

TOTO®

PURE WATER

MEETS PURE FREEDOM

SHOWER SYSTEMS BROCHURE

No other space in your home is as personal as your shower, where your individuality and comfort take precedence. Indulge your individuality with TOTO's innovative, exquisitely-crafted and artfully designed shower systems and create a perfect oasis for escaping the hectic world.

TOTO's distinctive products include all you need to enjoy complete rejuvenation, including showerheads, handshowers, bodysprays, shower controls and valves and even water-saving, high-performance showers. Simply choose the products you need and become inspired with the meditative qualities of a gentle rain, a roaring waterfall or a tranquil brook.

Bold lines and superior performance define the Soirée collection, which celebrates the ideals of true American luxury. Enjoy state-of-the-art push-button technology, unparalleled performance and a sophisticated design that allows you to transcend the ordinary.

Soirée components configured for two create an indulgent
spa-like experience that both of you will savor.

SOIRÉE®

05

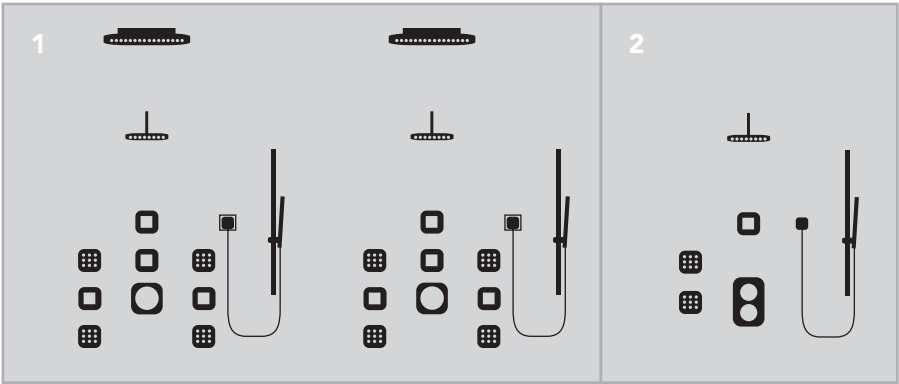

Push-button controls offer maximum ease-of-use. In this configuration, two sets of four bodysprays, handshowers, showerheads and rain showerhead enhance your total experience.

Soirée allows the flexibility to accommodate small and large environments based on your needs. This single-setting configuration features two bodysprays, a handshower and rain showerhead.

Soirée combines crisp clean lines and robust curves adeptly, making it flexible for a variety of bathroom spaces. Reward yourself by creating a personal space that makes a clear and confident statement with a collection that exudes luxury, quality and design excellence.

Other configuration options on page 29

The Guinevere collection brings classic elegance into the twenty-first century, harkening to an era of regal splendor with an air of romance. The influences of Art Deco and Victorian design converge with TOTO's technology to redefine the meaning of sanctuary.

Featuring three bodysprays mounted on each side, a showerhead and handshower, this luxurious home spa renews completely and adds new dimensions to your shower area with natural angles.

GUINNEVER[®]

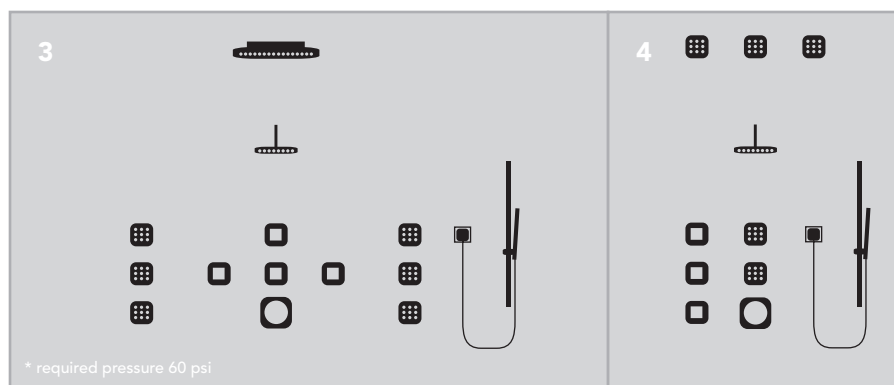

11

Multiple bodysprays create an indulgent and therapeutic effect. They are controlled by a central thermostatic mixing valve to regulate your water pressure and temperature perfectly.

Soft lines mixed with geometric precision make Guinevere distinctly classic, yet inviting with today's most desired technology. With many enchanting components to create refined visual and sensory experiences, the Guinevere collection will captivate all of your senses.

Other configuration options on page 29

The Neorest, or "new rest," Shower Tower embodies chic simplicity, precision and amazing functionality for feeling and looking refreshed. The simple yet graceful tower fuses the experience of water, design and daily rejuvenation into one package for a complete shower system that is easy to install and maintain.

Compact and intuitive, the Neorest Shower Tower features a built-in thermostatic valve, making it easy to install in the perfect position to complement your shower and family needs.

NEOREST®

17

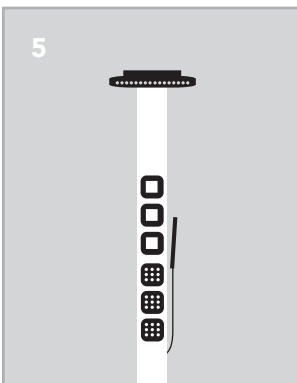

As a vertical configuration with a minimalist design, the Neorest Shower Tower blends perfectly with the most modern of spaces. The system and seamless fusion of elements simplifies your space without reducing your options. In perfect harmony with the Shower Tower, the entire Neorest suite adds balance and a serene, spa-like escape to any home.

Neorest offers three perfect ways to envelop your body in tranquil warmth: the rain-shower, three separate bodysprays or the handshower. You can also choose to set your preferred temperature, making comfort easy to attain.

Other configuration options on page 29

Neorest Shower Tower represents the ultimate choice for pre-assembled, complete shower systems. Push-button controls, three bodysprays, a rain showerhead and convenient handshower ensure complete relaxation.

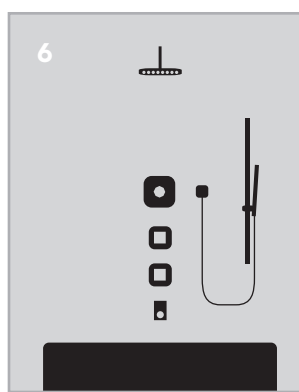

A shower-to-tub configuration is common in many bathrooms, but nothing is common about this Kiwami Renesse shower system. It includes showerhead, handshower and tub spout as well as trims to control volume and temperature with style and confidence.

The Kiwami Renesse rain showerhead can be added to any shower system for a generous swathe of revitalizing water.

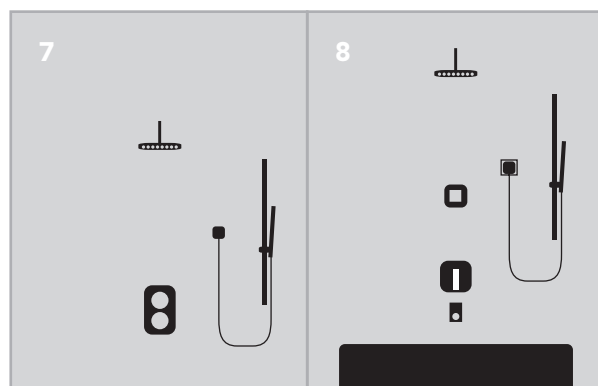

Other configuration options on page 29

Designed by Mark Berthier of Eliumstudio in Paris, the Kiwami Renesse series radiates refined detail while representing the best in modern functionality. Architectural contours and the highest level of craftsmanship in every product take simplicity and transitional design to elegant new levels.

RENESE
KIWAMI

A simple rain showerhead and slide bar with handshower configuration from the Lloyd collection transforms your shower into a daily retreat you will not want to leave.

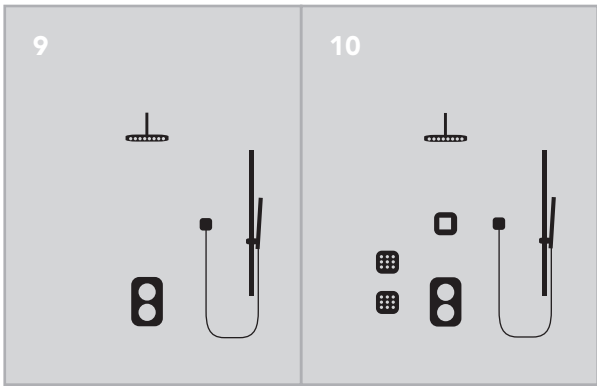

Select Lloyd components to update your shower and bath space with soft, geometric modernism. The set features a push-button shower control for the elegant rain showerhead and a stylish Art Deco pressure balance valve and wall spout.

Geometric perfection proves to be the ultimate sophistication with the Lloyd collection. Truly a contemporary classic, the collection's pure forms deliver a level of versatility that works within a range of décors.

Other configuration options on page 29

Add or subtract components to build exactly the shower you envision. For example, you can bring a Trilogy showerhead and handshower together for a simple yet versatile setup.

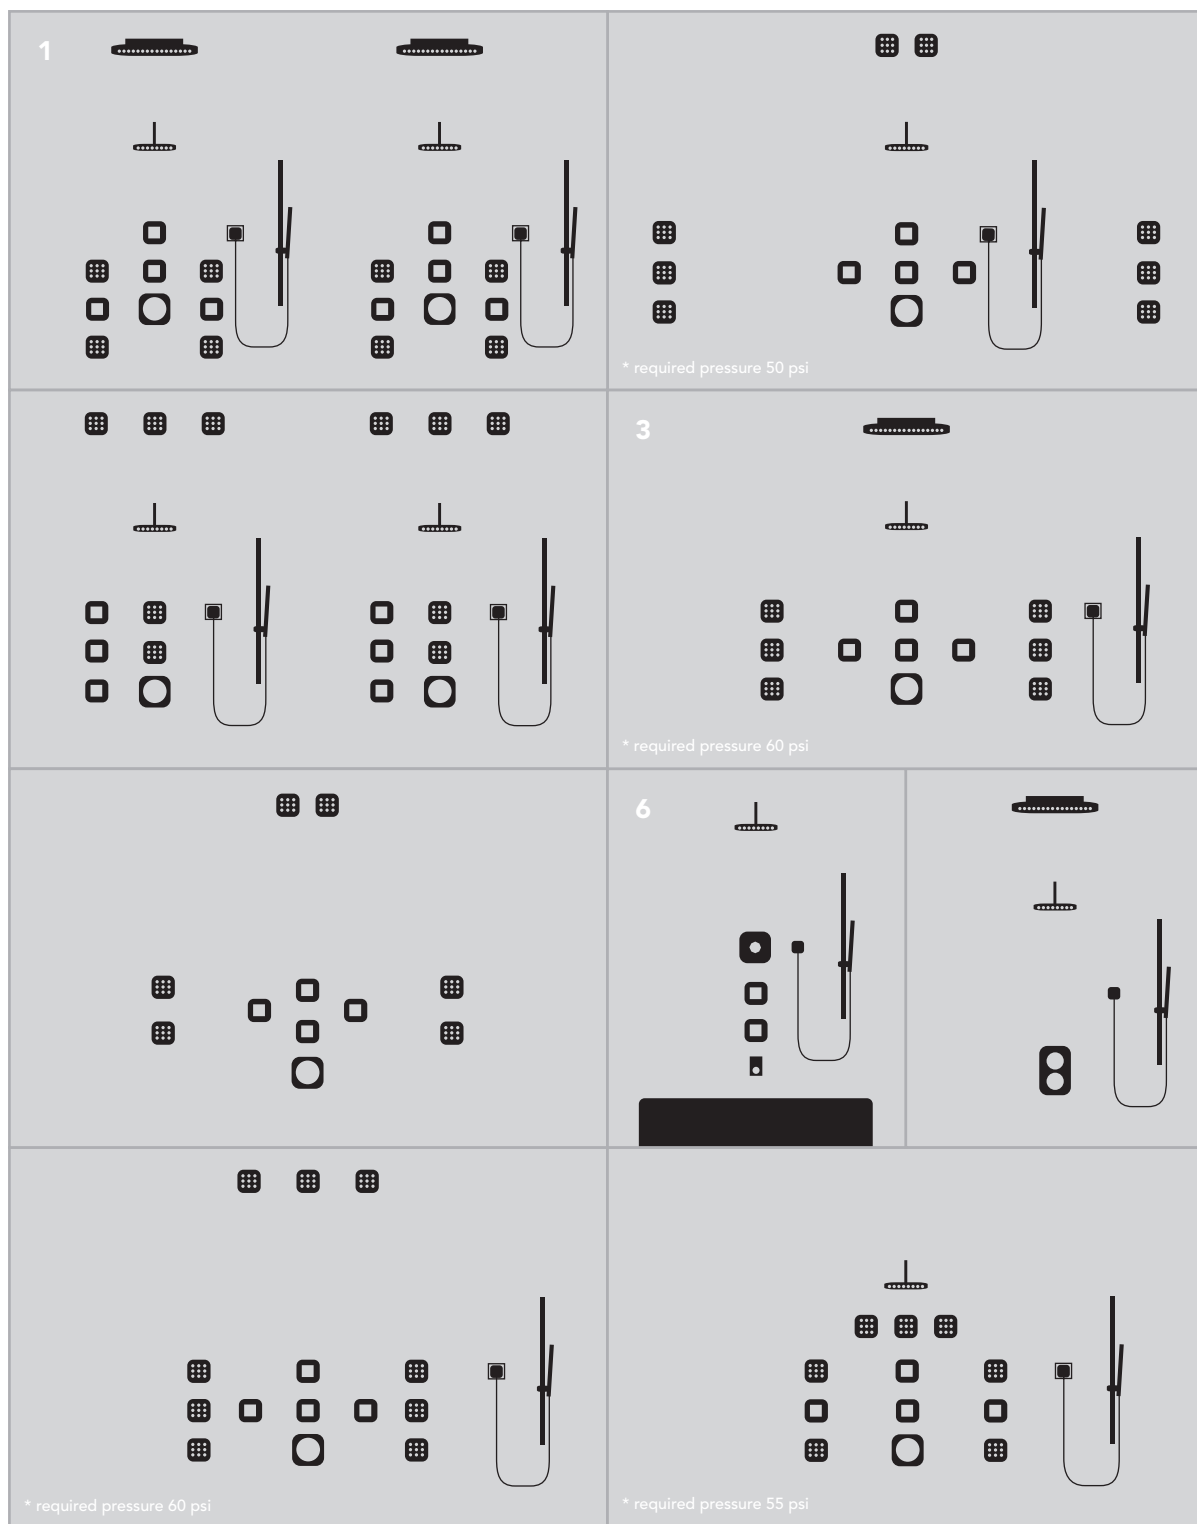

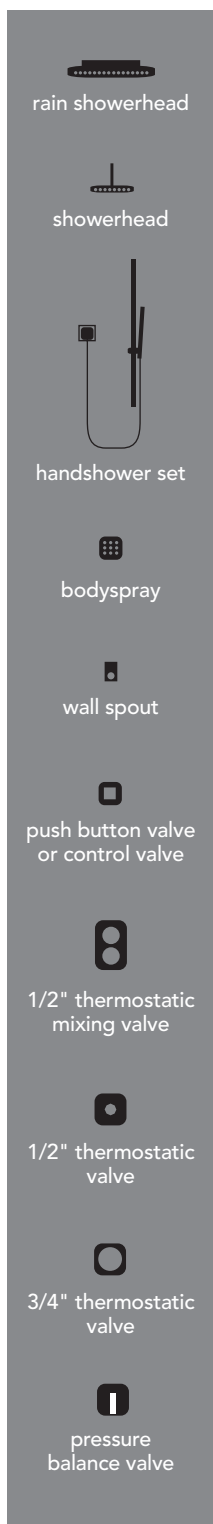

A Nexus showerhead and handshower combined with two bodysprays create a balanced environment that promises high performance and functionality.

Balanced and powerful, the Nexus collection elevates your shower performance to new levels with both stylish design and features. With sleek, streamlined shapes, the collection projects luxury and opulence so your shower can truly be an escape from the chaotic pace of life.

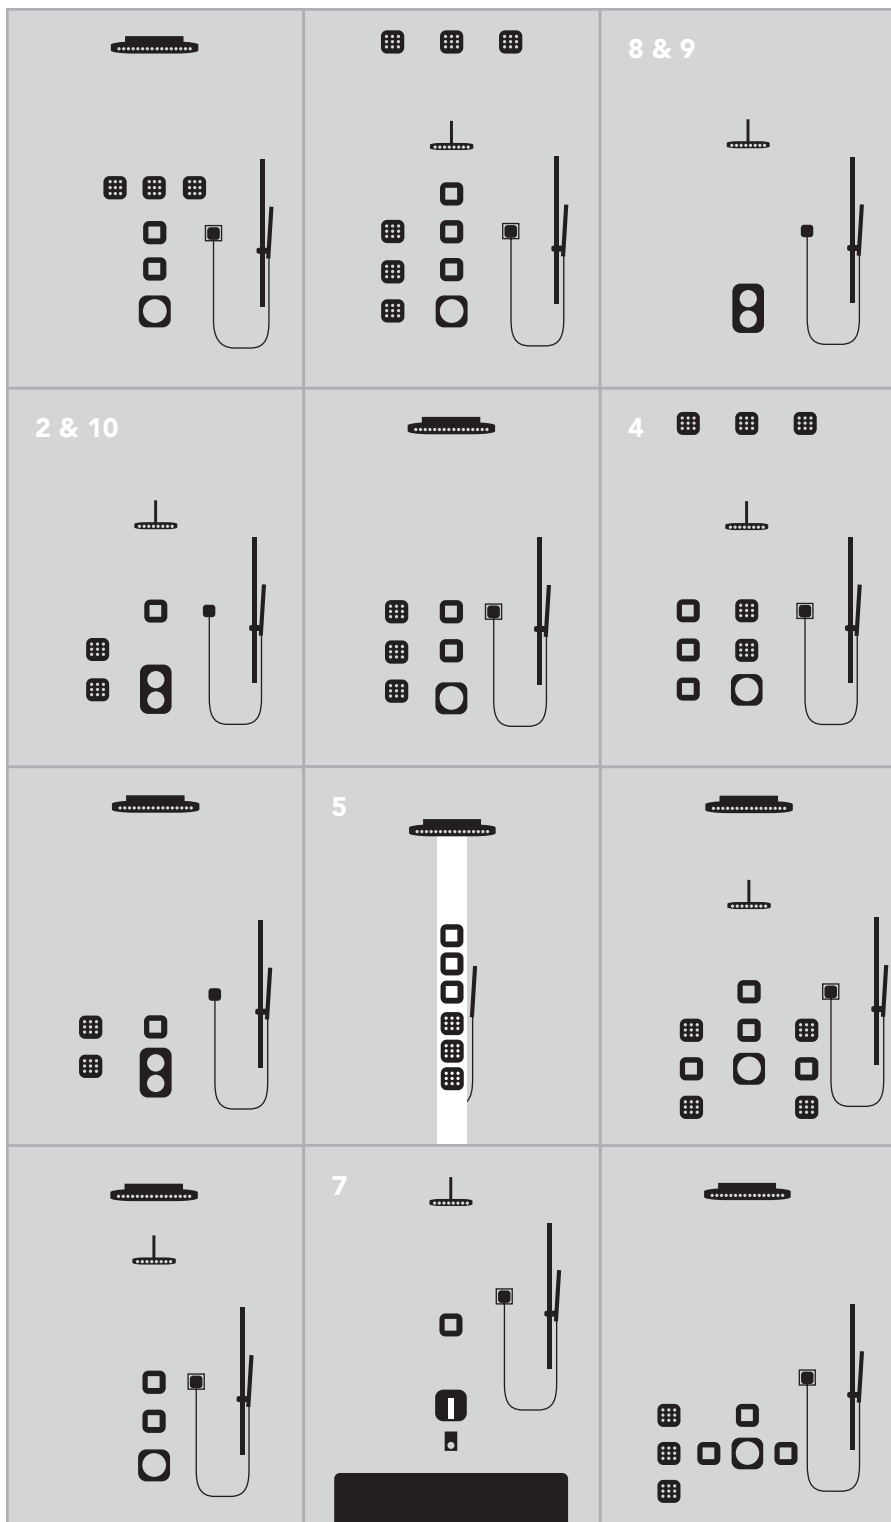

NEXUS[®]

27

*TOTO recommends a minimum pressure of 45 PSI for optimal performance, unless otherwise noted.

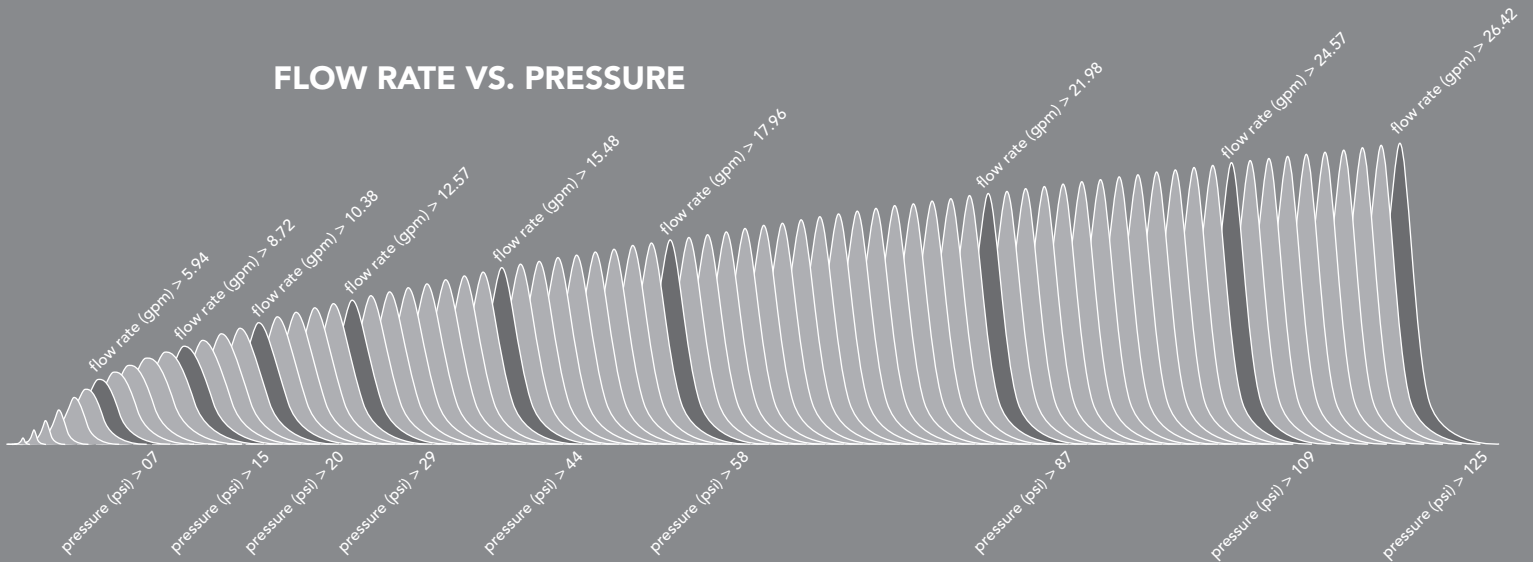

INDULGE YOUR IMAGINATION: TOTO's wide range of distinctive shower components enhance your everyday shower, no matter what configuration fits your needs. Above are just a few of the many possibilities, but keep in mind that these configurations are just using a few of the components that are available (for example, the showerhead icon shown here represents only one of seven designs available in TOTO's range of designer showerheads).

With all the components TOTO offers, you can use your imagination to create whatever shower system meets your personal or family requirements. The components can be arranged however you like, whether you're using bodysprays and handshowers to accompany your showerhead or if you want a simple configuration that will completely upgrade your shower experience. The choice is yours!

UNLIMITED FLEXIBILITY

FLOW RATE VS. PRESSURE

PERFECT PRESSURE

The 3/4" SMA thermostatic mixing valve provides a higher flow rate to meet the demand of several outlets. It can deliver enough water to run a showerhead, handshower and six bodysprays at the same time at 60 PSI.

PEACE OF MIND

TOTO's dedication to innovative technology that enriches your life is legendary. We understand that an uninterrupted, pleasurable shower experience must be backed up by consistent flow and temperature. Our exclusive Shape Memory Alloy (SMA) thermostatic mixing valve features a nickel and titanium alloy coil that responds to temperature changes more quickly than traditional wax-based systems.

The SMA valve allows you to achieve and maintain your ideal temperature and a consistent flow, even in the most demanding shower configurations. Best of all, SMA valves are compatible with almost all TOTO shower components and systems.

INTUITIVE CONTROLS

With an easy-to-use universal design, these on/off buttons put control of the showering experience at your fingertips. The push-button valve trims are designed to match the Soirée and Guinevere collections, but they can be a welcome addition to any other product collection for their style and ease-of-use.

FREEDOM TO MOVE

TOTO's 50-nozzle, angle-adjustable bodysprays can be adjusted to provide maximum coverage, comfort and flexibility while showering.

SHOWERHEADS

TOTO's showerheads and rain showers take design and functionality to new plateaus. Choose from a variety of designs and sizes to customize and enhance your experience, from the familiar single head to Trilogy's three-way multiple-spray head and the ample rain showers that immerse you in water.

HANDSHOWERS

TOTO's high-performance handshowers provide more flexibility and customization. With each product, you control spray direction to soothe aching muscles and rejuvenate. You can even alter spray intensity and warmth with a handshower by moving it closer or further from your body.

BODYSPRAYS

TOTO's stylish bodysprays help you create an invigorating, immersing shower experience. Designed to match the Soirée and Guinevere collections as well as complement the rest of TOTO's designer lines, each bodyspray features 40 spray nozzles and are angle-adjustable. Plus, the bodysprays save 30% on water usage over traditional bodysprays with a 1.75 gallon per minute (GPM) flow—without sacrificing performance.

SHOWER SYSTEMS

Turn your ordinary shower into an instant spa with these all-inclusive shower systems. The slide bar sets provide new dimensions of flexibility for bathers of all sizes in the home, while the sleek minimalism of the Neorest Shower Tower belies state-of-the-art functionality and luxurious performance.

ACCESSORIES

With a 1.25-inch diameter and solid construction, Soirée and Guinevere grab bars conform to ADA guidelines to provide support while serving as perfect complements to any TOTO collection. Two sizes of ceiling-mounted shower arms also give you more options for completing your perfect shower area.

VALVES/TRIMS

You can choose a trim style that matches one of the TOTO collections, but that is just the beginning of your choices. Thanks to TOTO's innovative, technology-driven expertise, you can also choose single or dual volume controls, thermostatic functionality and even push-button versions.
