

VMS

Features

- Modular dimensions in increments of 4", from 12" x 8" to 24" x 16".
- Bases and end plates in fiberglass reinforced polycarbonate, with covers in polycarbonate.
- Covers transparent, opaque or DT cover, common design and depth.
- DT cover with double closure system: snap lock and additional fastening with thumb screws.
- Basic design incorporates removable side walls for easy access and wiring.
- Time saving coupling by means of vertical keys, sunk into the corner shafts, eliminating nuts, bolts and coupling frames.
- End plates, with or without openings, are snapped on from the outside and fixed by means of the vertical keys.
- Once mounted, end plates are flush with the side panels of the base.
- Depth extension frames provide additional 3".
- Accessories include mounting plates, DIN-rail mounting, fixing brackets, dead front cover plates with quarter turn fasteners.
- Temperature resistance: -58°F to +302°F (-50°C to +150°C), momentary +392°F (200°C)

Applications

Designed for use with panelboards, motor control centers and electronic instrumentation requiring high impact strength and IP65 rating.

Standards

IEC 529 & IP65
EN 60529

Enclosures for loadbreak switches

Enclosures with H.R.C. fuse plates

Modular dimensions in increments of 100 mm in height and width, available in five sizes:

320 x 220 mm	640 x 320 mm
320 x 320 mm	640 x 440 mm
440 x 320 mm	

Time saving coupling by means of vertical keys sunk into the corner shafts.

Excellent accessibility and wiring space for installation, mounting and cable connection, even after coupling.

Fixing points for accessories in increments of 25 mm in bottom plate and top end of the base.
Captive integrated gaskets on bottom and side.
Large rectangular passage openings.

Assorted covers: transparent, opaque, or hinged, common design and depth.

Cover recess for self-adhesive total installation icon.

Hinged cover with double closure system:
1. A snap lock
2. Additional fastening by means of two thumb screws

End plates, combi or blind, are snapped on from the outside and fixed by means of vertically sunk keys.

Once mounted, end plates fit perfectly flush with the side panels of the base.

Depth extension frames offer additional mounting depth of 75 mm for each box type.

Rectangular mounting plates (2 mm in metal or 5 mm in laminated pertinax) with mounting set. Usable mounting depth is maximized and not dependent on plate thickness.

Plain cover plates with quarter-turn fasteners. Cover plates are fully supported by the base top frame.

Bridges allow connection of heavy cables (320 and 440 mm sides).

Bridges are inserted after connection of cables (320 and 440 mm sides).

Universal cable entries and stress relieving cable clamps for cables up to Ø 75 mm can be located in any base on side 300 mm (for two cables) or on side 400 mm (for three cables).

Adjustment of depth in five increments, for DIN-rails, mounting plates and mounting profiles 12 x 2 mm.

Universal support for screwless and depth adjustable installation of component rails. The support is simply clicked over the base.

Stainless steel fixing brackets featuring three optional positions: 0°, 45° and 90°.

FRP NEMA 3, 3R, 4, 4X, 12 & 13 enclosures VMS with Opaque Cover

VMS ACCESSORIES

Universal support

To fit:

- mounting plates (metal or synthetic)
- cover plates
- copper rail 15 x 3
- copper rail 9 x 6.5
- mounting rail 12 x 2 mm

VMUS

Symmetrical DIN-profiles

Always supplied with two universal supports

1	VMDP08	220
1	VMDP12	320
1	VMDP16	440

Mounting rail 12 x 2 mm

To fit connection terminal blocks

Always supplied with two universal supports

1	VMMR08	220
1	VMMR12	320
1	VMMR16	440

Partition plates

For full compartmentalization of coupled bases

1	VMPP08	220
1	VMPP12	320
1	VMPP16	440

Fixing brackets

- Stainless steel
- For external fixing points
- Direct fitting through the corner shafts of the base
- To be installed prior to extension frame or hinge installation
- Three optional mounting positions (0°, 45°, 90°)

VMMB

Set of four brackets with screws

Air vent

Install two air vents per enclosure to allow ventilation to prevent condensation.

SEDV

Set of 2 pieces.

Hinge

Base must be fixed prior to hinge installation

VMSH

Set of 2 pieces.

Wingnut

For cover screw or hinge

VMTG

Set of 4 pieces.

Self-tapping screws

For fixation in the base

VM513

5 x 13 mm

VM516

5 x 16 mm

VM522

5 x 22 mm

To fasten components to metallic mounting plates

VM616

6 x 16 mm

VM622

6 x 22 mm

VMS ACCESSORIES

End plates

Blind end plates

VMEP08	220
VMEP12	320
VMEP16	440

Combi end plates

VMEP08K3	220	3 x PG 29

VMEP16K26	440	26 x PG16
VMEP16K14	440	4 x PG29 + 4 x PG21 + 6 x PG16

Cable entries

VMCAE12	320	Ø max. of cable: 2 x 75 mm
VMCAE16	440	Ø max. of cable: 3 x 75 mm

Cable stress release

With one clamp (Ø max. of cable: 75 mm)

VMCAS12	320
VMCAS16	440

Cable clamp

To mount on cable stress release
(Ø max. of cable: 75 mm)

VMCAC

Bridges

For large cross-section cables

VMBR12	320
VMBR16	440

Coupling key

For base coupling

VMCK

Coupling sets

To couple 2 sides of 220 mm to one side of 440 mm
With mounting accessories

VMCS

Coupling clamp

For coupling in special cases

VMCOC
