

Enabling a better automotive world

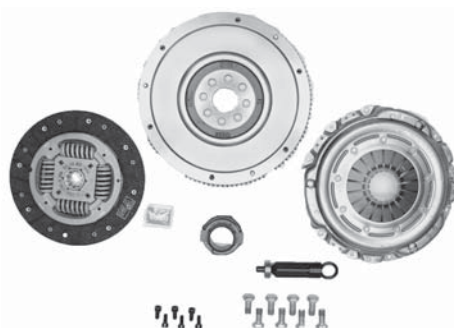

# Conversion Clutch Kits

Solid Flywheel Conversion Kits are the efficient, cost reducing alternative for applications that originally used a dual mass flywheel

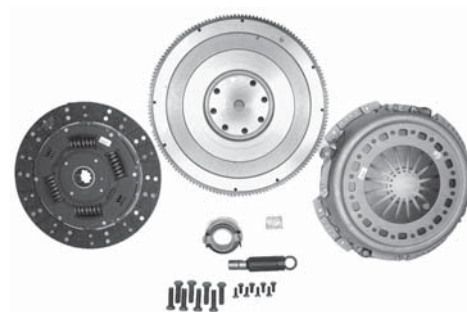

A variety of Conversion Kits available for these makes and models

**Audi**  
Quattro / A4 Quattro

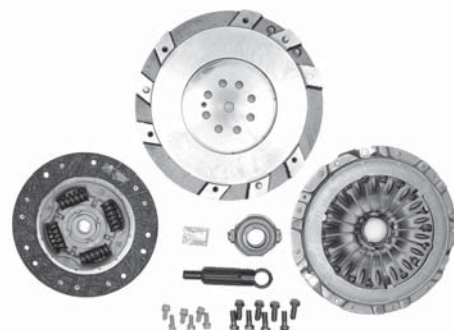

**BMW - Z3**  
318/325/524/525/528

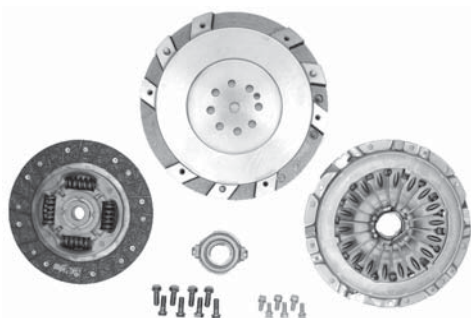

**Dodge**  
5.9L & 6.7L Ram

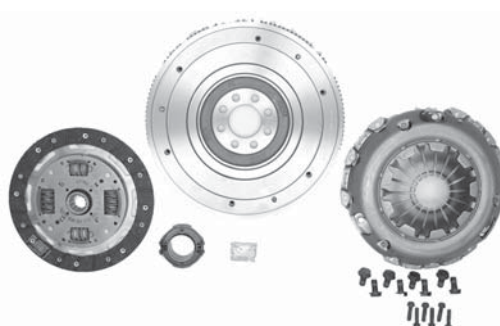

**Ford**  
F-Series Trucks

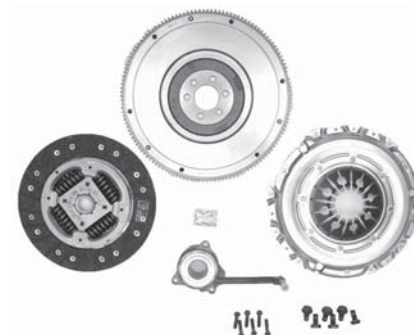

**Hyundai - Santa Fe**  
Sonata / Tiburon

**Kia**  
Optima

**Mini**  
Cooper S Series

**VW - Beetle / Golf / Jetta**  
Passat / Eurovan

# Abbreviations

|                                     |                                     |
|-------------------------------------|-------------------------------------|
| 2WD = 2 Wheel Drive                 | RVI = Renault Industrial Vehicles   |
| 4WD = 4 Wheel Drive                 | RWD = Rear Wheel Drive              |
| ABS = Anti-lock Braking System      | SFW = Solid Flywheel                |
| ac = Air Conditioning               | SHO = Super High Output             |
| ADJ. = Adjusting                    | SOHC = Single Overhead Cam          |
| AWD = All Wheel Drive               | SPD = Speed                         |
| BBL. = Barrel                       | STD = Standard                      |
| BW TRANS = Borg Warner Transmission | T/D = Turbo Diesel                  |
| Carb = Carburetor                   | T/O = Throwout                      |
| CB = Ceramic Button                 | TBA = To Be Announced               |
| CH# = Chassis Number                | TDI = Turbocharged Direct Injection |
| CMC = Clutch Master Cylinder        | TRANS# = Transmission Number        |
| CSC = Concentric Slave Cylinder     | Trans. = Transmission               |
| CSI = Clutch Size in Inches         | TRQ = Torque                        |
| CSM = Clutch Size in Millimeters    | V = Valve                           |
| CTD = Cummins Turbo Diesel          | VIN = Vehicle Identification Number |
| Cyl = Cylinder                      | VW = Volkswagen                     |
| DMF = Dual Mass Flywheel            | w/ = With                           |
| DOHC = Dual Overhead Cam            | w/o = Without                       |
| ENG. = Engine                       |                                     |
| EXC. = Except                       |                                     |
| F/W = Flywheel                      |                                     |
| FR. = From                          |                                     |
| FWD = Front Wheel Drive             |                                     |
| GVW = Gross Vehicle Weight          |                                     |
| HD = Heavy Duty                     |                                     |
| HP = Horsepower                     |                                     |
| INCL. = Includes                    |                                     |
| l = Liters                          |                                     |
| MUA TRANS = Isuzu Transmission      |                                     |
| Org. = Organic                      |                                     |
| PDH = Pre Dampened Hub              |                                     |

The Winning Combination of Quality and Performance

# Performance Clutch Kits

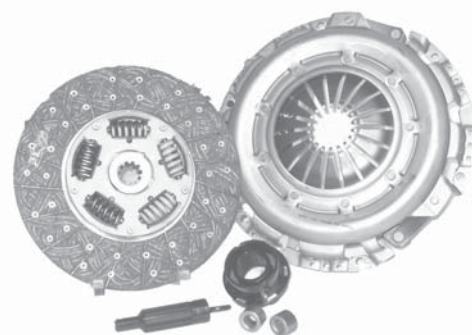

## Signature Series

The Valeo Signature Series is designed for drivers who demand higher than stock performance from their clutch without having to pay a premium price for it.

### Key Features:

- Up to 15% increase in holding capacity
- Performance friction material with a high burst strength
- Increased heat resistance and recoverability
- Excellent friction and wear performance

## DF-Pro Series

**Offering a balanced compromise of drivability and high performance with up to a 65% increase in holding capacity, the DF Pro is applicable to vehicles requiring all around and all out performance.**

The Valeo Dual-Friction clutch kit is a performance matched pressure plate & disc along with a release bearing, pilot bearing and alignment tool for complete installation. The DF-Pro pressure plates feature a centrifugal weight system (where applicable) and specialized machining processes to provide a performance clutch that offers exceptional street characteristics, while offering outstanding holding-capacity and durability. The DF-Pro discs have a full facing on the pressure plate side for drivability and longevity, while a carbon composite puck style (segmented) facing is used on the flywheel side for a positive engagement and increased holding-capacity. DF-Pro Series is engineered for enthusiasts who are looking for the ultimate in street/strip holding power and performance without sacrificing pedal effort and driver control.

# Part Number Information

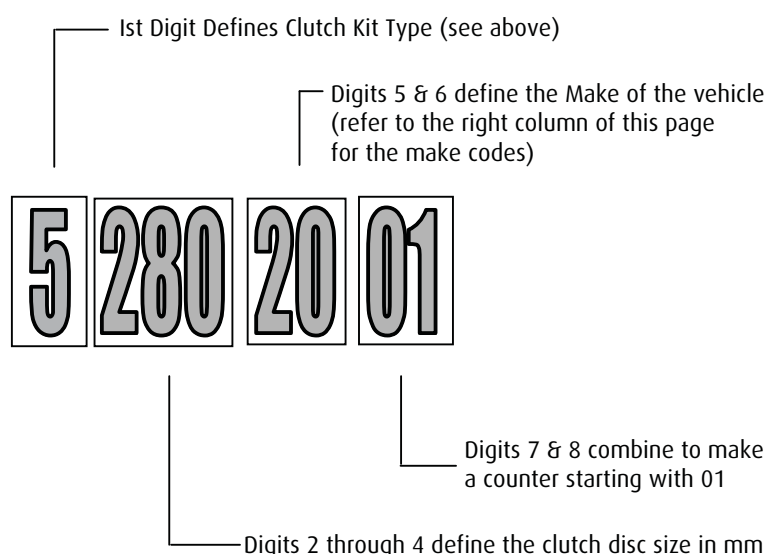

Valeo Clutch Kits - 8 digit number starting with 5

## Performance Clutch Kit Lines

Signature Series - 8 digit number starting with 6

DF-PRO - 8 digit number starting with 7

## Clutch Kit Part Number Intelligence

## Hydraulics

Master Cylinder - 7 digit number starting with 54

Slave Cylinder - 7 digit number starting with 55

## Flywheels

A six or seven alpha-numeric string starting with alpha followed by four numerics and finishing with one or two alphas

\*\*\* Please note that there are some kits that are used across multiple car makes.

\*\*\* The make codes are applicable to car and light truck kits. This does not apply to medium and heavy truck clutch kits. However, it does apply to performance clutch kit lines.
