VitrA 4D by Defne Koz

VitrA 4D Tile Collection – a whole new tile series created for VitrA by the accomplished industrial designer Defne Koz. Inspired by the three dimensional reality of modern life, the series introduces a new depth to ceramic tiles. The series is produced using unique materials as well as a special production technique, and the overall look is characterized by blurred textures, colors and geometric patterns. Designed to confer a fourth dimension to surfaces through a strong hint of time and motion, VitrA 4D Collection will enhance and invigorate all kinds of architectural environments.

With a wealth of patterns and themes offered in three separate series, VitrA 4D Collection sets you free to create your personal combinations.

Defne Koz

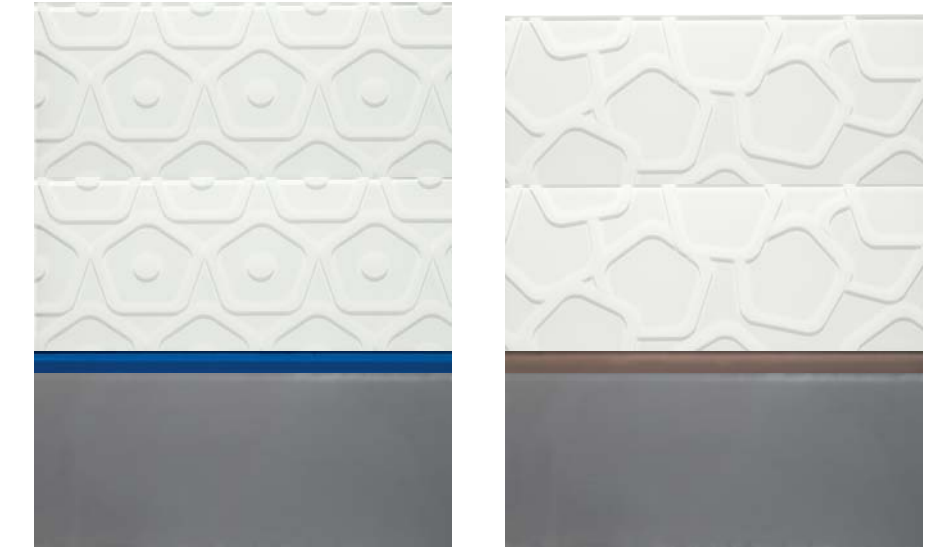

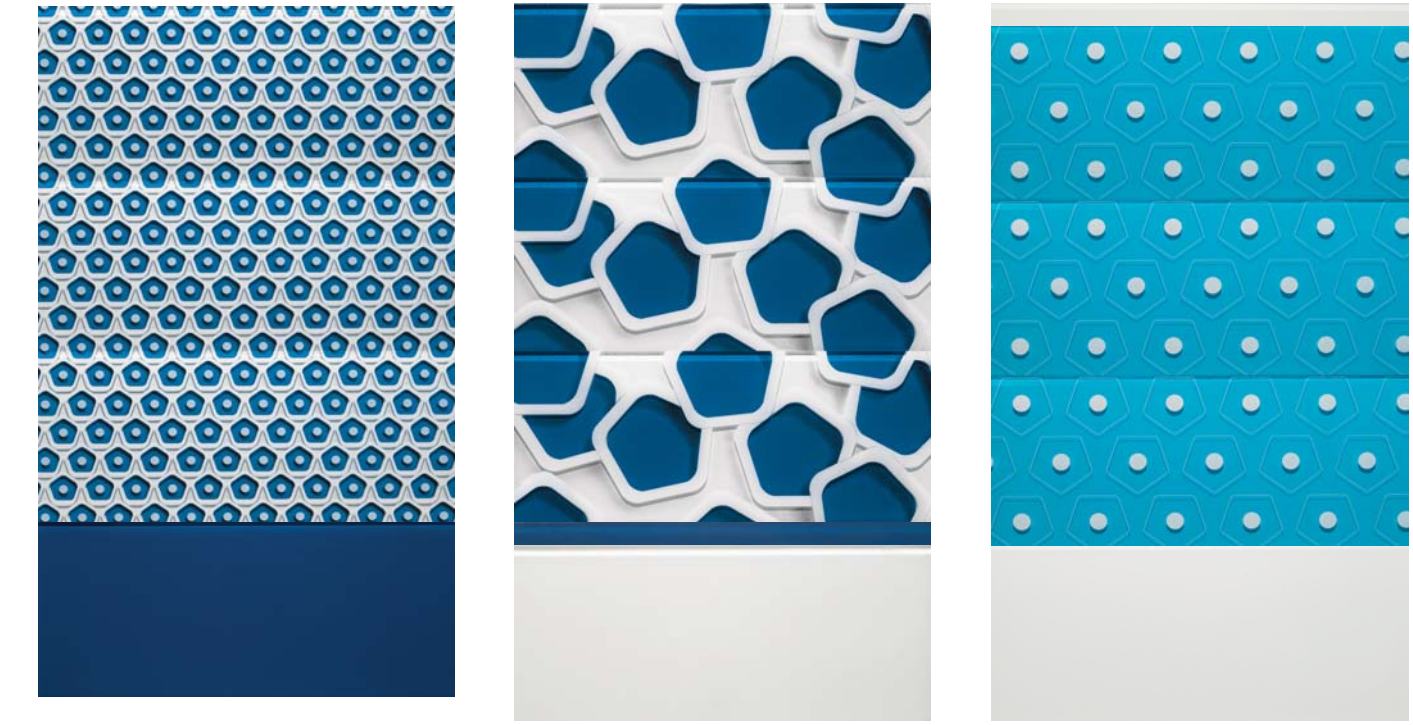

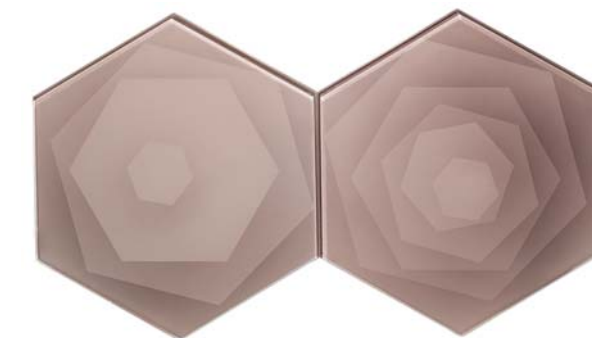

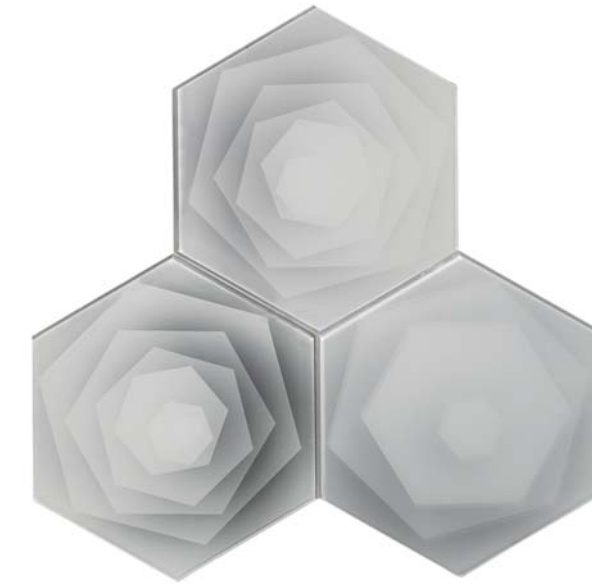

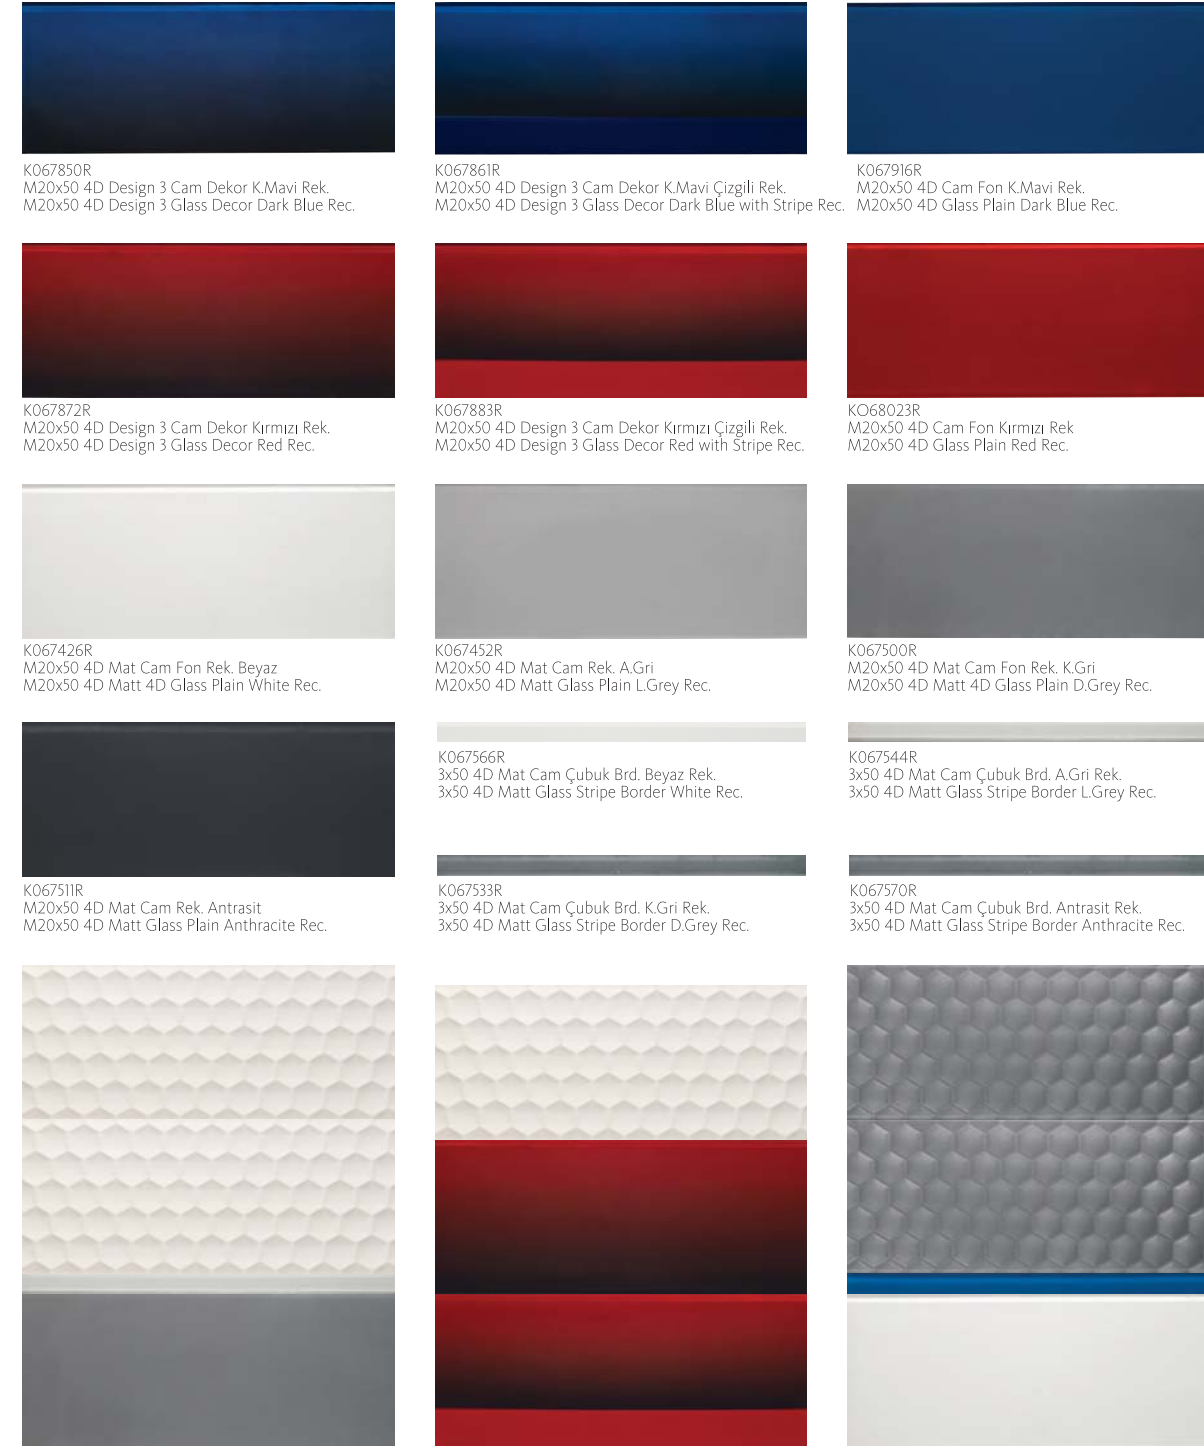

"VitrA 4D koleksiyonu zaman ve devinim hissi ile mekana derinlik katarak 4. Boyut etkisi yaratmak üzere tasarlandı. VitrA 4D karolarında 4. Boyut bazen üst üste gelen ve katmerlenen bir geometrik dekorasyon, bazen dokuların, renklerin ve desenlerin şulaştırılması veya hayali gölgelerle oluşturulan bir illüzyon."

Defne Koz

The VitrA 4D Collection is designed to create a sense of depth and give the sensation of a fourth dimension, the one of time and movement. This dimension is created by illusion, sometimes by overlapping and layering geometric decoration, other times by blurring patterns, textures and colors, or using fictional drop shadows that hint at an environmental light that shifts with time.

Rölyefli karolarda akışkan görünüm dalgali form ile sağlanırken, petek doku mekanda hareket etkisi yaratıyor. Rölyeflerle uyumlu cam karolar mekanda hareket duygusunu ve mimari vurguyu güçlendiriyor.

The sinuous form and honeycomb texture contribute to the appearance of fluidity. Glass tiles with matching reliefs provide a sense of motion accentuating architectural harmony.

Beşgen formların hakim olduğu seride koyu mavi ve turkuaz renklerde İznik etkisi hissediliyor. Desenlerin gölgeli baskısıyla artırılan 3. boyut hissi ve tasarımdaki çizgisel üslup geleneksel İznik çinilerine modern bir yorum getiriyor.

Predominantly featuring pentagonal forms, the series pays homage to classical İznik tiles in its loving use of dark blue and turquoise hues. The stylistic contours of the motifs offer a modernized interpretation of the İznik tradition.
