind.

INTRODUCING  
PRY GUARD

**The average burglar has just  
8-12 minutes in your home.**

SentrySafe technology puts time on your side with new innovations like Pry Guard. Coming in 2011, Fire-Safe safes will feature new advantages like: larger bolts, stronger hinge bars and thicker doors, making it harder than ever for burglars to reach our customers' most valuable possessions.

# PRY GUARD™

4 large 1-inch bolts

Pry-resistant hinge bar  
resists forced entry

35% thicker door

**That's just the beginning.**

We also added great user features like easier-to-use locks and right, left, right dials with improved audible and tactile feedback. Backlit keypads and a quick-access battery pack make it easier to access important items. Optional interior lighting lets you see contents more clearly. Just our way of making the best-selling Fire-Safe® product even better without sacrificing world-class fire and water protection—or adding to the shelf price.

### SENTRYSAFE CARD ACCESS SAFE

Our new card access safe offers reprogrammable entry for multiple users whether by magnetic strip card (e.g. any major credit card) or electronic keypad. With motorized bolts and LED light, the safe is a convenient security solution that adds value and provides reliable protection for any hotel guest, resident or tenant.

Key features:

- Users are able to choose between a reprogrammable electronic lock with keypad or card swipe reader for securing important documents and valuables
- Motorized bolts help to prevent unwanted entry and access
- Interior LED light makes it easy to locate valuables quickly

### SENTRYSAFE LIGHTED PRODUCTS

Find it faster with SentrySafe lighted products.

Our simple OneTouch light allows you to find the files and papers you need easier, making it an ideal solution for customers storing their safes in discreet and dimly lit areas. Giving easy access to the important documents our customers need, without sacrificing the privacy and protection our customers deserve.

## SENTRYSAFE HOME DEFENSE CENTER

The new Home Defense Center offers quick and quiet retrieval of firearms when it matters most. Unique corner design and whisper quiet entry empowers our customers to defend their home and families in the event of a break-in.

### The Home Defense Center features:

- Pry Guard™ technology
  - Large, 1-inch bolts
  - Pry-resistant door design (patent pending)
- Quick-entry electronic lock, zero feedback
- Corner mounts (provided) allow for easy installation in wall corners

Pry-resistant hinge  
resists forced entry

## SENTRYSAFE QUICK ACCESS PISTOL

SentrySafe has created a versatile new pistol safe designed to secure your handgun—and then give you quick, quiet entry. The safe features an electronic, rapid-access lock with a compression gas strut that holds the door open for single-handed gripping. All the moving parts are whisper quiet for swift, discreet access when it is most needed.

### The Quick Access Pistol Safe features:

- Pry Guard™ technology
  - Pry-resistant door design (patent pending)
- Quick-entry electronic lock, zero feedback
- A compression gas strut opens the door silently and holds it open for single-handed access even in confined spaces

# Did you know?

Every 14.6 seconds a burglary takes place in the United States.

SentrySafe brings security home with a full line of safes specifically designed for families and home offices. Our advanced models provide state-of-the-art fire and water protection for your important documents and heirlooms.

We've built our business on the values of Quality, Loyalty, Growth and Innovation. This foundation ensures that we'll continue to strive to improve, anticipating our customers' needs and standing behind every product we sell. Dedicated to providing affordable protection, we are proud to provide security to the things most important to our customers.

SMALL CAPACITY  
FIRE-SAFE CHESTS

Compact and versatile, yet surprisingly roomy, our line of Fire-Safe small-capacity products are perfect for safeguarding birth certificates, wills, passports, deeds, insurance papers and other vital papers and digitally stored documents. The key lock provides privacy for daily use and prevents the lid from opening in the event of a fire. It's affordable, around-the-clock protection.

WATERPROOF  
FIRE-SAFE CHESTS

Increase your level of protection by guarding against flood or other water damage. Our line of Waterproof Fire-Safe Chests feature a waterproof seal that keeps documents dry and protected even when it's unlocked. With some models offering flat storage of 8 1/2" x 11" and A4 papers, our safes offer a wide range of protection for valuable prints and certificates.

## OPTIONS

Choose the lock option that's right for you

### Combination lock

3-number combination with clicking dial

### Electronic lock

Programmable electronic lock allows you to choose your combination

### Combination lock and key

Traditional 3-number combination lock coupled with a key lock provides added protection

### Electronic lock and key

Key lock provides an extra level protection when combined with the programmable electronic lock

### Choose your options

- Removable, adjustable tray
- Multi-position shelves
- Bolt down kits
- Number of bolts
- Color
- Water resistance (specific models)
- 1 or 2 hour fire protection (1.2/2.0 units only)
- Locking drawer (1.2/2.0 units only)
- File rack (2.0 units only)

Interior features vary by model.

Each year thousands of businesses are forced to close because important documents were damaged or destroyed. From office fires to burst pipes and regional flooding, disaster can strike your business at any time. Manage your risk with our comprehensive line of water and Fire-Safe® Business Safes

Designed with today's office in mind, our Business Safes offer unsurpassed protection for paper and digitally stored documents. Whether you need a portable cashbox or a feature-rich security safe, you'll find a well-designed solution for your business storage needs.

CARD ACCESS SAFE

A popular amenity in quality hotels, these safes also provide secure storage for dorm rooms, senior living facilities and other housing facilities. They have a spring-loaded "easy open" door and an interior LED light makes accessing items quick and easy. The carpeted interior protects valuables against scratches and damage.

Available in two sizes, this safe provides convenient access with two user options—a reprogrammable electronic lock with keypad or a card swipe reader. The safe also includes a master override key for backup access - just in case. A solid steel, pry-resistant door and body protect against theft and unauthorized access; while, two solid steel, live-locking motorized bolts and bolt down capability provide hotel guests, residents and tenants the level of security they deserve.

VERSATILE STORAGE FOR THE OFFICE

SentrySafe Fire-Safe® commercial storage is a smart choice for office and light commercial settings—keeping your vital records and irreplaceable documents protected.

Customizable interiors include multi-position shelf or shelves and a locking drawer to help keep your important business assets organized and easy to access. Five live-locking bolts and quarter-inch steel add security and strength. Available a range of capacities from 3.0 to 5.8 cubic feet, these safes provide 1-hour UL Classified fire protection. Lock options include a combination lock with key or electronic lock with key.

DATA CHEST, FILES + SAFES

SentrySafe has a line of innovative products designed to protect all your important documents whether they are paper or digital. They are designed to house a wide variety of storage devices from hard drives and memory sticks, to flash drives and digital cameras. Several of our models have USB 2 ports so you can protect your hard drive from fire and water damage while remaining connected to a computer or laptop. As files and photos migrate to digital formats, SentrySafe continues to develop smart, new ways to insulate sensitive electronics from possible environmental damage while guarding against unauthorized access.

SENTRYSAFE.COM

**SECURE YOUR  
ADVENTURE**

**GUN  
SAFES**

Gun Safes  
from people  
who use them.

We have a lot of folks on our team that love the outdoors and are avid hunters. It's a passion we share with our consumers. Opening day only comes once a year and you want to focus all your attention on the hunt. That's why SentrySafe provides year round protection for your hunting equipment. So you can enjoy your time in the field without worry for the safety of your family or security of your firearms.

SentrySafe  
has created  
two new, exciting  
home defense products

SentrySafe has created the Home Defense Center and Quick Access Pistol Safe to offer quick and quiet retrieval of firearms when it matters most. The Home Defense Center offers a unique corner design and whisper quiet entry. While the Quick Access Pistol Safe features an electronic, rapid-access lock with a compression gas strut that holds open the door for single-handed gripping.

**The Home Defense Center features:**

- Large, 1-inch bolts
- Pry-resistant door design (patent pending)
- Quick-entry electronic lock, zero feedback
- Corner mounts (provided) allow for easy installation in wall corners

**The Quick Access Pistol Safe features:**

- Pry-resistant door design (patent pending)
- Quick-entry electronic lock, zero feedback
- A compression gas strut opens the door silently and holds it open for single-handed access even in confined spaces

## SECURITY GUN SAFES

### SECURITY GUN SAFES

Sporting and hunting enthusiasts rely on gun safes for “worry-free” protection against theft, vandalism and other unwanted intrusions. Designed with solid steel construction, recessed pry-resistant doors, a choice of electronic or combination locks and carpeted interiors that cushion guns and protect against scratching, SentrySafe Gun Safes provide quality and security for responsible gun owners.
