

CONSTRUCTION SCREWS

UNIDRIVE & T-STAR PLUS

Featuring patented thread serrations and 4CUT™ Point, SPAX® Construction Screws offer premium quality and performance for professional results in multiple materials.

- › Designed for use in multiple materials – wood, masonry, sheet metal, and plastic.
- › Available in both Unidrive (Phillips and Sq. Drive combo) and T-STAR plus flat head styles for flush or countersunk installations.
- › Patented MULTHead countersinks screw head flush in wood.
- › Patented thread serrations reduce driving torque to prolong power tool battery life.
- › Patented 4CUT™ Point prevents splitting and requires no pre-drilling in wood.

UNIDRIVE & T-STAR PLUS

FLAT HEAD, UNIDRIVE, ZINC PLATED

DIAMETER	LENGTH
#6	1/2" thru 2"
#8	5/8" thru 2-1/2"
#9	5/8" & 1"
#10	3/4" thru 3-1/2"
#12	3/4" thru 3-1/2"
#14	1" thru 4-3/4"

FLAT HEAD, T-STAR PLUS, YELLOW ZINC

DIAMETER	LENGTH
#8	1-1/4" thru 2-1/2"
#9	3-1/4"
#10	3" & 3-1/2"
#14	3-1/2" thru 4-3/4"

PAN HEAD

UNIDRIVE, PAN HEAD, ZINC PLATED

DIAMETER	LENGTH
#6	1/2" thru 1-1/2"
#8	5/8" thru 2"
#10	5/8" thru 1"
#12	1-1/2"

- › Designed for use in multiple materials – wood, masonry, sheet metal, and plastics.
- › Patented thread serrations reduce driving torque to prolong power tool battery life.
- › Patented 4CUT™ Point prevents splitting and requires no pre-drilling in wood.

PAN HEAD

SPAX® Pan Head Construction Screws provide excellent draw down and holding performance in multiple materials where a flush or countersunk installation is not possible or desired.

SPAX®

DO IT ONCE. DO IT RIGHT.™

SPAX® is a brand of ALTENLOH, BRINCK & CO. of Ennepetal, Germany, founded in 1823 and first introduced to the European market in 1967 as a revolutionary line of multi-material construction fasteners. Today, the SPAX® brand represents a broad selection of engineered fasteners for the construction and automotive industries, and symbolizes the highest quality fastening solutions. It is one of the most recognized brands in Europe.

SPAX® Multi-material Construction Screws and PowerLags™ were introduced to the U.S. market in 1997 and are sold nationwide through leading home improvement centers, hardware and fastener distribution chains. Since 2006, SPAX® fasteners marketed in North America are manufactured at the ALTENLOH, BRINCK & CO. U.S., INC. complex in Bryan, OH.

SPAX®

DO IT ONCE. DO IT RIGHT.™

FOR WOOD-TO-WOOD & MULTI-MATERIAL CONSTRUCTION

THE SPAX® ADVANTAGE

Whether you're a professional contractor or weekend do-it-yourselfer, German engineered / American made SPAX® Multi-material Construction Screws and PowerLags™ offer a wide selection of premium quality fastening solutions that help ensure professional results in less time than inferior imported screws. Often imitated, but never duplicated, the unique patented features of SPAX® fasteners reflect nearly two centuries of cold-forming engineering and manufacturing experience.

PATENTED MULTHEAD:
Countersinks screw head flush with material.

PATENTED SERRATIONS:
Quicker and easier fastening.

PATENTED 4CUT™ POINT:
No pre-drilling, no splitting. Square end divides fibers.

GERMAN ENGINEERED, AMERICAN MADE.

CABINET SCREWS

SPAX® Cabinet Screws are a unique, quality fastener designed to ensure a secure, aesthetically pleasing installation of fine cabinetry.

- › Large, low-profile head design provides increased load bearing area.
- › T-STAR plus head promotes superior bit engagement, especially for overhead work.
- › Patented 4CUT™ Point prevents splitting without pre-drilling.
- › Patented thread serrations minimize driving torque to prolong power tool battery life.

WASHER HEAD, T-STAR PLUS, YELLOW ZINC

DIAMETER	LENGTH
#8	1-1/4"
#8	2-1/2"
#10	2-1/2"
#10	3"

CABINET SCREWS

REAR PANEL SCREWS

SPAX® Rear Panel Screws are ideal for attaching back panels to bookcases, storage units, and cabinetry without deforming or damaging the panel.

- › Low profile washer head design provides a larger load bearing area to prevent damage to panel.
- › Patented 4CUT™ Point prevents splitting and requires no pre-drilling.
- › Patented thread serrations reduce driving torque to prolong power tool battery life.

WASHER HEAD, POZIDRIV Z2, ZINC PLATED

DIAMETER	LENGTH
#6	5/8"
#6	3/4"
#6	1"
#6	1-1/4"
#6	1-3/8"
#8	3/4"
#8	1"
#8	1-1/4"
#8	1-3/8"
#8	1-1/2"
#8	1-3/4"
#9	1"

MDF SCREWS

SPAX®-MDF Screws are specifically designed to prevent splitting in Medium Density Fiberboard (MDF) and hardwoods without pre-drilling. Also very effective for attaching lightweight, high-density polyurethane trim.

- › Unique CUT Point and patented thread serrations prevent splitting without pre-drilling.
- › T-STAR plus head provides superior bit engagement.
- › Trim head design with cutting ribs allows flush or countersunk installation for desired aesthetics.

TRIM HEAD, T-STAR PLUS, ZINC PLATED

DIAMETER	LENGTH
#6	1-1/2"
#8	1-1/2"
#8	1-3/4"
#8	2-1/2"
#9	2"

STAINLESS STEEL SCREWS

SPAX® Stainless Steel Screws offer the ultimate corrosion resistance and aesthetics in wood decking and railing applications.

- › Patented thread serrations require no pre-drilling and reduce driving torque.
- › Trim head design offers pleasing aesthetics across the deck surface.
- › Deep square drive offers excellent bit engagement.
- › Double ThreadLok™ design pulls and holds boards tight, preventing screws from backing out and boards squeaking as lumber dries out.

FLAT HEAD, SQUARE DRIVE, STAINLESS STEEL, DOUBLE THREADLOK™ DECK SCREWS

DIAMETER	LENGTH
#7	1-5/8"
#10	2-1/2"
#10	3"
#10	3-1/2"

FLAT HEAD, UNIDRIVE (PHILLIPS & SQ. DRIVE COMBO), STAINLESS STEEL, PARTIAL THREAD SCREWS

DIAMETER	LENGTH
#9	1-1/4"
#9	1-1/2"
#9	2"
#9	2-1/2"
#9	3"
#10	2-1/2"
#10	3"
#10	3-1/2"

POWERLAGS™

SPAX® PowerLags™ offer superior installation performance and durability over traditional lag screws and carriage bolts for structural wood construction.

- › Grade 5 durability
- › Built-on washer head design offers excellent draw down without the need for a separate washer.
- › Patented thread serrations eliminate the need for pre-drilling in wood and require up to 40% less driving torque.
- › Low-profile T-STAR Washer Head style offers improved aesthetics.
- › Available with HCR Coating for use in exterior/treated lumber.

WASHER HEAD, T-STAR, YELLOW ZINC

DIAMETER	LENGTH
1/4"	2-1/2" thru 6"
5/16"	3" thru 4-1/2"
3/8"	5" thru 10"

FLAT HEAD, T-STAR, YELLOW ZINC

DIAMETER	LENGTH
5/16"	4" thru 10"

HEX WASHER HEAD, ZINC PLATED

DIAMETER	LENGTH
1/4"	2" thru 6"
5/16"	3", 3-1/2", 4"
3/8"	5", 6", 8"
1/2"	5" thru 12"
