### Features:

- **Display Size: 15" TFT or 17" TFT**
- **resistive Touch Screen**
- **Intel Celeron or Pentium 4 Processor up to 3,06 GHz**
- **optional Slim Line CDRW / DVD Drive**
- **Can boot up from USB Port**
- **Several Frontplates available**
- **Rugged Housing, designed for industrial use**
- **Low Cost**
- **Depth only 135 mm (IPP-15..) or 140 mm (IPP-17..)**

**IPP Panel - PC with 15" TFT Display and Stainless Steel Frontplate**

UTICOR offers with the IPP Panel-PC a compact, powerful, low cost Panel - PC, utilizing a **Celeron or Pentium 4 Processor up to 3,06 GHZ.**

The PC is equipped with either a 2,5" 40 GB or 80 GB Hard Disk or a 3,5" 40 GB or 80 GB Hard Disk.

The System Memory can be expanded to 128, 256, 512 and 1024 MB.

Several Operating Systems, like Windows XP, Windows 2000 or Windows 98 can be installed.

The PC can be equipped with a Slim Line **CDRW / DVD Drive** and can be booted up from the USB Port. A Floppy Drive with USB Port can be connected to this Port as well.

A LAN Port, **four serial Ports** and two USB Ports take care of

the external interfacing. An external Monitor can be connected to the VGA Port.

The IPP offers **2 free PCI Slots.**

The System is available with a black Panel Mounted, a Stainless Steel or a 19" Rack Mounted Front Bezel. The System offers further more a Touch Screen or a IP 65 Front with or without Anti Glare Glass.

## Low Power Panel - PC

### Features:

- Display Size: 8,4" TFT or 15" TFT
- Resolution: 1024 x 768 Pixel
- resistive Touch Screen
- Ultra Low Power Celeron M, 600 MHz or Pentium M, 1,5 GHz Processor
- Hard Disk or Flash Disk
- Can boot up from USB Port
- Several Frontplates available
- Rugged Housing, designed for industrial use
- Completely fanless System (Celeron M)
- Depth only 77 mm (IPP - 15M...) or 89 mm (IPP - 84M...)

IPP - M Panel-PC with 15" TFT Display and VESA Mount Housing, Colour RAL 9010

UTICOR offers with the IPP - M Panel-PC a compact, powerful low cost Panel-PC, utilizing an Ultra Low Power 600 MHz Celeron M or a 1,5 GHz Pentium M Processor.

IPP - M Panel-PC with 8,4" TFT Display and black Front Bezel

When the Celeron M Processor is mounted, the System will be completely fanless.

The PC is equipped with either a 2,5" 40 GB or 80 GB Hard Disk or with a Flash Disk with up to 4 GB Capacity. The Flash Disk can be mounted at the backside of the unit.

The System Memory can be expanded to 256, 512 and 1024 MB.

Several Operating Systems, like Windows-XP, Windows Vista or Linux can be installed.

The PC can be booted up from the USB Port.

A LAN, two serial and one USB Port take care of the external interfacing. An external Monitor can be connected to the VGA Port.

The PC is available with a black or Stainless Steel Panel Mounted Front Bezel, plus as an „Open-Frame“ Model. The PC with 15" TFT Display can also be ordered with a VESA Mount Housing and with a 19" Rack Mounted Front Bezel.

The System offers further more a Touch Screen or a IP 65 Front with or without Anti Glare Glass.

The mounting depth for the PC with 15" TFT is 77 mm and for the PC with 8,4" TFT 89 mm.

**IPPL Panel - PC with 15" TFT Display and Stainless Steel Frontplate**

UTICOR offers with the IPPL Panel-PC a compact, powerful, low cost Panel-PC, which can be obtained with 3 different Processorboards. An **Intel Core 2 Duo**, a **Celeron** or a **Pentium 4 Processor** can be mounted. In addition an AMD LX 800 Processor is available for this Panel-PC. This System is without Processor-fan.

Depending on the mounted Processorboard, the PC is equipped with either a 2,5" 80 GB or 160 GB SATA Hard Disk or a 3,5" 40 GB or 80 GB IDE Hard Disk.

UP to 3GB System memory is available. The maximum Size of the Memory depends on the mounted Processorboard.

The PC can be booted up from the USB Port. A Floppy drive with USB Port can be connected to the system as well.

The amount of available USB, LAN, serial and Printerports depends again of the mounted Processorboard. Exact Information is available on the backside of this brochure.

An additional Monitor can be connected to the VGA Port of the PC.

Der IPPL Panel-PC offers one PCI Slot. A unit without PCI Slot is also available.

The System is available with a black Panel Mounted, a Stainless Steel or a 19" Rack Mounted Front Bezel. The System offers further more a Touch Screen or a IP 65 Front with or without Anti Glare Glass.

## Compact - PC

### Features:

- Very compact housing for wall mounting
- Available with Celeron or Pentium 4 Processor up to 3,06 GHz
- System Memory expandable to 1GB
- 3,5" or 2,5" Hard Disk, Capacity > 40 GB
- 1 x LAN 10/100; 1 x VGA; 1 x LPT1; 1 x PS 2 Keyboard; 1 x PS 2 Mouse
- Available with 2 x RS232 and 4 x USB 2.0 or 4 x RS232 and 2 x USB 2.0 Ports
- Power Supply 90 - 240 VAC, 180 Watt
- Very compact housing, only:  
L x W x D = 232 x 230 x 110 mm

IPX 0 Industrial PC for wall mounting

Interior View

UTICOR offers with the IPX 0 a very compact industrial PC which can be mounted in a control cabinet. The PC utilizes an industrial Mini - ITX Mainboard with a Celeron or Pentium 4 Processor up to 3,06 GHz. The chosen components guarantee a long system availability. The PC is available with either 2 RS 232 and 4 USB 2.0 Ports or with 4 RS 232 and 2 USB 2.0 Ports.

Mass Storage devices like CDROM and Floppy Disk can be connected to the USB Ports.

In combination with our TFT Monitors, we offer a powerful system with screen sizes from 10,4" up to 19". Because the Screen is separated from the PC, we can realize a flexible modular system with an attractive price level. Service and maintenance are also simplified.

### Features:

- **Compact and powerful**
- Available with AMD, Celeron or Pentium 4 Processor up to 3,06 GHz
- System Memory expandable to 1GB
- Available with CDRW or DVDRW Drive
- Hard Disk > 40 GB
- 2 USB; 1 LAN 10/100; 1 VGA; 1 LPT1; 1 RS 232; 1 Firewire
- Also available with 4 RS 232 Ports
- 1 or 2 free PCI Slots
- Power Supply 90 - 240 VAC, 180 Watt
- Mounting Depth 105, 165 or 240 mm (depending on model)

**IPX1 Industrial PC for wall mounting**

UTICOR offers with the IPX PC an industrial PC which can be mounted in a control cabinet. The PC utilizes an industrial Mini ITX Mainboard with an AMD 500 MHz Processor, a Celeron Processor or a Pentium 4 Processor up to 3,06 GHz. The chosen components guarantee a long system availability. The PC can be ordered with two different housings.

The IPX 1 has one free PCI Slot and housing dimensions of 240 x 275 x 165 mm, the IPX 2 has two free PCI Slots and housing dimensions of 382 x 222 x 105 mm. The IPX 1 is also available with 4 RS 232 Ports. In this case the Floppy Drive is omitted. The IPX 1 and IPX 2 utilize both an internal CDROM Drive.

In combination with our TFT Monitors, we offer a powerful system with screen sizes from 10,4" up to 19". Because the screen is separated from the PC, we can realize a flexible modular system with an attractive price level. Service and maintenance are also simplified.

## Features:

- Stable stainless steel back cover with Power Coated, Stainless Steel, or 19" Front Bezel
- Analogue resistive Touch optional
- Some monitors are also available with capacitive or SAW Touch
- IP 65 front plate with normal or anti glare Protective Glass
- Built using components made by large, world wide known companies for continuous support
- Customized solutions possible
- High Specifications at Low Costs
- Long Availability

19" TFT Monitor with Stainless Steel Front Bezel

**UTICOR** offers a range of robust industrial panel mount monitors with a choice of different front bezel solutions. It is also possible to obtain customised Front plates and monitors which are mounted in a housing. Furthermore the 15" Monitor is available in a compact housing for VESA-Mount applications.

**UTICOR** uses for their monitors Displays from world wide known Companies, so we can

be sure that the display we are currently using has the same specifications like Contrast, Brightness and Viewing Angle as the display we were using six months ago or will be using in 3 months.

The monitors with 12,1" and 19" Display offer standard a VGA, DVI, S-Video and Composite Video input. The 15" Monitor can be ordered optionally with S-Video and Composite Video Input. The 10,4" Monitor offers a

VGA and DVI Input.

All monitors can be supplied with an analog resistive Touch Screen. The touch controller offers either a RS 232 or USB Interface for communications. Some monitors can be supplied with a capacitive or SAW (Surface Acoustic Wave) Touch. In cases the monitor is supplied without a touch screen, the Display is protected with a glass cover with normal, chemical or optical anti glare glass.
