The VitrA PRO Washbasins catalogue was prepared so that you, as our stakeholders and professional partners, can complete your product selection process with ease.

When using washbasins catalogue, you can select the path and method that is most suitable for your project. It is possible to determine whether the washbasins can be combined or not with the faucets in the series according to your project specifications by reviewing the compatibility table found in the catalogue.

It is now very easy to get detailed information about the most suitable products for your project based on the bathroom interiors dimensions and features as well as having quick access to the technical specifications with the VitrA PRO Washbasins product catalogue. To find the products that are most suitable for your projects, simply scan the icons.

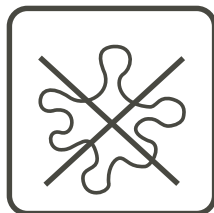

In order to make your decision making process easier and to speed up your design process, we have revised our icons. At first glance, you will notice information on whether your preferred products have energy and water savings features, information on materials used and whether they are suitable for the physically challenged. We recommend that you scan the icon legend before using the catalogue.

Visit the professional users section at our website **vitra.com.tr** where you will find all the information found in the VitrA Pro Washbasins catalogue as well as more detailed data.

Special washbasins for families

Family

A brand new washbasin suggestion for your family...

The easy to use Family washbasin's exclusive design makes it suitable for the entire family. The low washbasin is just the right height and is in easy reach of young children and adults. If desired, the washbasin unit can also be used for foot treatments, adding a brand new dimension and practicality to bathroom interiors.

T4

Ideal for family bathroom interiors, the double sink washbasin has a thin band passing through the center accentuating its style and perfect design. Also, the 130 cm washbasin unit is suitable for dual use.

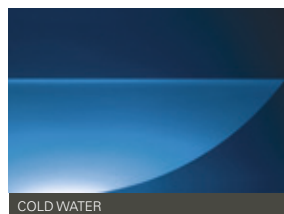

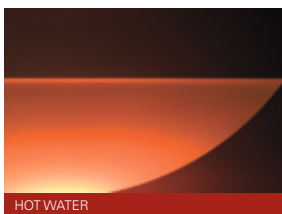

Washbasins and technology are one

High Q+

Washbasins with a luminous effect

When the LED's installed under the glass washbasin turn blue, it is cold and when red, it is hot. Additionally, when the LED lighting is combined with other striking colors, it creates a luminous environment in the bathroom interior.

A technology that is sensitive to nature and hygiene...

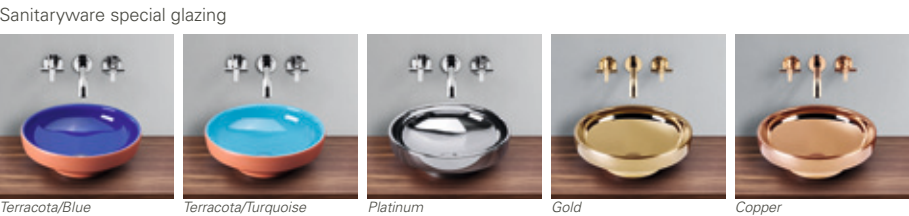

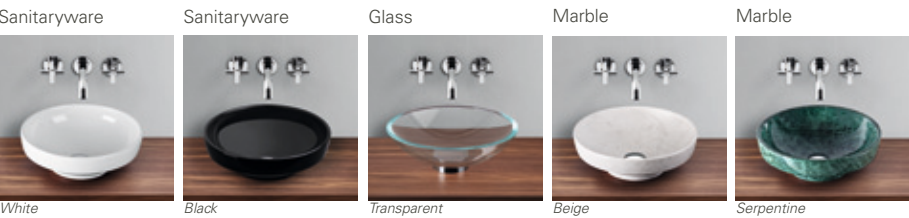

Even before your hand touches the faucet, because of the sensors that are installed underneath the ceramic body, water starts to run instantly. In conclusion, a high level of hygiene is attained.

Washbasin unit consists of glass washbasin, waste set, lighting unit, faucet and towel holder.

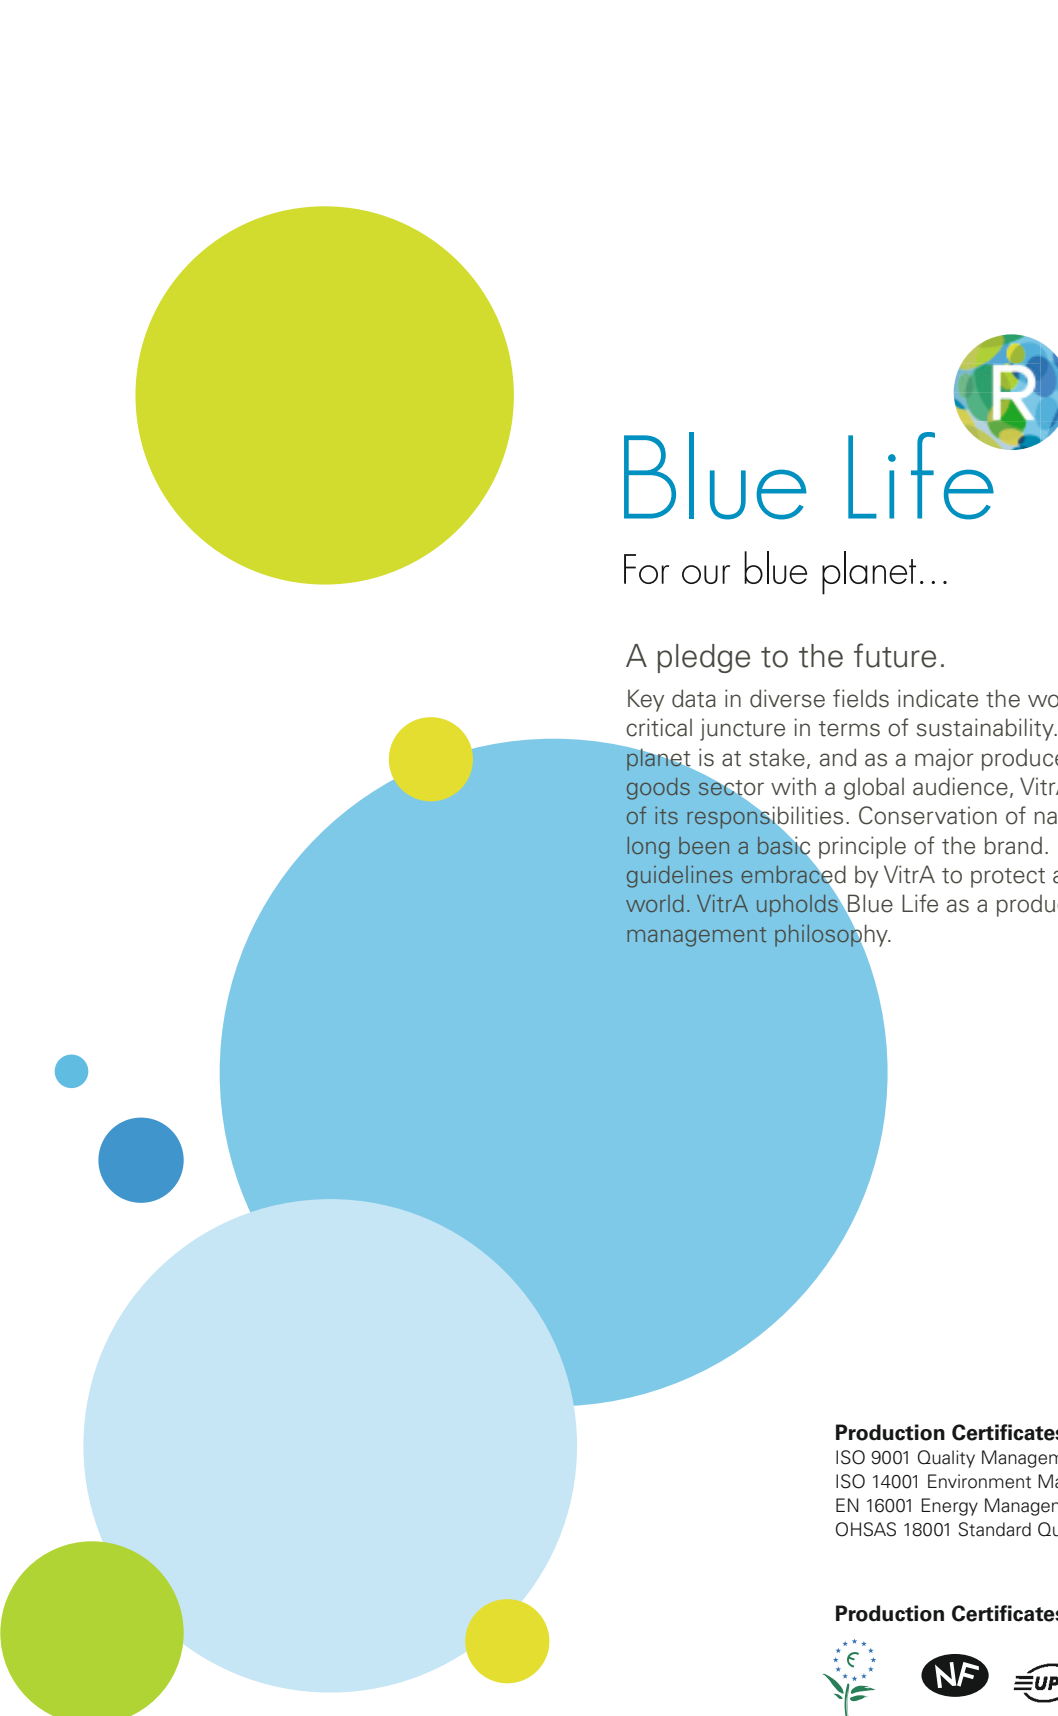

Different textures, alternative colors

The Water Jewels washbasins are available in a variety of colors and textures to include ceramic, marble, solid stone and glass. Faucets that can be combined with the colors gold and copper are also available.

In order to create distinctive innovations for bathrooms, Vitra has designed customized washbasins specifically for users. The Potsink washbasins are designed to create a natural environment for bathrooms.

Blue Life

For our blue planet...

A pledge to the future.

Key data in diverse fields indicate the world could be at a critical juncture in terms of sustainability. The future of our blue planet is at stake, and as a major producer in the consumer goods sector with a global audience, Vitra is strongly aware of its responsibilities. Conservation of natural resources has long been a basic principle of the brand. Blue Life is set of guidelines embraced by Vitra to protect and preserve the living world. Vitra upholds Blue Life as a production, design and management philosophy.

Production Certificates

ISO 9001 Quality Management
ISO 14001 Environment Management Standards
EN 16001 Energy Management Systems
OHSAS 18001 Standard Quality and Technique Consultancy Services

Production Certificates

A washbasin that uses less water

The MOD washbasin was designed to be only 6 cm deep, requiring less raw materials to produce and decreases the amount of water depleted by users.

VitrA hygiene

Bacteria Free

Moist environments require an advanced level of protection against harmful microorganisms. By adding silver ions to the raw glaze applicable to all ceramic sanitaryware (wasbasin, WC pan, bidet and urinal) and adding microban (a material that is unique to VitrA) to acrylic bathtubs and shower trays, VitrAhygiene offers almost 100% resistance to bacterial proliferation.

VitrA clean

Stain free

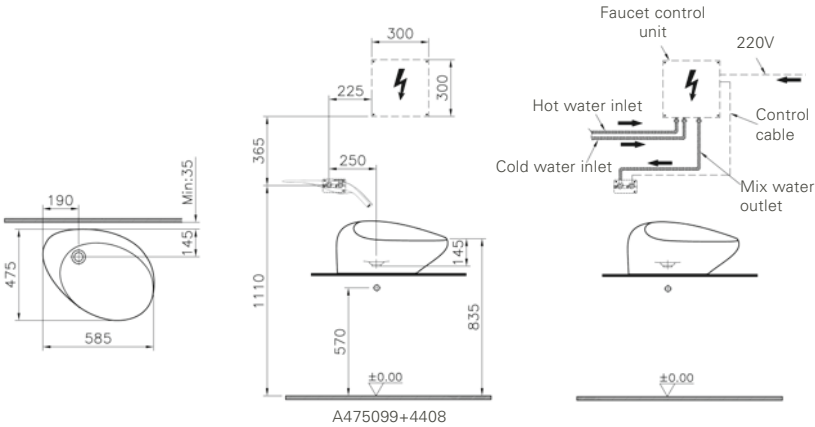

Water stains and limescale can ruin the appearance of a bathroom. VitrAclean technology involves a double glazing process that makes the ceramic surface of washbasins, WC pans and bidets water-repellent. VitrAclean eliminates the need for strong cleaning agents, and keeps ceramic sanitaryware looking their best for longer time.

Technical Specifications

Icon legends

No stain

Limescale is persistent in most bathrooms. VitrAclean technology is a special double-glazing process that makes washbasins, WC pans, urinals and bidets water repellent. No harsh chemical cleaning agents are needed to keep them beautifully stain-free for years.

No bacteria

In moist environments, an extra degree of protection is needed to deter bacteria. VitrAhygiene is a unique glazing process available on all ceramic sanitaryware (washbasins, WC pans, bidets and urinals). By adding silver ions to the raw glaze it offers almost 100% protection against the spread of bacteria. Extremely hard-wearing, VitrAhygiene glaze will last the lifetime of any product it's been applied to.

Special needs

The bathroom products are designed for the elderly and for people with special needs. The products offer practical solutions in bathrooms and can be used with wheelchairs as well.
