MEGA-PRO™ & POLAR-PRO™ SWINGING DOORS

with
EVEN PLANE
design

- Quality, High Impact Designs
- Heavy-Duty Galvanized and Stainless Steel Hardware
- Exclusive Spring Tension and Alignment Adjustments

MEGA-PRO™

Swinging Doors

FOR DOORWAY OPENINGS

60" to 120" wide

Up to 120" high

Interior Applications Only

Mega-Pro™ Swinging Doors are light industrial impact doors for doorway openings up to 10' wide. This revolutionary door has a spring return and swings on an even plane.

Panel Materials

Panels are available in either standard grade clear or USDA clear, polar PVC, in thicknesses up to 9/32".

Welded-on Impact Plates are optional.

Torsion Springs

All springs are made of chrome vanadium and you have a choice of light, medium or heavy settings.

Constructed of heavy-duty galvanized steel swinging arms and mounting brackets, this hardware is located at the top of the unit only, away from normal traffic patterns. This bracket design can accommodate any doorway application.

POLAR-PRO™

Swinging Doors

FOR DOORWAY OPENINGS

34" to 60" wide

Up to 96" high

Interior Applications Only
In-Jamb or Surface Mount

**For Walk-In Doors on Freezers,
Coolers and Personnel Doors,**

TMI Polar-Pro™ Swinging Doors allow fast and easy access to temperature sensitive areas. The unique and revolutionary "swinging hardware" design allows the door to open in and out on an even plane, and is the only hardware that maintains a tight seal along the top of the door opening and around the hinges. This **stainless steel** hardware system is also the only fully adjustable system for in-jamb alignment, as well as, the opening and closing speed of each panel. This unique door design allows the main cooler or freezer door to be closed without interference.

All hardware is constructed of stainless steel with a lifetime warranty against corrosion. The spring tension and panel alignment are adjustments exclusive to the Polar-Pro. The single compression spring is made of chrome vanadium.

Panel Materials

Panels are available in either standard grade PVC or USDA polar grade, and comes in 2 thickness, .080" and .120". Although clear material is standard on all models, there are 5 colors available.

Clear

White

Black

Blue

Mounting

The Polar-Pro mounting system can fit **all** cooler and freezer door constructions.

OTHER QUALITY TMI PRODUCTS

Strip Doors are the most economical solutions to protect employees and goods from adverse environmental conditions such as noise, heat, cold, humidity, dust and drafts. TMI has the widest range of hardware types and PVC materials in the industry.

Air Doors are engineered to create an invisible wall that separates environments. Not only does it stabilize work area temperatures, but it saves on expensive energy costs.

Air Doors provide year round comfort for customers and employees. Our Industrial Air Doors are used for both interior or exterior doorways at plants and warehouses and we have heating options available.

Industrial Curtains & Enclosures

Softwall partitions are the most inexpensive solution to contain environmental problems such as dust, smoke, humidity, adverse temperatures and noise. Our Pipe Staff design adds stability and security with "lock-up" cane bolts and "lock-down" wall brackets.

Weld Screens are free-standing and custom made to your specifications. The PVC Screens have heat sealed hems on all four sides by an electronic welding process. Grommets are placed at 12" centers, to eliminate ripping and tearing. Frames consist of 7/8" galvanized square tubing. Heavy-duty square tube legs eliminate excess sway and wobble. Available in transparent or opaque PVC.

Dock Lights & Dock Accessories

TMI offers a line of Dock Lights with extensions from 24" to 115" with incandescent, high-pressure sodium, metal halide and quartz halogen light heads. Specialty lights are available. Most lights can ship immediately from our large inventory.

The line of dock bumpers includes laminated, extra-length, extra-thick, steel faced, extruded and molded. We also carry parking blocks, speed bumps and wheel chocks.

Bulk PVC Materials - TMI warehouses the widest selection of flexible PVC bulk rolls in the industry.
