The Vitra PRO WC Pans, Bidets & Urinals catalogue was prepared so that you, as our stakeholders and professional partners, can complete your product selection process with ease.

When using the WC Pans, Bidets & Urinals catalogue, you can select the path and method that is most suitable for your project. It is possible to determine the specifications by reviewing the ceramics and complementary products compatibility table found at the end of the catalogue.

With the Vitra PRO WC Pans, Bidets & Urinals product catalogue, it is now easier to get detailed information about the most suitable products for your project based on the bathroom dimensions, features, compatibility of the alternative series and collections, as well as having quick access to the technical specifications of the products. The criteria for your search are totally based on your personal priorities and the space requirements. To find the products that are most suitable for your projects, simply scan the icons.

In order to make your decision making process easier and to accelerate your design process, we have revised our icons. At first glance, you will notice information on whether your preferred products have hygiene and water saving features, whether they are suitable for the physically challenged. We recommend that you take a look at the icon legend before using the catalogue.

Visit the professional users section at our website **vitra.com.tr** where you will find all the information found in the Vitra Pro WC Pans, Bidets & Urinals catalogue as well as more detailed data.

Practical and functional solutions for aesthetic bathrooms

Hygienic:

The wall-hung WC pan is mounted at a certain level above the surface, therefore the area and surface underneath can easily be cleaned.

Space Saver:

A larger bathroom environment is created with the space saving features of the WC pan cistern that is either in-wall or back wall concealed.

400 kg Endurance:

The wall-hung WC pan and concealed cistern was designed to withstand potential force of up to 400 kg ensuring user safety and reliability.

Aesthetic Ambiance:

The wall-hung WC pans that are mounted with concealed installation kits afford an integrated look to bathroom interior designs.

Easy Maintenance:

The cisterns have been manufactured with Vitro technology and you only need to unscrew the bolt to detach the cistern without intervening the WC pan.

Odor-free WC Pan:

The “Odor-free WC pan” system not only flushes away the particles that cause odors, it also has additional features. The photocell flushing system provides easy hands-free cleaning. With the help of double flush feature, water is saved and even periodic flushing if not flushed for a long period of time, a clean environment is guaranteed, providing hygienic and economical solutions to users.

Performance Test:

All WC pans are subject to a 6 L and 4 L performance tests at Vitra's Production Facilities to ensure that all the WC pan components operate problem-free.

Odor Test:

All WC pans are subject to an odor test to determine if there are any odor leaks before being shipped to the warehouse: products that failing the testing phase are not dispatched.

150 kg Endurance Test:

All WC seats are subject to an endurance test at the Vitra Productions Facilities to withstand 150 kg.

2.5 L / 4 L Flushing Performance:

The flawlessly designed WC pans save water and have a 2.5 L / 4 L performance rate.

Longevity Test:

All WC pan covers are subject to a longevity test at Vitra's Production Facilities where the lids are open and shut 30,000 times.

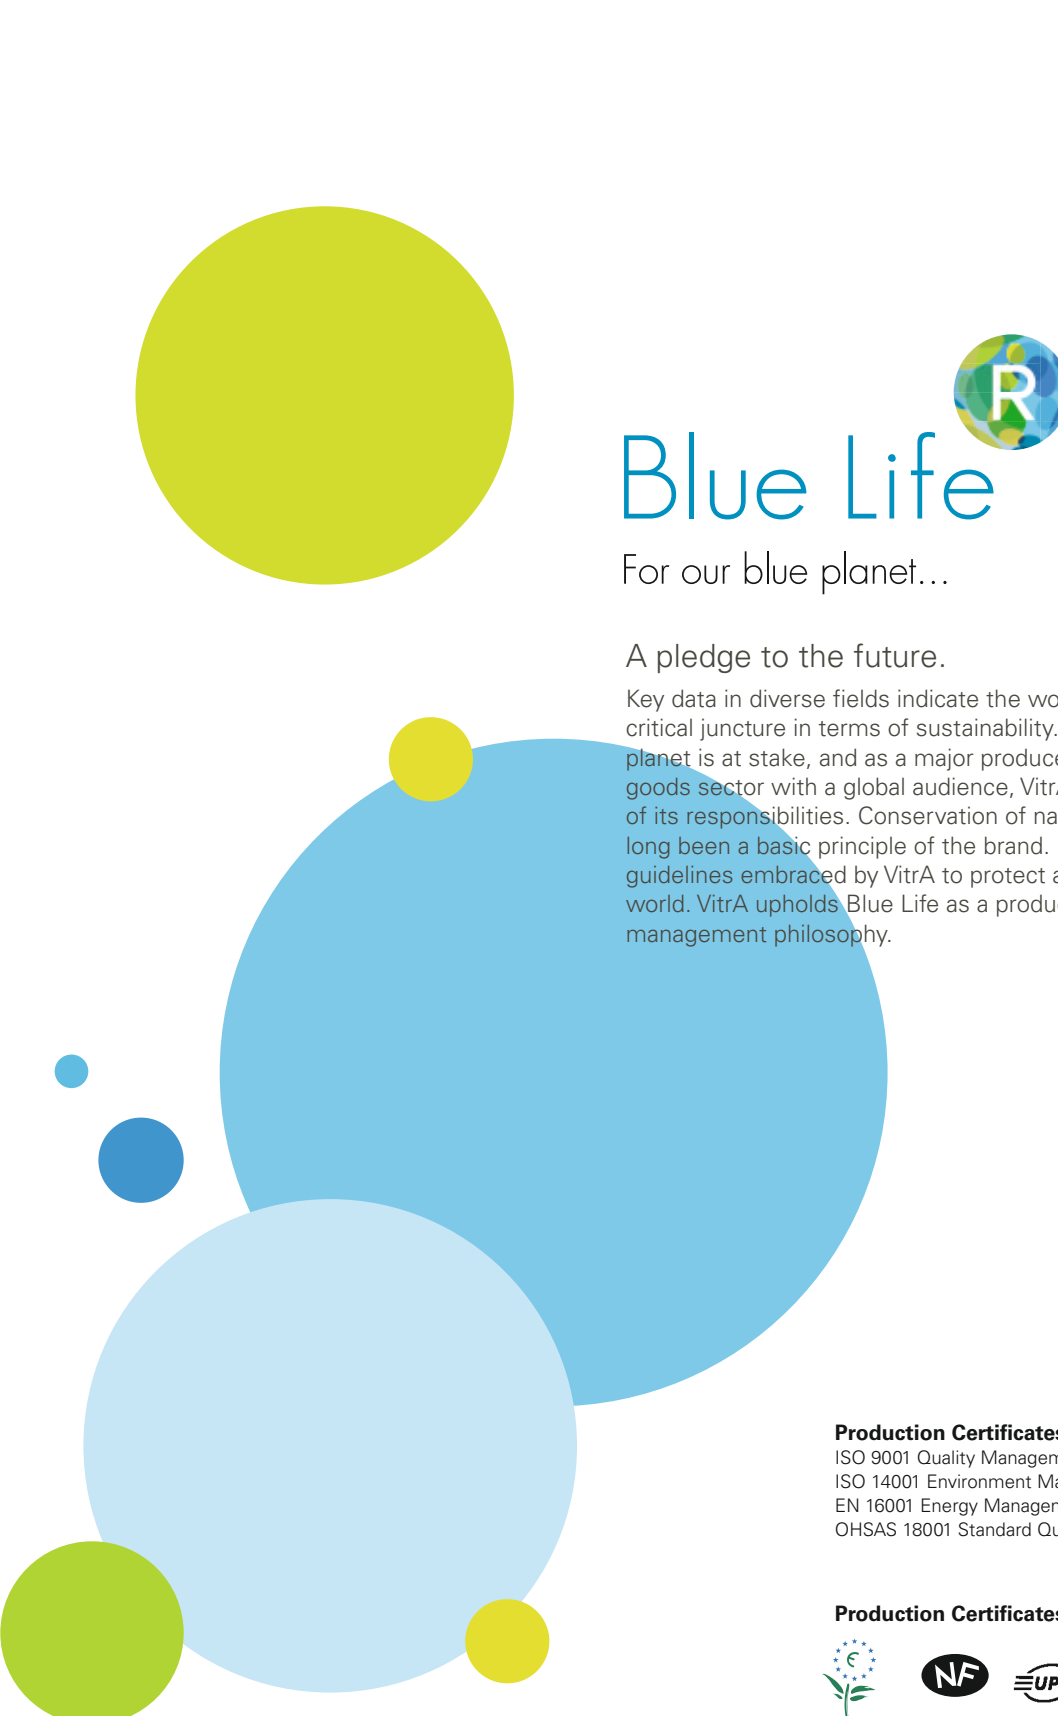

Performance Test:

All control panels are subject to a performance test at the Vitra Production Facilities where the products are operated 10,000 times to ensure optimum performance.

Soft Closing:

All Vitra WC pan covers have a soft closing feature which ensures safety and a quiet close.

Blue Life

For our blue planet...

A pledge to the future.

Key data in diverse fields indicate the world could be at a critical juncture in terms of sustainability. The future of our blue planet is at stake, and as a major producer in the consumer goods sector with a global audience, Vitra is strongly aware of its responsibilities. Conservation of natural resources has long been a basic principle of the brand. Blue Life is set of guidelines embraced by Vitra to protect and preserve the living world. Vitra upholds Blue Life as a production, design and management philosophy.

Production Certificates

ISO 9001 Quality Management
ISO 14001 Environment Management Standards
EN 16001 Energy Management Systems
OHSAS 18001 Standard Quality and Technique Consultancy Services

Production Certificates

The world's minimum water consuming WC pan:
2,5/4 L WC Pan

The world's first LGA approved 2,5/4 L flushing WC pan
saves up to 60% on water consumption.

A urinal that provides hygiene conditions without using water

The waterless urinal, which also eliminates bad odors, is equipped with a special cartridge that does not require water to provide a hygienic environment. Not only is it a water-saving product, but it is cleaned automatically without flushing.

Splatter-free urinal

The urinal has a splatter-free surface and sensor operated flushing technology, so excessive use of water is eliminated. As a result, to clean, less water and detergent is required.

VitrA hygiene

Bacteria Free

Moist environments require an advanced level of protection against harmful microorganisms. By adding silver ions to the raw glaze applicable to all ceramic sanitaryware (wasbasin, WC pan, bidet and urinal) and adding microban (a material that is unique to VitrA) to acrylic bathtubs and shower trays, VitrA hygiene offers almost 100% resistance to bacterial proliferation.

VitrA clean

Stain free

Water stains and limescale can ruin the appearance of a bathroom. VitrA clean technology involves a double glazing process that makes the ceramic surface of washbasins, WC pans and bidets water-repellent. VitrA clean eliminates the need for strong cleaning agents, and keeps ceramic sanitaryware looking their best for longer time.

Technical Specifications

Icon legend

Water savings

Developed by Vitra, the WC pans have been certified for using the least amount of water according to EU standards. The WC pans special cistern structure and WC pan connectors ensure 2.5/4 L flow.

No Stain

Limescale is persistent in most bathrooms. VitraClean technology is a special double-glazing process that makes washbasins, WC pans, urinals and bidets water repellent. No harsh chemical cleaning agents are needed to keep them beautifully stain-free for years.

No Bacteria

In moist environments, an extra degree of protection is needed to deter bacteria. VitraHygiene is a unique glazing process available on all ceramic sanitaryware (washbasins, WC pans, bidets and urinals). By adding silver ions to the raw glaze it offers almost 100% protection against the spread of bacteria. Extremely hard-wearing, VitraHygiene glaze will last the lifetime of any product it's been applied to.

Special needs

The bathroom products are designed for the elderly and people with special needs. The products offer practical solutions in bathrooms and can be used with wheelchairs as well.

Toilet seats, bidet & urinal lids compatible with WC pans, bidet & urinals
