WELCOME

IDL TechniEdge operations in Kenilworth, New Jersey, USA

*At IDL we manufacture, develop, and acquire, **Innovative, Durable, & Leadership** products—specializing in blades, knives, and hand tools. Our goal is to provide products that help end-users—pros & do-it-yourselfers—complete their work more effectively and efficiently. Our team has extensive experience in re-focusing, developing, manufacturing, and marketing hardware products for many of the most recognized and respected companies in hardware. IDL is an entrepreneurial company with a passion for making things happen and a disdain for the status quo. We are focused on consistently exceeding the performance expectations of our end users, distributors, retail customers, and partners.*

*In 2008, IDL Tools expanded its knife and blades product line by acquiring TechniEdge Manufacturing, Inc. to form IDL TechniEdge LLC. Since being founded in 1979 TechniEdge Manufacturing has designed and manufactured the finest quality of blades for every purpose imaginable. With production facilities in New Jersey, TechniEdge is a leading U.S. based manufacturer of high quality blades and knives for the do-it-yourself, hobby, construction, industrial, medical, and food processing industries. Over the years TechniEdge earned a reputation for making great products and the designation, **The Blade America Buys®**.*

IDL TechniEdge LLC brings together the vast hands-on experience and engineering skills of TechniEdge with the proven operations, development, and go-to-market expertise of IDL Tools. Each day we actively leverage this combination of knowledge and skills to create, develop, produce, and deliver blades and knives that are high quality / good value products that exceed our customers' expectations.

*To further advance the quality and performance of our products, boost capacity and strengthen our operation IDL TechniEdge has invested significantly in new blade manufacturing technology and equipment. Additionally, while many companies are picking up and moving jobs out of the country IDL TechniEdge has been adding jobs in the United States. We take great pride and satisfaction in being able to state that the vast majority our blades continue to be proudly **MADE IN THE USA**.*

*Our entire team at IDL TechniEdge is committed to building our company into an industry benchmark for corporate integrity and performance, and becoming a preferred source for innovative hardware tools and blades. To achieve these goals IDL TechniEdge is devoted to producing and selling blades, knives, and hand tools that are **Innovative, Durable, & Leadership** products and deliver more value to end-users by providing superior performance at very competitive costs. Additionally, we remain dedicated to providing the highest level of customer service and product quality, and ask that you continue to let us know how we can improve our products and service.*

If you are interested in learning more about the company or would like to talk with us about a business opportunity please contact us – we look forward to working with you.

IDL TOOLS™

Hobby & Mat Cutting

TechniEdge® hobby blades and knives are designed and manufactured to deliver superior precision, cut quality, durability, and comfort.

As we have done for over 30 years, TechniEdge® manufactures professional-quality blades for every purpose imaginable.

Utilizing proprietary grinding and honing processes enables us to make blades that are sharper, more durable, and longer lasting so users can work faster and longer with fewer blade changes.

Whether the user is a hobby enthusiast, graphic designer, artist, woodworker, manufacturer, or do-it-yourselfer, TechniEdge® offers a wide range of professional-quality tools and blades to meet user requirements and exceed their expectations.

Most TechniEdge® blades are made proudly in our New Jersey Facility. To identify the blades made in the USA, look for the USA icon.

COMBINATION

> Painter's 4-in-1 Utility Knife & Scraper

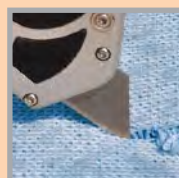

- Four tools in one convenient body design
- Switch between utility blade and serrated knife blade
- Heavy-duty retractable scraper
- Dual-function belt clip and paint can opener

Part #	Package	U/M	Shelf	Master	UPC
CK4000-TE	Carded	Card	6	30	022728 401013

> 2-in-1 Ultra-Thin Combination Knife

DUAL BLADE DESIGN TACKLES A RANGE OF JOBS THAT SINGLE BLADES AND KNIVES CAN'T HANDLE

UTILITY

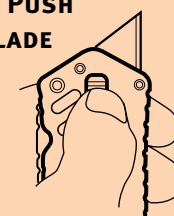

Blade locks open when in use and provides easy one-handed opening and closing

SERRATED

Durable drop-point knife blade with serrated edge provides "dry-shave" sharpness

TOOL-LESS PUSH BUTTON BLADE CHANGE

ULTRA-THIN DESIGN

Slim design maximizes comfort during use or when stored in pocket or belt

INCREASED PRODUCTIVITY

Unique quick-flip design: simply roll the tool in hand to switch between utility and knife blades

BLADE LOCK BELT CLIP

SPECIALTY BLADES

Need a custom or specialty blade for a particular industry, trade or medical application? Call us – we can help get you the blade you need.

PROVEN EXPERIENCE

With over 40 years experience in manufacturing great blades we are passionately dedicated to producing superior blades for our customers.

NIMBLE & FLEXIBLE PARTNER

The ingenuity & expertise of our in-house engineering team in combination with our broad selection of materials, coatings, grinds & hardness levels enable us to efficiently address your exact needs. We won't rest unless we are exceeding your expectations.

EXCEPTIONAL PERFORMANCE

Utilizing our application knowledge and engineering expertise for heat-treating & grinding we have developed a proprietary grinding technology which enables us to produce longer lasting blades. Our DIAMOND EDGE™ blades consistently deliver superior cutting performance and longer edge life so you have less down time.
